NO. 290

NEW THEORY IS ADVANCED BY HURLBERT

Alienist Says Franks Would be Alive Had Killers Not Been Acquainted

DEFENSE NEARS END

Hurlbert Declares That Loeb Was Real Killer; Traces History of Boys' From Babyhood

CHICAGO, August 9. — Had Nathan Leopold Jr., and Richard Loeb, youthful Chicago murderers never known each other, had they gone through life with other friends, it is entirely probable that Bobby Franks would still be alive.

This interesting theory was this morning projected in Judge Caverly's court by Dr. Harold Hurlbert, noted psychiatrist. Neither youth, Dr. Hurlbert said, had any stomach for the crime individually, but each "abnormal youth" brought to their strange association what the other lacked. They perfectly complemented each other, and the Franks crime was the result of their "diseased mentalities."

Thrown together, "they did not feel attracted by each other's personality, but their emotions were not strong enough to repel them, to keep them apart. Neither trusted the other implicitly," the alienist said.

Defense Ends Monday The defense will probably conclude its case Monday, attorney Clarence Darrow told newspaper men today.

Additional proof that it was the hand of "Dick" Loeb, and not that of Nathan Leopold that wielded the murderous chisel on the head of little Bobby Franks was offered this afternoon by Dr. Hurlbert. Dr. Hurlbert told the court he had asked Loeb who struck the blow.

"He told me he did it himself," said the alienist.

The point as to who actually struck the blow has been a moot one in the Franks case, and the state has never accepted the testimony of the brain experts on this point. With the exception of Dr. Bernard Glueck, of New York, none of the other alienists ever expressed an opinion as to who struck the blow. At the time of their arrest each accused the other.

Was Co-Author Dr. Hurlbert was the co-author with Dr. Karl M. Bowman, of Boston, of the famous Bowman-Hurlbert report, which traced the mental history of the boys since babyhood and found them both emotionally and morally defective despite the brilliance of their intellects.

The psychiatrist referred constantly to his already published report as he told of the physical aspects of Loeb's babyhood. When he got down to that part of his report where "Dickie" was said to be "cold blooded," State Attorney Crowe broke in on him:

"What do you mean, cold blooded," he asked sarcastically. "Physically or emotionally?"

NEGRO MURDERER WAS IN JAIL HERE

Wallace Wood, described in the Police Bulletin as a "very dark negro," who is being returned to Oroville, California, from Portland, to face a charge of murder, was in the city jail last night.

Sheriff Anderson, of Butte county, California, is driving back with his prisoner, and locked him up here overnight. He was arrested on August 1 in Portland. Near Oroville recently, he killed a Mexican section hand in an argument, and claims he struck in self-defense.

MARIAM BURNS WILL MEET GOLF CHAMPION

LAKESPORT, Ill., Aug. 9. — Barham Burns, western women's golf champion, will meet Edith Cummings, Chicago, national champion, Monday to decide the wearer of the western crown for another year. Both won in the semi-final matches today.

Pleasing News

It will be pleasing news to the housewives of the county, to know that a county home demonstration agent has been selected for Jackson county. No official announcement has been made it is understood that the agent is experienced, and will go on duty September 1.—Mall Tribune.

TOURISTS HAVE HOBBY FOR OREGON COYOTES

SALEM, August 9.—Four hundred orphaned coyote pups have found homes in the East and Middle West during the past year, according to Dr. W. H. Lytle, state veterinarian.

The pups, captured in Eastern and Southern Oregon, have been given away to automobile tourists who have a desire for a real live souvenir of the Northwest.

WORK UNDER WAY AT BOX FACTORY SITE

Grading for Railroad Spur Progressing; Lumber Arriving for Building

A visit to the site where the new box factory is to be erected reveals a scene of activity and indicates that no time will be lost in erecting the plant and placing it in operation. A force of men and teams are engaged in getting the site ready for the structures that will house the box factory equipment and grading for a railroad spur that will serve the factory from the main line of the Southern Pacific.

Lumber to be used in the construction of the factory is now arriving and a force of carpenters will be put to work at an early date on the building proper, but not until after the railroad spur has been completed. The latter will be installed, however, within a very short time.

Plans for the factory building proper call for a structure 58x144 feet and special timbers needed in the construction are being cut at the Coggin mill and will be ready for delivery at an early date.

A. C. Coggin, promoter of the factory, was in Ashland yesterday from his mill on this side of the Siskiyou mountains and reported operations proceeding there in a satisfactory manner. He informed the Tidings that everything would be done to get the box factory up and in operation as quickly as possible, saying that the desire existed to get the plant in operation at the earliest possible date.

UMATILLA CROP IS SHORT OF PREDICTION

PENDLETON, Aug. 9. — The wheat yield in Umatilla county this year will not exceed 3,500,000 bushels, according to the estimate made yesterday by Henry W. Collins, buyer, miller and grower. He based his estimate on grain already sold, deliveries to warehouses, and a check of the different parts of the wheat belt.

This is a reduction in former estimates, some of which were that the county might produce 4,000,000 bushels this year. Harvest has been earlier this season than for years, and Saturday night of this week will see practically the entire crop in the sack. About the only exceptions will be on foothill land, but that acreage is not big.

KLAMATH MOONSHINERS GET STIFF SENTENCES

KLAMATH FALLS, August 9. — Two moonshiners, J. W. Tucker and Jack McCoy received a stiff jolt Thursday morning when the justice of the peace here fined them \$500 each and sentenced them to 60 days in the county jail, after they had pleaded guilty to possession of a still, liquor and mash.

They were arrested Wednesday evening by state prohibition agent F. W. Snyder and special agent L. E. Thayer. They will probably be sent to the Multnomah county jail to serve their time, it was announced today.

WILD GAME LIFE IS BELIEVED IN DANGER

WASHINGTON, D. C. August 9.—Responding to petitions asking an immediate reduction in bag limits on wild ducks and geese, Secretary of Agriculture Wallace today announced that since the first migratory bird law became effective in 1913, the department has received requests asking for more migratory fowls.

It is the general impression, said Mr. Wallace, that the number of birds has increased, while as a matter of fact, they are only concentrated in untouched areas, their former homes having fallen before the onward march of progress. To conserve the migratory game birds, the bag limit may be reduced, it was said.

ASHLAND HAS BIG LEAD IN REGISTRATION

16,971 Out-of-State Permits Granted in State During July

4,489 GRANTED HERE

All States in Union and Three Foreign Countries Represented by Permits

SALEM, August 9.—During the month of July, 16,971 motor vehicles from other states and countries were registered in Oregon under the law providing for their registration from other states, according to the report made to Sam A. Kazer, secretary of state.

These registrations represent every state of the Union and countries of Canada, Mexico and Panama. The largest number of registrations was of California cars, of which there were 9,897 vehicles registered. Washington was next with 3,133, and Idaho third with 568. Thus far during the year 44,376 cars of other states and countries have been registered at the various registration stations established throughout the state. The registration requirement is for identification purposes of the exercise of the police powers of the state, as well as for the protection of the motor owner. The fact that the greatest number of registrations is made at those stations in the southern part of the state indicates that the travel over the highways is principally from the south.

Ashland Registered Most

During the month of July registrations were made at the several registration stations as follows: Albany 172, Ashland 4,489, Astoria 91, Baker 253, Bend 103, Corvallis 60, Eugene 283, Gold Beach 274, Grants Pass 1,365, Hood River 59, Klamath Falls 686, LaGrande 80, Marshfield 22, Medford 2,676, Milton-Freewater 539, Myrtle 156, Ontario 410, Pendleton 569, Portland 1,330, Roseburg 269, Salem 2,553, Seaside 29, The Dalles 496, Inspectors 7.

From the various states and land 1,330, Roseburg 269, Salem 2,553, Seaside 29, The Dalles 496, Inspectors 7. countries the number of cars registered during July was as follows: Alabama 7, Arizona 98, Arkansas 11, California 9,897, Colorado 212, Connecticut 21, Delaware 2, District of Columbia 12, Florida 31, Georgia 4, Idaho 568, Illinois 236, Indiana 100, Iowa 169, Kansas 161, Kentucky 16, Louisiana 10, Maine 8, Maryland 5, Massachusetts 45, Michigan 114, Minnesota 143, Mississippi 20, Missouri 138, Montana 214, Nebraska 137, Nevada 70, New Hampshire 3, New Jersey 38, New Mexico 9, New York 115, North Carolina 13, North Dakota 47, Ohio 189, Oklahoma 100, Pennsylvania 128, Rhode Island 5, South Dakota 57, Tennessee 14, Texas 97, Utah 98, Vermont 5, Virginia 17, Washington 3,133, Wisconsin 91, Wyoming 76, Hawaii 11, Canada 274, Mexico 1, Panama 1.

During the month of July the registrations were more than one-third of the total for the first half of the year 1924. August registrations can be expected to be much in excess of the registrations for July as that is the principal vacation month of the year, and Oregon will undoubtedly receive its first visit from many residents of other states during that month.

DEPOSITS IN STATE TOTAL \$267,813,697

Resources of 278 Banks \$318,901,712; Loans, Discounts, Borrowings Less

SALEM, August 9.—Resources of the 278 banks operating in Oregon at the close of business June 30, 1924, aggregated \$318,901,712.97 as against \$314,406,129.07 a year ago, according to a statement issued today by Frank E. Bramwell, state superintendent of banks.

Loans and discounts of these banks on June 30, were \$171,073,005.89 in comparison with \$171,860,269.76 a year ago. Deposits, except time and savings on June 30, 1924, aggregated \$168,061,861.75, as against \$170,656,660.38 a year ago. Time and savings deposits increased from \$92,254,602.29 on June 30, 1923, to \$99,751,836.18 on June 30 of this year. There also was an increase in total deposits from \$262,911,262.67 a year ago to

UP-TO-THE-MINUTE BULLETINS

U. S. MAY INTERVENE IN HONDURAS REVOLUTIONS

WASHINGTON, August 9.—Intimations that American armed intervention will soon take place in Honduras to stamp out the continuous revolutions is evident in government circles. Many American lives are endangered and millions of dollars of American export property have been destroyed.

COMPULSORY SCHOOL CASE GOES TO WASHINGTON

PORTLAND, August 9.—Documents in the Oregon compulsory public school attendance test cases were forwarded to Washington, and the law which was declared unconstitutional by three federal district judges here thus goes to the United States Supreme Court for final decision. The case may be argued this fall.

TERRIFIC STORM HITS INDIANA

CHICAGO, August 9.—Another terrific storm, accompanied by lightning, swept through central Indiana, killing five people. Property damage will run into the millions. The inhabitants of Illinois, Wisconsin, Iowa and Indiana are still digging themselves from the debris which was strewn in sections after yesterday's disastrous storm.

GIBBONS WINS IN THIRD ROUND

LONDON, August 9.—Tom Gibbons, American, light heavyweight champion of the world, knocked out Jack Bloomfield, England, in the third round of today's fight, after having twice floored the husky Briton. Gibbons was a 5 to 2 favorite before the fight, which was scheduled to go 20 rounds. A great crowd was present. Bloomfield was no match at any time for the American champion.

FORMER U. O. MAN CHARGED WITH KIDNAPPING

EUGENE, August 9.—Will Goetting is being sought about Boston, Mass., on the charge of kidnaping his five-year old daughter, Elsie, from the home of the child's mother there. Goetting was a member of the University of Oregon faculty in 1923-24, school of business administration, is a graduate of Harvard, and attended high school in Seattle. The couple quarreled last spring and Goetting was locked in jail for part of a day. Mrs. Goetting, according to reports, had begun divorce proceedings in Massachusetts and had won temporary charge of the child.

SAY SUICIDE ATTEMPT DUE TO HAIR BOB

SACRAMENTO, Aug. 9.—The theory that Mrs. Charlotte Kurtz's attempt at suicide in the Hotel Argus yesterday was the result of despondency due to disappointment over the loss of her hair was advanced by the police in their efforts to account for her action in swallowing a heavy dose of bichloride of mercury.

Investigation by the police developed that Mrs. Kurtz was the possessor of a heavy mass of dark brown hair, the envy of her friends, until a little more than a week ago, when she bobbed her tresses and then had her hair bleached.

Friends who say her at the hospital following her attempt at suicide say the loss of her tresses and the bleaching process had changed her appearance greatly, and it was believed her sorrow at the loss of her hair and her changed appearance might have impelled her to suicide.

BABE HERMAN WINNER ON 16-ROUND BOUT

PORTLAND, Aug. 9. — Babe Herman, Los Angeles, won an easy decision over Joe Leopold, Oakland, in a ten round bout here last night. Billy Mascowy fought a six-round draw with Frankie Grandetta of Hollywood.

Stopped Here—C. A. Davis and wife, of Oregon City, and F. W. Miller and wife, of Berkeley, were among the tourists who stopped at the Columbia hotel. Both parties are touring up the coast.

FRENCH WORLD FLIER IN CHINA

FRENCH GLOBE GIRLDER

A snapshot of Captain Pellitier D'Oisy, the French flyer, taken upon his arrival in Peking, the capital of China, flying an airplane borrowed from General Lu, the Military Governor of Chekiang Province, after he had crashed at Shanghai. From left to right, Captain D'Oisy, Sergeant-Major Besin, his mechanic, Colonel Chao, a Chinese aviator, and M. Fleuriat, the French Minister to Peking. Insets—A close-up of Captain D'Oisy and Sergeant-Major Besin in a crowd of Chinese admirers a few moments after they landed at Peking after an all-day flight from Shanghai.

FLIERS MAY MAKE HOP OF 750 MILES

Is Only Alternative Left Lieutenants Smith and Nelson

MAY CALL OFF FLIGHT

Ice Fields May Compel Abandonment of Trip; Seattle Marks End

WASHINGTON, Aug. 9.—The seven hundred and fifty mile hop from Reykjavik, Iceland, to Cape Farewell, at the southern tip of Greenland, is looked upon by United States air service officials here as the best course to be taken by the Lieutenants Smith and Nelson, American round the world fliers, who are still at Reykjavik due to ice fields preventing the resumption of the trip. In fact, it is stated in some circles, that the 750 mile hop to Cape Farewell offers the only alternative to the intrepid fliers, who when nearing the borders of their country and desired goal seemed to be confronted with a barrier that is insurmountable.

Reports received from Lieutenant Smith, commander of the historic flight, indicate that it will be virtually impossible either to establish a base at anmagssalik, due to ice, or refuel the airplanes at sea.

May Call Off Flight

REYKJAVIK, Iceland, Aug. 9.—A definite decision will be made in a few days whether an attempt will be made to continue the flight of the American fliers across the Atlantic or fall the expedition off. Ice fields present a strong barrier against continuing the unbroken flight home-ward.

Planes to Tour Country

LOS ANGELES, Aug. 9.—General John J. Pershing, acting secretary of war, advised the Los Angeles chamber of commerce that the round the world fliers will officially end their flight at Seattle. He said the planes would tour the United States after being reconditioned at San Diego.

ASSOCIATION PLANS TO ADMIT TOURISTS FREE

Cars from other states will be admitted free to the Jackson county fair, the Association recently announced. An attempt will be made to get every tourist in southern Oregon between September 10 to 13 to visit the fair and free admission is promised as an inducement. In this way the entire southern Oregon and northern California districts may show tourists their products, and the districts will gain much valuable publicity, it was explained.

Josephine county authorities favor making an exhibit, and are asking the growers for cooperation. Five thousand dollars in purses are offered for horse racing and 100 driving horses and nearly 40 racers have been signed up.

GETS JAIL SENTENCE FOR LOSING MEMORY

Companion, Married Woman, Promises Judge to Stay Home Until Husband Comes

PORTLAND, August 9.—Glenn Standage is serving a jail sentence for "loss of memory." When arrested for drunkenness in company with Mrs. Helen Davis, a married woman he told the judge "he couldn't remember who sold him the booze."

"All right, I'll just continue the case for sentence and in the meantime you can be thinking up in jail who your misguided friend was," said Municipal Judge Ekwall. "Come back when your memory is better."

The testimony showed that Standage took Mrs. Davis to a public dance hall while her husband was absent on a trip East. In the course of the evening 12-odd refreshments entered the festivities and later the couple was found asleep in an automobile by Patrolman Arnold.

Mrs. Davis came to a realization of the error of her ways and promised the court to stay away from public dance halls and behave herself as becomes a married woman until her husband returns from his trip. Meanwhile, Standage, her male companion, is in the city jail thinking it over.

SISKIYOU COUNTY IS DRY BEYOND QUESTION

CECILVILLE, Calif. Aug. 9.—For the first time since its founding in the early 50s, Cecilville is entirely without water. Not only is the ditch from Crawford Creek dry but the spring has failed. John McBroom is running a tunnel into the mountain in search of water and hopes to reach the source of at least one of the two springs which used to supply water in early days.

HUGHES RETURNS FROM CALIFORNIA

Ashland High School Coach Took Courses in Athletics From Famous Mentors

With Coach Walter Hughes, of Ashland, back from the University of California, where he took football coaching under Andy Smith, and basketball coaching under Nibs Price of the U. of C., and Coach Miller of Wisconsin, and with Coach J. P. Brown, of Grants Pass, back from Los Angeles, where he took football under Kaute Rockne, of Notre Dame, some close competition is promised for athletic fans this fall.

At the U. of C., Mr. Hughes studied law, and the last three weeks of the summer session, took the coaching courses in basketball and baseball. There were about 60 high school and college coaches enrolled in the class.

Last fall, Andy Smith's charges cleaned up the Pacific coast in collegiate football, and Nibs Price's basketball men annexed the coast championship, which indicates that the coaching methods studied by the Ashland mentor are a highly successful type.

"What Ashland will do in football this year is doubtful," said Mr. Hughes today. "Practically all our experienced men have graduated, but other valley schools, face the same dilemma. It is possible that a few men may enter from other schools, and several men who were on the second squad last year may develop into stars."

JAP POPULATION ON DECREASE IN STOCKTON

STOCKTON, Calif., Aug. 9.—The membership of the Stockton Japanese association has dwindled from over 2000 to less than 800 since the Japanese exclusion bill became effective, says Y. Maruyama, assistant secretary of the Stockton organization.

"Before the passage of the law," said Maruyama, "there were over 5,000 Japanese in the Stockton trading district, including children. Now there are less than 1,500 and many are leaving every month in order to become located in San Francisco or Los Angeles where they plan to become established in some business."

BIG FEATURE PLAY COMING TO VINING

Tomorrow and Monday, Ashland residents have an opportunity of seeing "Fools Highway," one of the feature photoplays of the year, which is based on Owen Kildare's amazing life story, "My Mamma Rose". The play was produced by Universal, which came to the front by producing "The Trenchback of Notre Dame," "Merry Go Round," and other big plays. Mary Philbin, the star of "Merry Go Round," plays the leading role in "Fools Highway."

Tonight the Metro laugh hit, "Don't Doubt Your Husband," plays its last in Ashland.

PIONEER CLUB BOYS TO CAMP AT LAKE

Through a misunderstanding the camp to be established at Lake of the Woods Tuesday, August 11 will be for the members of the Pioneer Boys' clubs, instead of the Boy Scouts, but effects no change whatever in the arrangements for making the camp nor in the schedule of events. The Pioneer Boys' clubs is a branch of the Y. M. C. A. work and a good membership is represented in Ashland.

Those sponsoring the movement announce that a sufficient number of cars has not yet been pledged to convey the boys and camp equipment to the lake Tuesday morning. Those who can spare an automobile for the day are urged to communicate with O. F. Carson or W. R. Henry.

FOREST DEPT. WILL CLOSE WATERSHED

All Trespassers Will be Arrested and Vigorously Prosecuted

FIRE HAZARD IS CAUSE

Will Issue Permits in Extreme Cases; Rangers Are Posting Notices

A message to the Tidings from Hugh B. Rankin, forest supervisor at Medford, conveys the information that the Forestry Department, through District Forester Geo. H. Cecil, Portland, has ordered the closing of the Ashland creek watershed to all forms of travel. Supervisor Rankin also stated that two rangers had been dispatched to the water shed to post notices warning the public not to trespass with the area and said violation of the order will result in arrest and prosecution, irrespective of persons.

Action looking to the closing of area was initiated by Forest Supervisor Rankin who took the matter up direct with District Forester Cecil. The latter, in turn, communicated with the Forestry Department at Washington and obtained the order closing the water shed to all persons.

Regarding Permits

Supervisor Rankin says that in case it becomes absolutely necessary for any person to enter the area permits will be issued, but will be limited to those who have urgent business demanding their presence within the water shed.

Smoking Prohibited

The order further provides that smoking be absolutely prohibited by any person to whom a permit is issued to visit the water shed, and this applies to all city employees as well. City employees are often compelled to perform various duties in connection with the water and electric power supply within the boundaries of the shed and they are warned not to smoke.

Fire Hazard Considered

In issuing and enforcing the order the Forestry Department was prompted solely by the extreme fire hazard which prevails with the water shed, realizing that if the municipal water supply is to be protected, drastic action is necessary.

Cooperates With City

The action taken by the Forestry Department affords close cooperation to the City of Ashland, which several weeks ago took steps to close the water shed. To accomplish this, the city requested the county court to vacate the county road which leads up Ashland creek. The request was granted and a barrier placed in the road which has prevented the entrance of vehicles and people on horseback.

People here, however, climbed the mountain on either side of the entrance to the water shed and walked up the creek any desired distance and enjoyed picnic dinners and other amusements, despite the order of the city. The action by the Forestry Department will strengthen the rule, however and rangers will be expected to see to it that the order is rigidly enforced.

Situation Is Critical

Mayor Loomis and members of the council say that they regret closing the creek and canyon to the public, but set forth the fact that once a fire gets beyond control within the borders of the water shed, all standing timber and brush would be destroyed and the water supply of the city damaged to an irreparable extent.

Where to Get Permits

Permits to enter the water shed are procurable only at the office of forest supervisor at Medford and cannot be obtained in Ashland. The impressions prevail that either the chief of police or chief of the fire department can issue permits and many make applications daily, but neither is allowed to issue permits.

SLEEP WALKER FALLS FROM WAGON; DIES

CHICO, Calif., Aug. 9.—Walking in his sleep led to the death in Chico yesterday of J. A. Carter, 61, ranch hand employed south of Chico.

He went to sleep on a hay rack near the Sacramento River and got up in a state of somnambulism. He fell from the wagon and landed on his head, resulting in paralysis from which he died in a Chico hospital, where he was taken the day after he fell.
