ZEROLENE leads in SALES

Classified Ads Bring Results

Zerolene "F" for Fords, the Standard Oil Company's new oil for Ford cars, was for the first time drawn from the pumps at garages and at Standard Oil Company Service Stations and offered to the public about the middle of last December.

The response of the motoring public was immediate and overwhelming. Today Zerolene "F" for Fords is the most popular oil on the market for Ford lubrication.

#### Lubricates Better-Costs Less

The verdict of users verifies the claims of our Research Engineers-that Zerolene "F" for Fords meets the special requirements of the Ford lubricating system better than any other oil.

Yet it costs not more but less than any of the special Ford oils on the market.

### A-Longer Life for Your Ford

We believe that Zerolene "F" for Fords will increase gasoline mileage, reduce carbon removal operations, and lengthen the working life of every Ford in which it is used.

A Ford is an A-1 transportation investment. Protect your investment by proper lubrication:

at the ends as shown in the upper

the engine, and a heavy snow prevented towing the car. However, the following scheme proved effective: Another auto was run up alongside it so that the two adjacent rear wheels of both cars were in line and could be lashed together with a rope. The axles of both cars were, of course, jacked up to keep the wheels in alinement and prevent the cars from moving. The second car was then started and both cars thrown into high gear with the result that the first one was quickly started.

After repairing a car by fitting some new bearings and taking up the old

rent on offices. ones, it was found impossible to crank
