Mrs. L. S. Brown, Mrs. F. F. Whittle, Misses Emma Jenkins, Ruth Osmun and Georgie Coffee motored to Medford last evening and visited Reames Chapter, No. 66. O. E. S. Mrs. Mary Alice Burdette, Worthy Grand Matron of Oregon, was making her official visit to Reames chapter. She will visit Alpha chapter Saturday evening.

Another big dance Jackson Hot Springs Sat. nite. 21-3*

At Hotel Ashland—
Included in the out-of-state guests at the Hotel Ashland are: J. F. Wertz, J. Hazard, Seattle; S. Hiscock and wife, Rice, Minn.; J. D. McGee, Seattle; Edward F. Linsin, San Francisco; W. H. Laidlow, Chicago; Wm. J. Powers and wife, San Francisco; L. Eader, Los Angeles; P. A. O'Hair and wife, Bremerton, Wash.; Wm. H. Shaw, Denver, Colo.; Mrs. Mary Seavers and Miss Rita Seavers, Los Angeles and Mr. and Mrs. C. C. Chapman of Eureka, Cal.

Let us fill your pail with Swifts Silver Lax. Costs less than shortening, goes farther and is more nutritious. Detricks. 94-1f

Receipts, Prices—
Word was received in Ashland today that Miss Mary Galey had received first place in the first division of sewing at the State Fair and that Ellen Galey had received second place in the individual canning division of her fruit. The stock judging team did not receive a place this year and results of the canning team, consisting of Ellen Galey and Adena Joy, have not yet been decided, as the demonstrations of canning have not been completed.

SPECIAL attention to AUTO-MOBILE insurance, better terms and lower rates. Yeo, of course. Phone 21 & 274-J. 212-1f

DeMolay's Meet—
The De Molay's held their regular meeting last night and celebrated educational day. A very good program was given consisting of a report on statistics by Marcus Woods, acting Junior Counsellor. Orville Hall, Senior Counsellor gave a talk of the "Value of Education" and V. V. Mills spoke on the Purposes of an Education. The regular business meeting was followed by a short social hour.

Circus Day—
Today is circus day and the school board has given a blow to the pupils of the public schools by issuing an edict that the schools not only remain in session all day Thursday, but that no excuses can be accepted by the teachers from any pupil's parent to attend the circus. The circus does not give a parade and nothing seems to be in sight for the school children but much gloom, except possibly a view of the circus grounds before and after school at the end of South Holly and South Ivy streets this morning and late afternoon.—Medford Mail Tribune.

See Paulserud's for the latest in Fall suits and woollens.

DAVIS STILL WRACK AT BIG POLL
(Continued from page 1)

idge has been given more than twice as many as La Follette. The Digest calls attention to the fact that the vote so far is mostly from the cities and that the rural voters, who are usually heard from later than the city voters, have not been returned.

A feature of the present ballot is the entirely unexpected vote that is coming in for the prominent cartoon "movie" politician, Mr. Andrew Gump. Mr. Gump, whose political speeches and remarkable features adorn newspaper comic pages throughout the country, has received a total of 50 votes thus far in the Digest poll, the voters scratching various candidates in order to express their approval of the Gump candidate. Will Rogers, with ten votes, is running second to Mr. Gump in what he termed an unofficial annex of the poll. Dinty Moore has three votes. John T. King, friend of William H. Anderson, receives one vote. Luis Firpo gets one. Henry Ford draws several, and the Prince of Wales is preferred by at least two voters, one of whom writes what may be considered a delicate feminine hand.

The vote in the second count is as follows for the three main candidates:

California Coolidge Davis La Follette
Illinois 22,438 3,008 19,829
Kansas 36,309 8,147 12,725
Minnesota 5,135 1,443 1,335
New Jersey 15,690 2,341 8,464
New York 6,504 1,547 1,578
Ohio 17,920 2,764 3,098
Pennsylvania 25,341 7,426 6,842
Texas 22,124 4,875 5,864
Virginia 4,298 7,312 1,122
Washington 896 1,510 186
West Virginia 2,252 453 1,228
State unknown 1,449 932 158
TOTAL VOTES 162,473 42,611 63,524

Here—
Mr. Proctor, insurance agent of the West Coast Life Insurance Company was an Ashland visitor from Medford today.

Stopping.
Among those stopping at the Hotel Oregon are Mr. and Mrs. C. A. Winan, Alhambra, Cal.; J. Henry Lippitt, Santa Ana, Cal.; Mrs. R. A. Vadrakis, Los Angeles; Mrs. Fisher Thompson and Mrs. John Fletcher and son, Butte, Mont.; R. F. Reehling, Los Angeles; Dr. and Mrs. E. J. Steen, Fullerton, Cal.; J. J. Fisher, Coalinga, Cal.; Mr. and Mrs. J. Mattingly, Los Angeles; Mr. and Mrs. Burt H. Jayne, Palo Alto.

KOZER SAYS ASHLAND PROGRESSIVE COMMUNITY
(Continued from Wednesday)

But to give you an idea of the importance and possibilities of this enterprise, even during this

short and disrupted time, and the limited amount of raw produce available, we have used in these 35 days, about \$7000.00 worth of raw produce, all of which goes direct to the producer, and have paid out \$5000.00 for labor all of which has gone to the people of Ashland. This is an average of about \$200.00 per day for produce and \$150.00 a day payroll.

The conditions presently obtaining in the cannery business, due to short crops and a light carry over, of most stocks from last season, which makes the current pack in fairly brisk demand with prices on the upgrade, compare somewhat to war time conditions, of which you merchants are doubtless aware, particularly if you don't happen to be pretty well covered on futures.

This puts us in a position of which I am reminded of my friend Mr. Hoke, who formerly conducted the Medford Cannery. Mr. Hoke had a well earned reputation of being overly optimistic to say the least, and this was back around 1917, or 18, when we had a short crop of tomatoes and which was cut still shorter by an early fall frost.

About this time I dropped in to see Mr. Hoke one day and we were swapping lies about each others business, when I incidentally asked him what kind of a season he had and he said "I just lost \$10,000." I said: "This is quite a loss isn't it, how did it happen?" "Why," he said, "if this frost had just held off another thirty days, I could have sold all the tomatoes I could pack and would have cleaned up \$10,000.00 like a top."

So you see I am already prepared by Mr. Hoke's method with an alibi to my bankers for a non-profitable season even though we don't have an early frost.

However, with all of our bad growing season, I am not at all discouraged with our operations this season, having been fortunate in securing a very fair pack of pears, which is positively the strongest item on the canner's list today. We are just completing our pear pack and will be fortunate in making full 100 per cent deliveries against sales and with quite a substantial surplus in some grades, that is we did have up until this morning, which were used to good advantage in forcing the sale of some slow moving stocks carried over from last year.

The greatest disappointment of our pack here this year were black-berries and stringbeans, on both of which items we are going to fall down badly in filling even our local orders and neither do we expect to get enough tomatoes to satisfy our local jobbing house, let alone touch the many outside orders that have been submitted us. You can readily see the only solution to this problem is increased production which happily I feel is assured by this addition of water.

We are now preparing to start on our apple pack, which we have assurance will be quite consequential, as we already have orders booked that will require approximately 500 tons of raw fruit to fill. I might say this was prepared before receiving this morning a telegraphic order from one of our old apple customers in Wichita, Kansas, for 2500 cases of apples which will require approximately 80 tons to pack.

So taking all things into consideration, I do not expect the season to be an entire disappointment or failure and in fact I share the views of some far wiser and older heads in the game that the year as a whole will prove a blessing in disguise to the industry.

Relative to our move to Ashland I am very glad the step was taken and I am greatly encouraged over the attitude and support accorded us generally by the local business people; by the growers and the help in the factory. Particularly do I want to law favorable stress upon the class and character of help that is working for us and compliment them upon the interest and effort they are making to do their work right in putting up a good clean sanitary and wholesome pack of food products that can be consumed and relished by the most discriminating.

It is not the intention of the management to go to extremes in putting up a show pack, neither will I resort to hair-splitting on making the various grades, but we are striving to, and are actually accomplishing the packing of a good commercial quality products that are undoubtedly good for repeat business in any man's market.

Doubtless some of the growers have criticised us unjustly for being particular about the raw products we receive, also doubtless some of the help have criticized us for being too exacting regarding their services, but in each instance myself and subordinates have patiently tried to explain why these things are necessary for the successful and permanent conduct of the business and in nearly all cases these things have been meted out to the satisfaction of all concerned.

In carrying out the work this way I believe we are outlined on a substantial and constructive program, looking to the planting and growing of the proper varieties in the field of the proper and most economical methods of handling the products to the can, and with the underlying problem of marketing as a foundation, I cannot help but believe this business can be made to thrive in this community.

The plan of increasing our operating season by the addition of new crops and new lines; the utilization of by-products is receiving our most intensified attention and in mapping out this program, we have been extremely fortunate in having the good council and advice of Oregon Agricultural College experts, experienced cannerymen, brokers and wholesale buyers from outside markets actually go over the field with us, analyzing and delving into these problems.

All this work has been and is being carried on in an unpretentious way, but I believe quite effective way. I assure you most heartily that we are putting all our backing, every ounce of energy and every ounce of faith we possess in an effort to develop this little institution into a substantial industry and in this endeavor, we beg your patience, we generally invite your inspection and criticism and earnestly solicit your united support, financial, if need be, and moral of necessity.

SUMMERTIME WARMTH DURING WINTER

EVERY ROOM IN THE HOUSE AS WARM IN WINTER AS IN JUNE

No longer is it necessary to have one room hot as an oven—another so cold it makes you shiver. Every room in the house can be made comfortable—and a heating system keeps it that way. The even temperature protects your family's health—and makes your home cozy.

Not only is a hot water or steam heating system a convenience but it is also an investment. When you sell your home you realize on the increased value of the property.

We will be glad to explain the steam, hot water or vapor systems of heating.
