Howard, Cleveland, Ohio.

Burton Dancing School, Memorial Hall. Open daily. Afternoon 2 to 3, evening 7 to 9. 307-tf

RECRUITS BANNED IN NAT. GUARD

SALEM, Oct. 2.—Orders stopping all further enlistments, except for replacements, were telegraphed to all organization commanders of the Oregon National guard by Brigadier General George A. White, commanding. This action came when the guard completed its expansion to 100 per cent of its present authorized quota of 3100 men, and following the receipt by General White of instructions from the war department to check the growth of the guard until congress makes further provision for its expansion.

"The fact that the strength of the guard in your state is so much in excess of the maintenance strength indicates a high standard and great interest," the department telegraphed. "The war department is placed in the unfortunate position of apparently placing a damper on the growth of your flourishing organization, but immediate action must be taken to prevent the further increase in strength."

Oregon is the only northwest state affected by the order, according to information received at guard headquarters, adjoining states not having passed the federal maintenance strength. Oregon is 40 per cent in excess of federal strength requirements and has 100 per cent of its prescribed quota for the first time as the result of recent recruiting activity.

Belief was expressed by General White that the restriction will be in effect for possibly more than a year.

BUSINESS SHOWS IMPROVEMENT IN 12TH DISTRICT

SAN FRANCISCO, Sept. 29.—Hesitant improvement characterized the business situation in the Twelfth Federal Reserve District during August. A definite expansion in industrial activity was noted, but seasonal gains in volume of trade at wholesale and retail were smaller than usual. The trend of the general price level was upward, although counter movements were frequent and not all commodities shared in the advances. Funds for financing business continued in ample supply at low rates, and member banks were able to take for the slightly increased needs of their commercial borrowers without recourse to the Federal Reserve Bank.

Fact and opinion concerning present and prospective returns to farmers for their 1924 crops are exerting a particularly important influence on the general business situation this year. Although definite statements must await completion of harvesting and disposal of a larger proportion of the crops than has already been marketed, it is safe to say that recent increases in prices of agricultural products have done much to improve the outlook in farming sections. Crop production for the district was generally smaller in volume this year than in 1923, and slightly below the average of recent years.

Reports of increasing industrial production, which were quite numerous during the latter part of July, have been confirmed by the statistical record for August.

Lumber mills and metal mines of the district have increased their output in response to a growing demand for their products on a strengthening market. The building industry has continued active at levels only slightly below the record figures of a year ago, the number and value of building permits issued in 20 principal cities of the district during August, 1924, being 12.1 per cent and 11.3 per cent, respectively, larger than during July, 1924, and 12.1 per cent and 15.1 per cent smaller than during August, 1923. The latter decreases must be interpreted in the

FARM SITUATION MUCH BETTER IN OPINION EXPERT

PORTLAND, Oct. 2.—Agricultural conditions in Oregon and Washington are recovering rapidly from the recent period of depression, and with favorable growing and marketing conditions of 1925, the farmers of the two states will have discharged their obligations and have an appreciable financial surplus, according to John H. Guill of Chico, Cal., member of the federal farm loan board, on a tour of inspection of the Northwest.

Loans aggregating more than 95,000,000 have been made to farmers of Oregon, Washington, Idaho and Montana, through the federal land bank at Spokane, Guill said and the funds have been used in improving properties and increasing production. The market for federal land bank bonds is strengthening and the agricultural industry throughout the country is rapidly being stabilized.

Accompanying Guill on his tour of investigation are W. D. Ellis, president of the federal land bank of Berkeley, Cal.; W. C. Dean, chief inspector; W. A. McNeill, reviewing appraiser for the federal land bank of Tennessee, and A. F. Cardon, reviewing appraiser for Utah.

The party visited a number of Willamette valley towns on the way from California and arrived here from a trip through Tillamook and Clatsop counties. They will leave Monday for Spokane and other points in Washington.

Mrs. J. Z. Wing, Mrs. William Myers and Mrs. Gilbert spent yesterday afternoon in Grants Pass visiting friends.

MARINES CALLED TO FIGHT FIRE

SAN DIEGO, Cal., Oct. 2.—The marines were called out here early this morning and dispatched to Descanso to help fight the brush fire which has been fanned there by winds since Monday.

TWO INDIANS INDICTED ON LIQUOR CHARGES

PORTLAND, Oct. 2.—Hollister McCoy faces trial on three counts, the charge based on alleged sales of liquor to Indians. He is said to have supplied a large quantity of hard liquor to Indians who were entering on a week of celebration. The Indian police chief on the reservation was said to have participated in the wet party and as a result lost his job. Mahoney also was indicted a second time, accused of having transported a stolen automobile from Walla Walla, Wash., to Newberg, Oregon.

The true bills were returned against Amos Kist, Indian, who was implicated with Thomas and Foster Barkley in the alleged liquor law violation. The other "release" went to W. P. Corrigan, accused on two counts of possession and transportation of liquor.

ALBANY RAIL MEN BACK COOLIDGE

ALBANY, Oct. 2.—Not all railroad men are for La Follette for president, as the formation of a local railroad men's Coolidge club clearly indicates. William Dickson, general yardmaster, has been elected chairman of the club.

TARBELL FOR DAVIS

WASHINGTON, D. C., Oct. 2.—Miss Ida M. Tarbell, magazine writer, famous author of "The History of the Standard Oil Company," "The Life of Abraham Lincoln" and "The Business of Being a Woman," will vote for John W. Davis for president.

ENGLAND SINKING INTO SEA AS SCOTLAND RISES

LONDON, Oct. 2.—England is slowly sinking into the sea, but to the same extent to which the British Isles is losing ground, the northern section—Scotland—is gaining.

Recent hydrographic surveys show that during the last fifty years Scotland's height above sea level has increased by half an inch. England's average height above sea level, however, is half an inch below that of fifty years ago.

Humorous commentators ascribe Scotland's gain to an abnormal chest and head expansion as a result of Premier Ramsay MacDonald's success as Great Britain's first Labor Premier. MacDonald hails from the Scottish moors.

Siren Placed—
A grass and fence fire in the rear of a barn near 709 South Oakdale at 12:30 Tuesday afternoon resulted in causing the fire department some lively work before it was extinguished. Fire Chief Elliott and the police warn the auto drivers to at once draw up to the side of the street when they hear the siren whistle at the corner of Main and Front streets blown for a fire. This siren was placed especially as the signal when blown for all autos to line up along the street curbs. Arrests will follow any failure to heed this signal.—Mail-Tribune.

Letterheads, statements, to your order at the Tidings Office. We have a good job printing department.

Return Home—
J. H. Fuller, Geo. A. Briscoe, Homer Billings and A. C. Joy returned this morning from a business trip to Salem. They have been gone for several days.

TOO LATE TO CLASSIFY

WANTED: — Wells to drill for short time only, am passing thru with drilling machine. Address Box X care of Tidings. 27-3*

Nothing Small About Mother

I saw a Mother, bent with age,
Her brow deep stamped with love and care,
The while she scanned a close writ page,
Absorbed in what was written there.
It breathed of love and constancy,
—A son's love to a Mother's heart,
And rambled on so tenderly.
I saw the happy tear drops start
From her dear eyes, and in the end
He thanked her for her loving care
And begged of her that she would send
To him a lock of Mother's hair.

She stood before the glass and gazed
Upon her reflex earnestly.
With trembling hands she gently raised
Her silvered locks and, musingly,
She pondered o'er what time had wrought
In changing strands of burnished gold
To gleaming silver, and had brought
To her both pain and joys untold.
I looked and saw a crystal drop
Fall from her eye so misty, dim,
Then—she walked down to the barber shop—
And, smiling, sent it all to him.

Dick Posey.

300 ELK IN COOS COUNTY REPORTED

MARSHFIELD, Sept. 30.—District Game Warden Fish has made a survey of the game denizens of Coos county and believes there are 300 elk in the county. Warden Fish bases his estimate upon his own observations and on information obtained from homesteaders and residents of the isolated section. One party reported counting 36 elk in one herd this summer in the district known as the Tioga country. The other herds are similar, with the main portion of them in the county east of Coos bay toward the Douglas county line and in the northeastern section of Coos county.

A few herds are known to be inhabiting the southwestern part of the county east and south from Powers.

In the coast section, according to the warden's records, eight elk have been killed this summer. Of these two were killed at Hunter head, in Curry, and a third one near the same vicinity. Two were dressed and used, but the third was left. In the district above Alleghany, near Fall creek, three elk have been slain, but the killers have not been apprehended.

Coyotes are the worst enemies of deer, Warden Fish declared, but depredations this year are

TORE DOWN DUMP

The excavator at the Lithian hotel site is progressing so rapidly that the wagon dump had to be torn down Thursday morning to continue the work. The workmen are certainly cutting into the granite.
