POLITICAL ANNOUNCEMENTS G. W. Milam Independent Candidate for County School Superintendent of Jackson County, Oregon.

GOVERNOR ASKS ALL TO OBSERVE FIRE PREVENTION

SALEM, Oct. 3. — Governor Pierce, in a proclamation issued today, urged Oregon citizens to observe Fire Protection week, October 5 to 11.

"The waste of property by burning in the United States during 1923 reached a total higher than any recorded since 1906, when the San Francisco conflagration occurred, the aggregate values destroyed approximately \$508,000,000, and in addition there was serious loss of life by fire," the proclamation read.

"Our own state bore its proportionate share of this huge toll, notwithstanding the preventability of most fires.

"Since the major portion of the loss of human life and material wealth could have been avoided by reasonable precautions, it is evident that we can, by concerted action, prevent the continuance of this large and unnecessary burden.

"Civic bodies of all kinds, including chambers of commerce, women's clubs and business organizations, school officials, the American Red Cross, Boy Scouts and other organizations, are endeavoring to curtail the toll of preventable fire and they should be accorded unanimous cooperation.

"I hope that the churches, through sermons and addresses, and the newspapers by editorial attention will join hands to impress upon the public the economic and human aspects of the situation created by our willful burning. American efficiency should not tolerate such a readily eliminable drain upon our material resources."

Paris Style Hint— PARIS, Oct. 4.—The "fonsilitis" style is the newest way to adapt the fashionable scarf which shows no signs of losing its popularity.

Finding an original and smart way to wear the article continues to be an important problem for the Parisienne. One would almost think that every possible way had been discovered when here comes along the tonsillitis swathing, which looks like something different. It goes around the throat once or twice, with the ends brought around, forming a kind of cravat in the front. For these chilly Summer days it is not at all amiss, and no matter if it were as hot as it ought to be, what woman would not suffer to be beautiful?
