CITY BUS SERVICE FOR KLAMATH FALLS PLANNED

KLAMATH FALLS, Oct. 8. — A bus line operating on the streets of Klamath Falls with a fixed fare of 10 cents and giving transfers at connecting points seems to be indicated by the application for a franchise which came before the city council last night.

The Klamath Transportation company, represented by Rex R. Renner, asked for a permit to operate a line from the western city limits to the Southern Pacific depot and from the south end of Sixth street to Shippington and over certain other streets, the cars to be run on a 30 minute schedule from 6 a. m. until midnight.

The cars to be used will be modern and "pay-as-you-enter" according to plans and pictures submitted. The matter was referred to the street committee.

RAIN PUTS OUT FOREST FIRES IN SHASTA COUNTY

REDDING, Cal., Oct. 7. — Less than an inch of rain fell, but it was enough to put out the forest fires on Oak Run, near Ingot, in the vicinity of Manton and at other scattered points. No crops were injured, for all prunes were harvested long ago and all the hay was taken care of.

VOTERS CONFUSED BY ELECTION LAW

Oregon does not have voting by mail, except for five special groups of electors. Several states have laws now under which absentee electors may fill out the required blanks, obtain a ballot through the mails or in person, before leaving their home, and mail this back in time to be counted with ballots regularly cast.

Some of the pertinent facts which answer most of the inquiries arising as voters become concerned about their privileges are as follows: Oregon electors absent from the state on election day. Oregon electors, except five special groups, lose their chance to vote in the coming general election if in another state on election day.

The groups which may in advance obtain blanks and the necessary ballots from the clerk of their home county and vote by mail are: Students attending institutions of learning and members of their immediate family, officers or employees of the government, officers or employees of the state, commercial travelers and railway employees.

Electors of one county wishing to vote in another county of Oregon. An Oregon elector who is not in his home county on election day may vote for national, state and the prescribed district officers and measures in the county where he finds himself: (1) by presenting a certificate of registration from his home county; (2) by having his vote sworn in by the required number of freeholders—six in Multnomah county and two elsewhere.

An elector of one county who changes residence from one precinct to another after close of the registration books on October 5 needs to obtain a transfer certificate from the county clerk and present it at the polls in the precinct to which he has moved.

Persons who have thus changed residence occasionally return to their former precinct and cast their vote. This is not in accord with the law. An elector who has changed his precinct might also have his vote sworn in in the new precinct by six freeholders but this is unnecessary if he will take the trouble to obtain the transfer certificate before election day.

UNIT FOR THOSE UNABLE FOR ACTIVE SERVICE IN ARMY

In order to utilize, in time of national emergency, the services of men with military experience or having special qualifications but who are physically unfit for active military service, an auxiliary section of the officers' Reserve Corps has been established by direction of President Coolidge, under authority of Section 37, National Defense Act.

The classes of officers who will be carried as members of the auxiliary section will comprise officers of the Officers' Reserve Corps more than 64 years of age; reserve officers who apply for transfer to the Auxiliary Section after 20 years of service, and reserve officers who have become physically disqualified for active military service.

Detailed regulations and information concerning the auxiliary section are being included in the regulations governing the Officers' Reserve Corps, which are being revised and which will be published in the near future.

SCARLET FEVER ON INCREASE IN MEDFORD

The scarlet fever situation has been engaging the attention of the school nurse, Mrs. Bertha Denton, actively for the past week. While it is practically confined to the Lincoln school, as yet, there are a very few cases in one or two other schools says the Medford Tribune.

To curb this contagion, it is necessary for school authorities to be very strict about children who are ill, and about receiving pupils who return after a brief absence. Pupils out for only one day will be required to bring a physician's certificate and teachers will send home at once any child with the slightest suspicion of fever or other illness so long as this danger continues.

The physicians are also being asked to be very careful in issuing certificates and so make sure that there is no possibility of returning pupils carrying contagion into the schools.

Spreading of the disease seems to come largely from families where the child is not very sick and where they do not have a physician. If these people would report their case to the school authorities or to the health officer, Dr. E. B. Pickel, it would enable them to check further spread of the contagion.

It is much better that those infected and suspected children be kept home for a few days under quarantine restriction than to have a general epidemic, says Superintendent Smith. "So far, the cases have been in a very light form, but it is possible at any time for a particular child to have a severe type of the disease."

REPUBLICANS LEAD IN MEDFORD VOTE

MEDFORD, Oct. 8.—If the interest manifested in the campaign continues until election day Medford will vote overwhelmingly republican, according to the special registration for the city, which was completed Saturday night with the record breaking total of 1200 voters since September 25. Of this number the republican registration predominated two to one over the democratic and other classes of registration. Very few independents were registered and only a handful of socialists.

Eighty per cent of the 1200 votes comprised new registration, including those who either had not voted for years, or had become of age since the last election, or newcomers to the city. Twenty per cent of the registration, consisted of people who had moved from one precinct to another since the last election.

GLAMOUR DIES AS YOUTH GETS HERE

The brilliancy and attraction of San Francisco became dimmer the closer he got to that city and the farther he got away from Pasco, Washington, according to Leslie Hatch, a runaway youth who reached Ashland yesterday and appealed to the local police to assist him in getting back to his home.

He left Pasco recently, lured south by the tales he had heard of San Francisco. Yesterday he confessed to the police that he wanted to return to Washington and a telegram was sent to his brother. A reply was received this morning that transportation was being forwarded and the 14-year-old boy will soon be riding northward.
