OCTOBER 11: SAFE STEPS—The steps of a good man are ordered by the Lord; and he delighteth in his way.—Psalm 37:23.

OCTOBER 12: PRAYER FOR WISDOM—So teach us to number our days, that we may apply our hearts unto wisdom.—Psalm 90:12.

YOUTH AND SUCCESS: It was fitting that the Kiwanis club, the organization which builds, should have had as its honor guest and speaker yesterday Barnard Joy, recently acclaimed the national champion boy gardener.

RECIPROCITY: Prof. Vining, who is in Pennsylvania and other eastern states speaking before commercial organizations, has telegraphed back that the eastern organizations are reciprocating the friendly greetings which the Lithians of this city sent to Mr. Vining to be delivered to the clubs of that section.

PRAISEWORTHY SERVICE: The awarding of a prize to an electric traction corporation in Texas for most excellent service reminds us of the changed attitude of hte corporations of today.

ONLY A TENTH OF POPULATION FIT FOR COLLEGE LIFE: HAMILTON, N. Y., Oct. 10.—One-tenth of the population of the United States, no more, are fitted for college and university education.

RUNNING FROM RESPONSIBILITIES: A few days ago a runaway boy was returned from this city to his home in Washington. The only advice to that boy—and to any others who might be thinking of a similar move—is to forget about their wandering dreams, their excursions to get away from some responsibility which might seem irksome to them.

THE CHARITABLE PREACHER: A popular and successful minister who is known to give away most of his income admits that he sometimes becomes provoked when approached by apparently professional beggars. Yet he usually "falls for them," as he does for the more needy.

THE CHARITABLE PREACHER (continued): When I ask them why they don't go to the organized aid stations," he explains, "they say that they don't want charity. They don't seem to think it's 'charity' when it comes from a preacher."

THE CHARITABLE PREACHER (continued): It is part of the preacher's job, they think, to help anybody who chooses to ask him for help, regardless of his own condition.

THE CHARITABLE PREACHER (continued): The man in search of a meal, by an un-failing instinct, makes a beeline for the back door of the parsonage and finds his acumen rewarded.

THE CHARITABLE PREACHER (continued): The friend or stranger seeking financial assistance appeals to the minister as if he had a natural right to do so, and prob-

ably comes away with whatever cash or credit the minister can command.

All this in spite of the fact that the minister is usually the poorest paid citizen of his class in the community, and often needs help more than the person he helps.

It isn't fair, financially at least, though it may be spiritually. For the self-respect of the community, it is to be hoped that the whole warm-hearted tribe of ministers reap their reward both in heaven and on earth.

MOVING FREIGHT

A representative of the American Railway Association remarks, with pardonable pride, that railways and shippers together are "shooting the freight through."

For this improvement the railroads themselves deserve high praise, but the public comes in for a large part of it. There is at work an effective organization of regional shippers' committees co-operating with the transportation lines.

American railroads are getting into their old-time form—with modern additions—and showing the world how to transport freight.

AFTER 50 YEARS TOGETHER

"The proper study of mankind is man," said Pope. He might well have added: "And the most interesting."

Lot of interesting people in the news. Two couples, each married fifty years, for example. One couple celebrate their golden wedding anniversary, arriving at that milestone rich in friendships, love of their children, and in knowledge that they have lived to good purpose.

Politics can not arouse President Coolidge's enthusiasm, but the victory of the Senators yesterday made him join in, even if for only a moment, with the rest of the hysterical fans.

The straw votes will soon become either hay votes or chaff votes.

And still they listen to charges and counter-charges with Roxie Stinson as the heroine.

One baseball player, bearing the scars of an alleged bribe, is returning to California; while Johnson, bringing the honor of winning the deciding game in the series, is also planning on coming to California.

ONLY A TENTH OF POPULATION FIT FOR COLLEGE LIFE

HAMILTON, N. Y., Oct. 10.—One-tenth of the population of the United States, no more, are fitted for college and university education.

So declares Dr. George Barton Cutten, president of Colgate University.

Dr. Cutten, in taking this stand, denies that it can be interpreted as advocating higher education only for the intellectual aristocracy. Rather, he affirms, it is based upon sound educational economics.

Outlining his theory, Dr. Cutten says: "The charge has been made that I have advocated education only for the intellectual aristocracy. Such a charge is untrue. I have

advocated college education only for those who are able to receive and profit by it—that is, for about one-tenth of the population of this country. But I believe in and advocate just as strongly the kind and amount of education which the other nine-tenths can receive with profit.

Navy Day taken place it has then been too late in most cases to be of advantage to the individual. It may have eliminated the undesirable from the school or college, but it has not conserved his ability along other lines for himself and to society. It was inevitable that some other means would be devised, and this has come about through so-called mental tests, which measure potential mentality. The aim of these tests is to make a selection early enough to be of help in training the individual and in articulating him in society.

NAVY DAY TO BE CELEBRATED ON 27TH BY NATION

More than a million Americans located in all parts of the United States will take part in the third annual celebration of Navy Day which will be observed all over the country Monday, October 27th.

During the day "open house" is held at which the Navy officers and men act as hosts to all who care to visit the ships and explain in detail the workings of machinery and guns with which they are equipped.
