GOVERNOR IS UNDECIDED

SALEM, Oct. 11. — Because of a threatened breach between the church and labor interests with relation to the appointment of a circuit judge to succeed the late George G. POTHIER TRIAL IS COMPLETED TODAY

TACOMA, Wash., Oct. 11. — Prosecutor Osborne, special assistant attorney general, and Defense Attorney Langthorne, gave the final arguments in the trial of Roland Pothier for the murder of Major Croukhite and indications were the case would go to the jury this afternoon.

The government contended the absence of powder marks on the major's coat disproved the defense contention that the officer accidentally shot himself at Camp Lewis October 25th, 1918. The defense charged the government "trumped up" a case and that James Lee, department of justice agent, tried to make a name for himself in securing the alleged confessions from Pothier.

ANNOUNCEMENT

In announcing myself as an independent candidate for Coroner for Jackson county—I do so with the firm belief that the people do not want minority rule. It is proven that the direct primaries are a failure, only 30 per cent vote was cast at the spring primaries, which is not a voice of the people. In this election all parties have the privilege of voting for their choice.

I need no introduction to the people of Jackson county where I have lived for 15 years, and given the best of my life, time and money for the upbuilding and betterment of the entire community.

I have been assistant to the present coroner for eight years and understand every detail of the work, therefore I am competent to handle the affairs of the office.

Yours for clean, progressive and efficient women and men in office in Jackson county.

NELLIE M. PERL

ASHLAND'S MEMORIAL

The Way of No Regrets Interment In A Mausoleum

Interment In A Mausoleum— The Way of No Regrets

The Opportunities For Interment In This Building Are Now Past, As All Space Has Been Sold

The Only Possible Opportunity Would be a Delinquent Sale. Anyone Wishing Information in This Matter Should Immediately Inform Mr. G. D. Mason, Phone 112, Ashland, or Georgie Coffee, Tidings Office.

The cost of space in this building was no greater than the average earth burial. The building is now progressing rapidly toward completion and within six weeks a dedication program will be arranged to which all Ashland people will be invited. This memorial is one of the most substantial structures ever built in the United States.

As Lasting as The Pyramids

The Indians at Chiloquin and Klamath are to have a building of the same Egyptian architecture as this one for 1009 sepulchres, caring for the whole Indian reservation. The money has already been authorized for this by the Inter-Council of Indians. Also there is to be a large Grecian architecture building at Medford, which will be constructed in a neocemetery which is under perpetual care. Mr. Mason is superintendent and builder.

Not Today, Perhaps,

But sooner or later it falls to most of us to decide where we shall lay one whom we have loved. There are only three ways— First, disintegration in the earth, Second, incineration, which necessitates grinding up of some parts of the body. Third, mausoleum interment, which is evaporation of all moistures over a formaldehyde trap.
