

Local Personal Notes

A Daily Chronicle of those who come and go, and events of local interest

At Hill—Mrs. Merritt Randles and son, Bobby, are visiting at Hill with Mr. and Mrs. Norman Mack.

Hennafoam imparts a natural Lustré 50c—McNair Bros.

In Ashland—Mr. Stewart of Medford was in Ashland yesterday to get the plans for the new tourist hotel.

Cliff Payne makes French doors.

From Copco—Mrs. T. C. Weldon of Copco was in Ashland yesterday shopping and visiting friends.

Best milk—Lindinger's Dairy, 10c quart. Phone 396R and 369J. 26—1f

Visiting Here—The Mrs. Barnes of Klamath Falls has returned to her home after visiting with relatives in Ashland for some time.

No agent in Southern Oregon can write better Auto Insurance or at lower rates than the Staples Agency.

Orres Cleans and remodels garments. 36—2*

Leave Ashland—Mr. and Mrs. O. J. Rathbun and Mr. and Mrs. Carey leave this evening for Seabright, Cal., where they will make their future home.

Let us fill your pail with Swifts Silver Lea: hard. Costs less than shortening, goes farther and is more nutritious. Detricks. 94—1f

Klamath Falls—Mr. Rhinehart and Joe and Celia Rhinehart left last evening for Klamath Falls where they were called on account of the sickness of relatives.

Sweet cream for whipping and coffee—also fresh milk, always on ice at the Plaza. 239—1f

Here—Mr. Splane of the Ford Motor Company was in Ashland today in the interests of the Fordson operating and logging equipment which is being tried out in the mining and logging districts around Ashland.

Save \$10.00, walk upstairs to Orres tailor shop. 17—1f

In Town—Leslie Heer is in town for a couple of days visiting with friends from Dunsmuir, where he is working.

Pay less and dress better—get your Fall Suit at Paulserud's. 33—1f

On Trip—Mr. and Mrs. W. A. Rockefeller left this afternoon on an extended trip through Washington, Montana and the middle west states. They will visit with Mrs. Rockefeller's daughter in Kansas City, Mo., on their trip.

Don't forget the benefit social at Odd Fellows Hall Friday evening, Oct. 17. 37—1

Real money can be saved on suits and overcoats at Orres Tailor Shop. 36—2*

From Hill—Mr. and Mrs. Wilmer Hill of Hill, Calif., were in Ashland Sunday to attend the funeral of Mrs. Talley.

We have sold dozens of our specially-priced blankets. You will need some extra ones this winter. Buy them now—The Army Goods Store. 37—3

You are welcome to compare my Automobile rates with any other rates in Jackson or Josephine Counties; you can be the Judge. Phone 21. Yeo, of course. 30—1f

In Ashland—R. J. Kirkwood, representative of the Oregon legislature from Multnomah county and president of the Union Savings Loan Company was in Ashland yesterday and today and attended the meeting of that organization last evening.

Odd Fellows Benefit Social at Odd Fellows Hall, Friday evening, Oct. 17. Everybody invited and all, little and big, male and female, are requested to bring 50c for the benefit fund. Music, dancing, cards and light refreshments. 37—1

You probably already need extra blankets. You can buy them at a bargain price at The Army Goods Store while they last. 37—3

NATIONAL ELECTION COSTS U S VOTERS OVER 30 MILLIONS

WASHINGTON, Oct. 14.—This conduct of a national election costs American voters upwards of \$30,000,000, according to the best available statistics.

Reliable reports indicate that this stupendous sum is necessary to install the nation's officials in office through the medium of the ballot box.

In 1920, when campaign expenditures reached their dizzy heights, officially reported disbursements showed that each vote cast represented 80 cents spent! Unavailable figures probably would add several more dimes to the cost.

Of the estimated \$30,000,000 necessary to hold a national election, about one-third is paid by the States out of revenues derived from taxation. The remainder is contributed by the adherents and components of the various political parties.

The most expensive individual office is, of course, the Presidency. It cost the Republican Party the best part of \$8,750,000 to install Warren G. Harding in office four years ago.

That total was divided as follows: Over \$2,800,000 was spent on behalf of the ten Republican aspirants for the Presidential nomination in the pre-convention campaign; the National Committee reported a paid-up expenditure of \$5,319,729 during the campaign, and it later paid off in addition a deficit of \$1,600,000 contracted during the fight.

The Democrats were much more conservative. The money spent on behalf of James M. Cox totaled about 2,660,000.

In addition to the expenditures of the national committees of the two dominant parties, their Congressional committees managed to dispose of slightly over \$400,000; Senatorial committees reported an outlay of more than \$330,000, and their State committees spent nearly \$3,000,000.

To be exact, the total reported expenditures of the Republican and Democratic parties in 1920 amounted to \$15,218,542.92!

This figure, however, is far from all-inclusive. First must be taken into consideration the outlays of Senatorial and Congressional candidates and of county and local committees all over the country. Also must be included the disbursements of minor political parties and of such partisan organizations as the Anti-Saloon League, the labor unions, and of various other industrial and religious organizations.

Estimating these conservatively at \$5,000,000—on the authority of many experts and political treatises—the total is brought up to around \$20,000,000. And to this must be added the cost of holding State elections.

In the absence of exact figures this cost is reckoned at about \$10,000,000 conservatively. The fact that New York State alone expends about \$1,750,000 is fair indication that the total is not overstated.

Thus is arrived at the approximate cost of a national election, based on the past records. The total this year may not go so high, particularly insofar as the Presidential candidates are concerned, for there has been much said of late about the evils of huge campaign funds and a rigid survey is being made of all disbursements by a special appointed Senatorial committee under the chairmanship of Senator Borah, of Idaho. Political organizations are required to report periodically on their receipts and expenditures, and all parties are endeavoring to keep the total down.

THRIFT BEST MEANS TO SUCCESS, WRITES YOUTH

By S. W. STRAUS, President American Society for Thrift.

"SAVING money, for the young unmarried man, in many cases molds his character by self-denial of things he does not need, improves his health by eliminating dissipation and encouraging regular hours of sleep, improves the quality of his work by putting him in a better physical position and lessening the number of distracting outside interests and influences."

The above is a portion of a letter recently written by a young man in explanation of his reasons for practicing thrift. Until quite recently his salary had been \$2,200 a year and his savings have amounted to \$100 a month. At the end of the year he was asked for a statement regarding why he was willing to submit to such rigid self-discipline. His letter comprised a sermon on the value of prudent habits.

He stated that he was able to make such a large saving by keeping a budget. He did not feel that his habits implied stinginess or tight-fistedness, but he realized that his success in life depended on his ability to save money now. He said he had observed that few successes in the business world are permanent unless the man had learned to save money, and that he did not believe he ever would amount to much if he did not learn to master himself in the matter of personal expenditures. He displayed a deep appreciation of thrift values when he called attention to the fact that it was not alone the money he was saving that would benefit him in after years, but that to a still greater degree benefits would ensue from the strength of character which he was attaining. By practicing thrift and thus eliminating dissipation he was able to turn his spare time to good advantage by reading the best books and otherwise fitting himself for the great work which it is his ambition to accomplish.

These are truths that should be kept in mind by all young men to-day who are willing to deny themselves certain passing pleasures in order to improve their morals and their health and save money. Those who adhere to these practices will tomorrow rate the destinies of the business world and the nation.

Complete line of Ashland Canned Goods at Detricks. 94—1f

Return to Falls—Mr. and Mrs. Harry Ackley have returned to their home in Klamath Falls after visiting for some time with friends and relatives here. Mrs. C. F. Cole and Mrs. Ackley expect to return to Ashland on Wednesday.

Rainier—I. B. Lindeman, local merchant, begins new \$8,000 store building.

FORD PLANT FOR DISTILLATION OF CHARCOAL PRODUCT

Because of the recent announcement by local interests that a method for the distillation of charcoal and by-products from soft-wood wastage has been discovered, this story from Detroit relative to Henry Ford's plant to distill these products from hard-wood wastage will be interesting.

Operations have begun at the huge wood distillation plant of the Ford Motor Company at Iron Mountain.

This great plant, largest and most complete of its kind and a distinctly salvage development, has a capacity of daily producing charcoal and chemical product to the value of more than \$11,000 on the basis of present day prices. It also constitutes the fifth unit in the wood working industry which the company has co-ordinated under one head at Iron Mountain, including everything from raw materials to the finished product and the reclamation of waste. The five are, logging, saw mills, dry kilns, body part plant and wood distillation.

Under the magic of modern science, hardwood scraps and sawdust from the Ford saw mills and small, gnarled and otherwise useless tree limbs from the Ford forests are now made to give up a score of valuable products. From a ton of such wood the Iron Mountain distillation plant reclaims:

- 135 pounds of acetate of lime.
- 61 gallons of 82 per cent methyl alcohol.
- 610 pounds of charcoal.
- 15 gallons of tar, heavy oils, light oils and creosote.
- 600 cubic feet of fuel gas.

The charcoal, pressed into briquettes, is suitable for producing the intensely hot fires required to purify high-grade iron and also is being sold through Ford commissaries as an exceptionally clean and economical fuel for home use.

Tar recovered from the wood, upon further distillation yields pitch, wood creosote and flotation oils, all of which are used on Ford organization. The pitch is used for sealing batteries and insulating coils; the creosote as a preservative for poles, posts and railroad ties, and the flotation oils for mining purposes in the Ford mines.

The group of by-products containing methyl alcohol and acid, after being neutralized with lime, go to stills where the alcohol is driven off. The lime, combining with the acetic acid makes calcium acetate and from this there is produced ethyl acetate, great quantities of which are used at the Highland Park Plant of the company in the man-

ufacture of leather cloth for automobile tops and upholstery.

The Carbonization building, where the process starts, is 360 feet long and 90 feet wide, and the Distillation building, where chemical products are made, is 300 feet by 90 feet.

TOO LATE TO CLASSIFY

FOR RENT—Completely furnished apartment. 75 Bush St. 37—1f

FOR SALE—Dark Jersey Milch cow. 700 Terrace St. 37—6

FOR SALE—A bargain—6-room house partly furnished, garage and woodshed. Lot 50x145. Inquire 132 5th St., city. 37—6*

FOR RENT—Furnished for housekeeping—a tent, \$5 per month. Cabin \$12, first floor, front room, next to bath \$8, fine location. Call 153. 37—1

FOR RENT—Newly furnished sunny sleeping rooms by day, week or month. Call downstairs, Plaza Shoe Shop. 37—3

CHRISTMAS CARDS

Many Beautiful Designs from which to select. Order now to avoid delay.

THE ASHLAND TIDINGS

The Quality is Guaranteed

The Style is Exclusive

It is impossible to illustrate such a coat as this with a pen and ink drawing—it cannot show the richness of such fabric as Angora Devoshene nor the lining of beaver Crepe de Chine.

This coat has a double Collar of Mink ring-tail and the Set-in pockets are trimmed with Silk stitching and bias border; Semi-Regular sleeves have self cuffs.

At \$42.50 this is a real value and we have many others awaiting your decision.

All in the quality you admire
