THE CHRISTIAN'S MISSION.—Preach, saying, The kingdom of heaven is at hand. Heal the sick, cleanse the lepers, raise the dead, cast out devils: freely ye have received, freely give.—Matthew 10:7, 8.

DRUNKEN DRIVERS

The best way to deal with the drunken automobile driver, is not only to put him in jail, but to deny him the right to drive a car for a long period after his release. The number of such drivers is large enough to constitute a grave menace to public safety. It ought to be an established policy, applicable without exception in such cases, that the menace must be removed from the highways.

The enforcement of such a policy might tend to make the prohibition laws better observed, and that certainly would be a good thing. But the immediate and main advantage would be the protection of the public. To insure the safety of life and limb, so far as this is humanly possible is the first duty of organized government.

A few days ago, an aged man, walking across the street in Portland, was run down by a car, filled with intoxicated people, who sped on after knocking the old man to the ground. The old man died, and although the motorists were pursued by a motorcycle policeman, they escaped. Such drivers as these are even worse murderers than the thug who holds you up in the streets, for with a drunken driver, you have a small chance of escape, while with a drunken driver, you have no chance what-so-ever.

Here in Ashland, we have no such problem. The drunken driver is practically never seen. Let's keep things the way they are, by stiff jail sentences for violators, together with the loss of their drivers license.

FILLING UP RURAL OREGON

Settlement of 500 families in various parts of rural Oregon during September is a concrete result of the work of the Oregon development fund and of the Oregon State Chamber of Commerce. The state has begun to cash in on the expenditures from the development fund of the Portland chamber for advertising and land settlement and on the labors of the seventy-four local chambers that compose the state chamber in locating the new arrivals and giving them a good start.

If each community had applied its money and effort to its own exclusive benefit, none of them could have accomplished as much for itself as their united effort through the state chamber has accomplished for all. By working unitedly for all of Oregon, they have made their combined energy and funds count for much.

While reclamation of large tracts of land necessarily involves planting of large bodies of new settlers in single farming communities, scattering of small numbers of families among the population of old communities has decided advantages. The newcomers learn and receive help from their neighbors, are quickly absorbed and become imbued with the spirit of the state. The state chamber can give information by which one section can be compared with others for the purpose of deciding on a new home, and the local chamber can guide the stranger as to price and character of land and as to markets.

The surest way of building up a large city is to fill up the state with people and to build up the smaller cities. There is a better filled reservoir for all to draw from, and with ordinary enterprise each can get his share of the increase.

HERE'S OUR HOOCH

Twenty-four hundred cases of whiskey from New York have arrived in Liverpool. Two years ago it went to New York from London for "medicinal purposes." Until reshipped to England it lay in bond in New York, because bootleg whiskey could be bought at less cost than it would have cost to pay the duty and the purchase price of the London booze. Wherefrom, you learn that the cheaper smuggled whiskey has the business in the Gotham market. It's a sad commentary on 1924 public honesty, and morals, isn't it?

Architects with a mania for built-in contrivances might toy for a while with the possibilities for built-in heat.

The early bird gets the publicity, we hear a great deal about the first robin, but nothing about the last one.

A lecturer says the modern daughter does not tell mother a lot of things. It is probably just as well for mother's peace of mind that she doesn't.

Denmark is going to abolish her army and Switzerland may soon do away with her navy. Hurrah for peace!

After a wonderful dinner Mrs. Payne told of her experiences in crossing the plains as a bride in the early fifties when they were on the road with ox team, for six months and half from their eastern home to Oregon.

After many wishes for health and happiness the guests wended their way homeward, hoping to return again next year for another celebration.

KEEP VITAL GLANDS IN BALANCE SAYS PHYSICIAN

Regain Health, Strength and Vigor by Restoring The Important Glands to Normal Activity

New Scientific Discovery, Glandogen, Provides Simple Method of Taking Glandular Treatment

In an interesting interview, Dr. Samuel J. Staub, according to a recent dispatch, said that people suffering from that "below par" feeling, accompanied by loss of appetite, sleeplessness, loss of weight and so forth, can be set right by having the balance of their glandular secretion restored. "There is no reaction to the treatment," asserted Dr. Staub. "Understand this is not a matter of unnatural stimulation, but is simply a process of restoring a balance among the many ductless glands of the body which control the speed and extent of all our bodily processes."

and when the bodily functioning is disturbed, the cause in most condition of the organ itself, but in the condition of the gland which controls it."

Dr. Arnold Lorand says in his book, "Old Age Deferred," in speaking of the glands: "We must insist upon the reinforcement of their functions, if changed by age or disease, by means of extracts obtained from the similar organs of healthy young animals." **GLANDULAR TREATMENT CAN NOW BE TAKEN IN CONVENIENT TABLET FORM**

PHYSICIANS AND SCIENTISTS OF INTERNATIONAL RE-OWN EXPLAIN FUNCTIONS OF GLANDS

At a recent medical convention in Chicago, Dr. Roy Upham, President of the American Institute of Homeopathy, stated that because of the intimate connection of the nervous system with the glands, many sufferers from nervous disorders were receiving remarkable benefits from glandular treatment. He further stated that this treatment should be sought, not in the

glandular treatment could be taken by mouth like any other medicine, and that an operation is not necessary.

Dr. Serge Voronoff, an international authority on Organotherapy, has said: "The brain, the nerves, the muscles, as well as the liver, the kidneys and all other organs would be incapable of playing any useful part without the aid of the glands. The functioning of our organs is no more than the activity of our glands,

ANY SKIN ERUPTION HEALED WITH SULPHUR

Irritation and Breaking Out Often Healed Over Night, Says Skin Specialist

Any breaking out or skin irritation on face, neck or body is overcome quickest by applying Mentho-Sulphur, says a noted skin specialist. Because of its germ destroying properties, nothing has ever been found to take the place of this sulphur preparation that instantly brings ease from the itching, burning and irritation.

Mentho-Sulphur heals eczema right up, leaving the skin clear and smooth. It seldom fails to relieve the torment or disfigure-

ment. A little jar of Rowles Mentho-Sulphur may be obtained at any drug store. It is used like cold cream.

Only the good ones come through

Such popularity must be deserved

WHETHER it's golf or cigarettes or anything else, popularity is no stroke of luck. No champion ever held his laurels except by making good. No cigarette ever held popular favor except by deserving it.

The popularity of Chesterfields is an outstanding example. For months now they have been drawing over 1000 smokers a day away from other cigarettes. Surely this is proof of their quality and good taste.
