HOWDY, NEIGHBOR

How are you, neighbor? Let's take a minute to talk about our neighborhood. Our neighborhood's our home, and I wonder if we're making it all we could make it.

It's like this. Neighborhoods make a county, counties make a state, states make a nation. Well, then, our nation, our state, our county is just as fine and healthy and prosperous as our neighborhood is fine and healthy and prosperous. If that isn't gospel truth, say what is.

The business of the plumber is to make a neighborhood healthier. Health makes everything finer, and these two boost prosperity for all.

Let's see to it, neighbor, that our neighborhood is 100 per cent sanitary. Let's see to it that every home has good plumbing and good heating.

Yes, of course, plumbing and heating are my business. But in helping me to help our neighborhood you are helping yourself. Then, the next turn of the wheel, I'll help you help our neighborhood.

Think it over, neighbor, think it over.

QUALITY Is the Measure of VALUE
An article that possess no qualifications for satisfactory service proves very expensive no matter how small its selling price.
You will find, therefore, QUALITY, the dominant feature at this store rather than cheapness.
