The rebel forces were proceeding from Uruguayana and were nearing Alegrete when the state forces, numbering about 1800 attacked them. The rebels fled and were pursued back toward Uruguayana.

I. VINING TELLS ABOUT JOURNEY THROUGH EAST

President of State Chamber of Commerce Speaker at Forum Luncheon

EXPLAINS CONDITIONS

Ashland Man Principal Speaker at Many Complimentary Affairs During Trip

The only way to advertise the West to the East, is by connecting the problems of the East with those of the West, and showing the residents of the East the manner in which the West has solved problems closely akin to those encountered in the East.

With this short statement, Professor Irving E. Vining explained thoroughly his remarkable success in telling the East about Oregon, during his five weeks tour following his attendance at the convention of State Presidents of Chambers of Commerce at Pittsburgh. Professor Vining gave an account of his trip, at the regular Forum Luncheon of the Ashland Chamber of Commerce at the Hotel Ashland today.

Vining's first speech, following his arrival in Pennsylvania, was delivered at a banquet tendered him in Pittsburgh. He chose as his topic, "Historic Shrines of Pennsylvania," and during the course of his speech he explained to his audience the manner in which Oregon was drawing her visitors. He declared that Oregon's campaign was an appeal to the average man's love for out of door life. He stated that Oregon advertises "the heart's desire." He indicated that although Pennsylvania did not have the outstanding appeal of the great outdoors, the state was replete with wonderful historic shrines. Gettysburg, Valley Forge, Independence Hall and Fort Duquesne, to which the tourist could be attracted. This speech of Vining's was radioed throughout the country, and drew much favorable editorial comment from the leading newspapers of the state.

Following his speech in Pittsburgh, Vining delivered the principal speech at the convention of Presidents and Secretaries of the State Chambers of Commerce, in Pittsburg. Immediately following this speech, Vining was deluged with requests to speak in various cities throughout the country, but because of the schedule which had been arranged for the trip, it was impossible for him to accept more than a small part of them. Professor Vining states he was lavishly entertained while in Pittsburg. He was shown through the Mellon Bank, the model bank of the country, and through the giant steel mills at Braddock and Homestead.

While in Pittsburg, Vining originated a slogan for the city which has been adopted as the most suitable ever coined. He explained that Pittsburg, with her coal fields and iron deposits near at hand, was "Pittsburg, Pennsylvania's pulse of power." He compared Portland with Pittsburg, inasmuch as Portland has a gigantic reserve of hydro-electric power, as yet undeveloped, and wonderful forest reserves lying almost within her back yard, and Professor Vining stated that the slogan for Portland would soon be, "Portland, the Pacific's pulse of power."

From Pittsburg, Professor Vining journeyed to Harrisburg, where he was the guest of the Pennsylvania State Chamber of Commerce, and was taken for a trip through the battlefield of Gettysburg.

Leaving Harrisburg, Professor Vining visited Philadelphia, where he was the guest of the Manufacturers Club of that city. Upon his arrival he was tendered a luncheon by fifty of the prominent manufacturers of that city, at which he gave the principal address. That evening he spoke in Northwest Philadelphia to a group of about 800 leading manufacturers of that district, Philadelphia's heart of the weaving industry.

The next day Professor Vining was given a special luncheon at the Union League Club in Philadelphia, and later was taken to

THIS IS CERTAINLY A PLEASANT THOUGHT

WASHINGTON, Nov. 4.—Between 500 and 1,000 lepers are abroad in communities throughout the United States, according to an estimate made by the Public Health Service recently.

Except dread disease be in its most acute stage, the average person infected never recognizes he is a victim, the announcement declared, and discovery is only brought about in the majority of cases through an infected person applying for medical treatment for other ailments or diseases.

Persons who have contracted leprosy have been known to live in communities for years before being recognized as such. Few people other than physicians ever see a case of leprosy.

KLANSMEN IN NEW HERRIN OUTBREAK DO MUCH DAMAGE

Militia Called Out When Outbreak Takes on Serious Aspect. Marshall Refuses to Move

HERRIN, Ill., Nov. 4.—Glenn Young, leader of the Williamson county Ku Klux Klan today clashed with a special deputy United States Marshal Jeffrey at one of the polls here.

Young, according to the reports of the clash, ordered Jeffrey away from the polling place, but Jeffrey refused to move. Young threatened violence to the entire city unless Jeffrey got out of town, but the marshal refused to move, stating to bystanders that he had been stationed at the polling place in order to cope with any rioting which might take place.

The situation created by Jeffrey's refusal to obey Young's command is very tense. A large number of gangsters are said to be pouring into Herrin in response to Young's call. Machine guns have been mounted on the city hall by a troop of militia, in case severe rioting breaks out. More troops are said to be on their way here.

PHEASANT SEASON NO LONGER OPEN

The open season for shooting China pheasants, Bob White quail, blue grouse and native pheasants is at an end for this year, except in Hood River county, where it has not yet begun. In that county these birds may be shot from November 1 to 15.

From reports received by State Game Warden Burghduff it is reasonable to suppose that there was quite an increase in all of these game birds this year.

MRS. HARDING IS SLOWLY IMPROVING

MARION, Ohio, Nov. 4.—The condition of Mrs. Harding, widow of the late president, was somewhat better today, her physicians stated to newspaper men here. They said she has spent a fairly restful night.

Mrs. Harding is seriously ill with kidney trouble. Her inability to take food is disquieting to her physicians, who have expressed fear that her heart may give out under the strain of abstaining from nourishment.

GOVERNMENT OF MACDONALD IS OUT OF POWER

Labor-Socialist Cabinet Quits Following Defeat in Big Election

TORIES NOW CONTROL

Makes Fourth Ministry to Control Affairs of England Since Close of the War

LONDON, Nov. 4.—England's first Labor-Socialist government passed out of existence this evening, when Premier MacDonald went to Buckingham Palace and tendered his own resignation along with a blanket resignation covering the members of his cabinet.

These resignations were immediately accepted by King George. It is believed that Stanley Baldwin, former Premier, and Tory leader during the last election in which the Labor-Socialist and Liberal parties were driven from power, will form a new Tory cabinet.

The MacDonald ministry has been in power in England since January 22, succeeding the Tory ministry, of which Baldwin was Premier. The Baldwin government was in power but a few months.

The early Tory government was the result of the overthrow of the Liberal government, of which David Lloyd George was Premier. The Lloyd George ministry was in office for six years, and carried on the government throughout the war successfully. The racks of the post-war period were the cause of the wreckage of the Liberal Party, and the Tories went into power. The Tory government was short lived, the Labor Socialists replacing them very soon after their election. Then the Labor Socialists were defeated a few days ago, and now the Tories are back in power, making four district governments which have been in power during the past year.

NEW GASOLINE WILL SOON BE PLACED ON MARKET IN ASHLAND

General gasoline, which is so favorably known to the people of Southern California and in the State of Washington where it has recently been introduced, will be available to the motorists of Ashland by February first according to an announcement by H. O. Frohbach who is associated with J. W. Judy, in the wholesale distribution of gasoline and lubricants manufactured by the General Petroleum Corporation.

This gasoline will be sold only through independent dealers as the General Petroleum Corporation does not install service stations. The corporation liberally advertises its products and the dealers who distribute same.

The quality of the gasoline is the outstanding feature and the motoring public has been quick to recognize this advantage. The slogan which tells the story is "Fill up your tank and let your engine decide."

The wholesale headquarters will be in Medford where storage facilities will be available. One of the owners of the local distributing concern, H. O. Frohbach, is well known in Ashland, he having been a resident of this city for ten years up to seven years ago. J. W. Judy was for a number of years in the employ of the Standard Oil Co.

HEAVIEST VOTE IN HISTORY PREDICTED

Fair Weather Causes Rejoicing Among Leaders of All Parties. Democratic Cohorts Say Election Will Depend upon Strength of La Follette. Heavy Vote Is Predicted for Precincts in Ashland.

NEW YORK, Nov. 4.—With fair weather reported for all parts of the country, the American voters, in numbers never before equalled in any poll taken in the world, are making their quadrennial march to the polls today, where they will register their preference for the Presidency, and for countless state, county and city officials.

Leaders estimate that at the fewest, thirty millions of voters and perhaps thirty-five millions, will register their preference. Either figure mentioned will establish new record for popular suffrage, not only in the United States, but in the entire world.

Leaders of all the principal parties found satisfaction in the fair weather reports over the country. Both Coolidge and Davis, the Republican and Democratic candidates spoke last night over the radio, urging a visit to the polls, joining in an appeal to the public that they cast their ballots.

HEAD OF LUMBER FIRM KILLED BY BREAKING BOOM

C. P. Hurley Drowned When Hurled into Water by Log Boom Capsizing Tug Boat

BANDON, Ore., Nov. 4.—C. P. Hurley, president of the C. and C. Cedar company of this city, was drowned early today in the Coquille river and two other men had a narrow escape from drowning when a log boom broke, causing the tugboat on which they were working to capsize.

The men aboard the tugboat, in addition to Hurley, were Harold Whitsett and Harold McCue. They succeeded in reaching the shore, aided by pieces of driftwood, but Hurley was unable to swim and went down.

About two million feet of cedar logs, valued at \$100,000 had been caught and held in a boom on the lower river. They were thought safe, but early this morning the boom broke, the logs floating out to sea. Hurley had taken personal charge of the effort to hold the logs and had worked continuously for two days and nights when the accident occurred.

Hurley had been in the lumber business for many years and for a long time was connected with the Moore Mill and Lumber company until he organized the C. and C. Cedar company. He leaves a wife and three children.

Latest reports from the scene said the body had not yet been recovered.

COOLIDGE URGING ESTABLISHMENT OF UNIVERSAL PEACE

WASHINGTON, Nov. 4.—Dedication of Armistice Day, November 11, to the establishment of permanent peace and the outlawry of war, is suggested by President Coolidge, in a letter addressed to James A. Drain, national commander of the American Legion.

"Growth of sentiment for the outlawry of war from this earth," Mr. Coolidge said, "has been an impressive fact of recent times. Men and women everywhere have been giving their best thought to bring this end into full realization."

The inclusion of Armistice Day in the list of dates commemorating great events in our national history," the letter said, "marked a significant change in our world relations. Prior to that first armistice day, which America greeted with such enthusiasm, our historic anniversaries had all been of exclusively national character. They recalled events of supreme importance in our nation's life, but of small value as links between that life and the

ROLE OF THIEF BY FALLS MAN SHOCKS PEOPLE

Klamath Falls Aghast at Action of Hotel Man—Bank Robber

WIFE DECEIVED 7 YRS.

Underworld Associations Excite Suspicious; Loot Believed to be Invested in Realty

KLAMATH FALLS, Nov. 4.—Klamath Falls today was trying to piece together bits of fact and conjecture and rumor in an effort to find a solution for a human enigma, William P. Richards, outwardly a prosperous and successful proprietor, who today lies listlessly in a Sacramento jail, a confessed and for a time successful bank bandit.

But no answer was forthcoming to give the public an insight into the mental workings of this modern Dr. Jekyll and Mr. Hyde.

Seven months ago Mr. Richards breezed into Klamath Falls breathing prosperity and ready money. With a partner he bought the Lake hotel for which he paid \$12,000 in cash. This was in April, just a short time after he is said to have robbed a bank at Lincoln, Cal., of thousands of dollars.

During his residence here Richards made numerous friends. He was a likeable chap of the go-getter type. But instead of allying himself with decent business interests he directed his attention to that uncertain portion of the city "south of Klamath," where painted women hold forth in sordid shacks at night. He organized and operated a taxi service. He bought property in large quantities and at the time of his arrest was planning a roadhouse on one of the macadam highways outside the city.

In a modestly furnished cottage on North Ninth street the disillusioned wife of the hotel man-bank robber is planning to go to her husband's defense.

CAR STOLEN FROM LOCAL GARAGE AT MIDNIGHT MONDAY

An automobile belonging to Oscar Tuttle of Orange Avenue was stolen about midnight last night. The thief unlocked the garage door, took the car and relocked the door, escaping without being apprehended. It is the opinion of Chief of Police McNabb that some one well acquainted with the property took the car.

CHINESE GENERALS ARE NEGOTIATING FOR PEACE ISSUES

TIENTSIN, China, Nov. 4.—Peace negotiations are proceeding between General Feng Yu-Hsiang, "the Christian General," and General Wu Pei-Fu.

An armistice has been arranged and fighting has ceased. Defeated Chihli troops are coming into Tientsin.

Tangshan, 82 miles northwest of Tientsin, was reported quiet. Shensi troops, unfriendly to Wu, have been withdrawn by arrangement, and the town is occupied by Manchurians.

The naval commanders at Tientsin held a conference today and decided not to let further military transports land. They determined to remove those already in port.

There is a tremendous influx of Chinese refugees into the foreign concessions, 20,000 in the British concession alone, and thousands pouring into the Japanese concession, which adjoins the city. Japanese have been guarding the approaches with machine guns, searching incomers.
