HORSES ARE CAUSE OF AUTO SMASHUP
Dr. H. M. Shaw, well known physician of Marshfield, husband of Dr. Mattie Shaw of this city, narrowly escaped serious injury and possible death a few days ago, when an automobile which he was driving crashed into a band of horses and overturned, a few miles out of Marshfield.
Dr. Shaw states he was unable to see the horse until it was too late to stop. The car crashed into the horse in the rear of the band, knocking the horse down, and the machine then rolled over. Fortunately all the occupants of the auto were thrown clear of the wreck and escaped with minor bruises and scratches.
FILIPINOS DEMAND THEIR INDEPENDENCE
MANILLA, P. I., Nov. 20. —"Immediate, absolute and complete independence" was the demand of the Philippine Islands natives, in a resolution adopted by the Filipino Independence Commission here early today.

JUST
A sample of the many newspaper headlines that tell of banks robbed almost daily in every part of this country.
No bank is safe from robbery today—it is part of the war's aftermath of crime by men inured to danger and expert with firearms.
Depositors Want Protection
Depositors flock to a bank that is prepared to pay in spite of robbery—even though the loss runs into the thousands.
Burglary Insurance issued by the Hartford Accident and Indemnity Company will pay for such loss.

LINOLEUMS FOR EVERY ROOM IN THE HOUSE

Beautiful Patterns and many grades to select from. We can please you in Patterns and in price as well.

Good Laying Means Longer Service
The best way to have your Linoleum laid is by Cementing a heavy deadening felt over the floor, then cementing the Linoleum to the deadening felt, using a water proof Cement near the edges. The extra materials we use for this method—Felt, Paste, Water Proof Cement, etc., makes the original cost somewhat higher, but you will have a floor that will last many years longer and retain its beautiful appearance. There will be no Buckling or wrinkling of the Linoleum which often occurs in the old way of laying.

HITTING THE LINE

Life is a slender wire, and each of us, in his way, has to walk it to the end. How well we succeed depends upon how well we walk. If we slip, we lose; if we don't, we win.
To walk the wire we must have "nerve;" also "nerves." But we can't have either unless we are fit.
Fit is the word. A man who is not fit—who is not well—lacks nerve. And his nerves, like as not, are on edge. Nerves on edge get in the way of success.
A modern bathroom, rightly used, stimulates nerve and keeps nerves steady and true. Hot and cold water and the daily bath make the best nerve tonic ever invented.
See that your bathroom is up-to-date. Then use it, and you'll walk the wire to success without a quiver. Unless your bathroom is well equipped and you use it regularly, you may go through life and fail to hit the line or ring the bell.
