DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody can tell

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value shade of hair which is so attractive, use only this old-time recipe. Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

Style Hint—
PARIS, Dec. 1.—Ever old and ever new, earrings seem to be an inevitable article of fashion. They are the one form of unnecessary human ornament that has enjoyed continuous popularity since the first days of early adornment and seem likely to remain in use as long as madame has ears to adorn.

The jewelers of the Rue de la Paix are talking about their earrings in much the same manner as the specialists of frocks and hats. They have them in all shapes and sizes, long ones and short ones, round ones and oval—earrings to suit every face and feature. For earrings now change their mode as often as the hat which rises above them. There are round pearl earrings which rest against the lobes of the ears, and there are pendant spheres of pearl, gold or silver Bullet pendants, made of a kind of gun-metal, have been the vogue all Summer. They are worn with necklaces of the same order and make a cheap ornament which is, nevertheless, very becoming to most faces. Cameos for the ears are becoming popular, with the vogue for the large cameo brooch. Real Spanish earrings are the most adaptable, but they are rather difficult to find. The original Spanish variety

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe BALSAMEA for all bronchial affections. BALSAMEA is a pure vegetable preparation made from a newly discovered plant... Dr. Benj. F. Crabtree, Anderson, Mo., writes: "I use it exclusively for my practice and my family. It is quick, sure and safe in its action like nothing else."

Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of oils from a native plant were immune from the ravages of Influenza. He used these oils among his white patients and then in a hospital overflowing with "death" cases. News of the results swept the world and for some time it was not possible to supply the demand. BALSAMEA has now been standardized and gives uniformly miraculous results in four ways: 1. It soothes the inflamed membranes and relieves irritation, 2. It increases secretion of mucous and permits easy expectoration, 3. It stimulates pores of the skin in throwing off body poisons and 4. It strikes at the cause, checking germ action immediately. Do not confuse it with ordinary balsam cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies BALSAMEA is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe to give to children. Be sure you get BAL-SA-ME-A with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter from what cause, or your money back. All druggists sell BALSAMEA. In Ashland buy it from Eastside Pharmacy.

Utmost protection against weather and fire!
NO matter what the architecture of your home, if you want to protect it to the utmost, you will select Carey Asbestos Slate Shingles.
Consider that thirty per cent of all fires are caused by outside contact, then you realize the importance of using asbestos shingles. Carey Asbestos Shingles bear the Class B Label of the Underwriters' Laboratories, Inc. This label indicates that these shingles have successfully passed four very rigid tests, one of which is the placing of two 8' x 16' cedar shingles, thoroughly ignited on both sides, on a Carey Asbestos Slate Shingle roof (with space for air underneath) fanned by a twelve mile breeze. The Carey Asbestos Slate Shingle withstood all four tests perfectly.
Asbestos felt is thoroughly saturated with asphalt and then coated with natural slate (in deep, rich colors, blue-black, red and green)—that is the way Carey Asbestos Slate Shingles are made. They meet every possible requirement. Fire-resisting, durable, economical, attractive, practical.
Carey Asbestos Slate Shingles are approved by Underwriters' Laboratories and carry the Class B Underwriters' label, thus meeting the requirements of strict building codes.
