A MAN THAT HATH FRIENDS must shew himself friendly; and there is a friend that sticketh closer than a brother.—Proverbs 18:24.

WHY NOT THE PEOPLE?

If the legislature is so certain that the people do not want the child labor amendment, why not submit it directly to the people? That is in the spirit of American institutions and it is the practice in Oregon.

Moreover, the child labor amendment presents an issue that comes straight to the threshold of the American home. The people are particularly qualified to pass upon that issue.

In theory—and it is sound theory—the people determine the character of this government and the composition of their constitution.

California adopted the amendment as a good business proposition, and so it would be for Oregon.

A PITY

Secretary Hoover points out that the government is now upon a wasteful economic basis; that we are exporting foods that should be consumed at home and importing foods to lessen home production.

The dairy industry suffers from double foreign competition—from these imported vegetable oils on the west coast of the United States and from imports of foreign butter and cheese from all parts of the world and into all the large ports of this country.

We are importing great quantities of tropical fruits, like bananas. The agriculture of the nation would be better off if the money drained away for these products were spent for home-grown products.

LEVYING TAXES

The idea of levying taxes on vices rather than virtues originated with Napoleon Bonaparte. He discovered that people did not object to those being taxed.

LABOR BANK GOOD

Since the Brotherhood of Locomotive Engineers established the first labor bank in Cleveland, 29 additional labor banks have been formed, seven are in process of formation and preliminary organization steps have been taken for 60 more.

When labor banks were first organized, it was predicted that their resources would be pooled and the banks would fight Capital as represented by the employers of labor.

As a matter of fact, nothing of the kind has happened. When a labor bank is opened, it makes itself liable to its depositors to safeguard their money and return it to them when they ask for it.

dous responsibility and that, instead of airing their own views, or following their own hobbies, they must conduct their bank along well recognized business lines which safeguard their investments and deposits.

Nothing will so quickly destroy radical ideas in the labor world as the starting of labor banks and the assuming of business responsibility by labor leaders.

Capital and Labor are synonymous terms—one cannot exist without the other.

WOULD INCREASE AUTO ACCIDENTS

At coming sessions of legislatures attempts will be made to pass laws making automobile accident insurance compulsory on automobile owners.

Here is one point to consider: At present, private automobile companies exert a restraining influence upon reckless automobile drivers due to the fact that they reserve the right to refuse insurance to a man known to be a bad risk.

Under state insurance, there would be no incentive on the part of state employes to turn down a poor risk. A compulsory state insurance law or a monopolistic state fund act would require that all carry insurance.

Any way it can be figured, wholesale automobile insurance would open a wide field for fraud and the encouragement of carelessness.

Automobile accidents will not be prevented by making it easier for drivers to escape responsibility for their own carelessness.

The first essential in making a jingo is to let him get above the draft age.

Forbidden sweets are sweeter, but the theory doesn't hold in the case of hooch.

Water is a nuisance to oil well drillers, but it seems to help the promoters greatly.

Is your wife wiser than you?

If you read only the stock and sporting pages and your wife is like other women, she is wiser than you. She reads the shopping news.

She likes to hear you jingle money in your pockets. She likes to stretch money to the limit, so she won't have to ask for more. She likes to shop strategically. Know what she does?

Comfortably at home in a cushiony arm-chair, she scans advertising columns. She compares, judges and selects the goods she desires; maps her route; with least effort and minimum time, goes direct to the planned store and buys.

She obtains what she wants at the lowest price it is offered. She is certain of full satisfaction, for she knows advertised goods live up to their claims. She saves time and steps, and returns sufficiently alert to enjoy new advertisements—and to prepare you an appetizing dinner.

These advertisements are written for your benefit too. Read them. Help her help you save.
