PNEUMONIA USUALLY STARTS FROM COLDS

Physicians warn against neglecting coughs and colds and tell of the serious lung complications that may result. Leading physicians now prescribe BALSAMEA for all bronchial affections. BALSAMEA is a pure vegetable preparation made from a newly discovered plant. Dr. Benj. F. Crabtree, Anderson, Mo., writes: "I use it exclusively for my practice and my family. It is quick, sure and safe in its action like nothing else."

Toward the end of the influenza epidemic a government physician noticed that a tribe of Indians in Nevada, by the use of oils from a native plant were immune from the ravages of influenza. He used these oils among his white patients and then in a hospital overflowing with "death" cases. News of the results swept the world and for some time it was not possible to supply the demand.

BALSAMEA has now been standardized and gives uniformly marvellous results in four ways: 1. It soothes the inflamed membranes and relieves irritation. 2. It increases secretion of mucous and permits easy expectoration. 3. It stimulates pores of the skin in throwing off body poisons and 4. It strikes at the cause, checking germ action immediately.

Do not confuse it with ordinary balsam cough syrups that are only soothing syrups and do not go to the base of the trouble. Unlike other cough remedies BALSAMEA is free from coal tar and other harmful narcotics. Pleasant to take and absolutely safe to give to children.

Be sure you get BAL-SA-ME-A with the picture of the Indian on the package. Guaranteed to relieve any cough, no matter from what cause, or your money back. All druggists sell BALSAMEA. In Ashland buy it from Eastside Pharmacy.

IF HAIR IS TURNING GRAY, USE SAGE TEA

Here's Grandmother's Recipe to Darken and Beautify Faded Hair That beautiful, even shade of dark, glossy hair can only be had by brewing a mixture of Sage Tea and Sulphur. Your hair is your charm. It makes or mars the face. When it fades, turns gray or streaked, just an application or two of Sage and Sulphur enhances its appearance a hundred fold.

Don't bother to prepare the mixture; you can get this famous old recipe improved by the addition of other ingredients at a small cost, all ready for use. It is called Wyeth's Sage and Sulphur Compound. This can always be depended upon to bring back the natural color and lustre of your hair.

Everybody uses "Wyeth's" Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time; by morning the gray hair has disappeared, and after another application it becomes beautifully dark and appears glossy and lustrous.

SONG

A whisper comes from the lips of dawn, A call comes out of the heart of day, Fleet as the white wind, luring me on Over the hills and far away.

And some there be like a fire's glow, And some there be at home would stay; But the spring lands call and I must go Over the hills and far away.

Love would fetter the heart of me, Hold me like a stag at bay— But I must go as the winds go free Over the hills and far away. (By Verne Bright) From the Lariat.

Queen Esther Meeting

The Queen Esthers of the Methodist Church held their regular monthly meeting at the beautiful new home of Mrs. Walter Herndon on Beach street recently. A delicious two-course dinner was served at six o'clock by Mesdames High and Herndon.

When Back Hurts or Bladder Bothers, Also Take a Little Salts

Eating too much rich food may produce kidney trouble in some form, says a well-known authority, because the acids created excite the kidneys. Then they become overworked, get sluggish, clog up and cause all sorts of distress, particularly backache and misery in the kidney region, rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.

The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, begin drinking lots of good water and also get about four ounces of Jade Salts from any good pharmacist for a few days and your kidneys may then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for ten years to flush clogged kidneys and stimulate them to activity; also to neutralize the acids in the system so that they no longer irritate, thus often relieving bladder disorders.

Jad Salts can not injure anyone; make a delightful effervescent lithia water drink which millions of men and women take now and then to help keep the kidneys and urinary organs clean, thus often avoiding serious kidney have your physician examine your kidneys at least twice a year.

The Clear Head Stop That Cold

Cold in the head means a germ attack. The membranes become inflamed, head becomes stuffed. And that's misery. Quick relief demands direct attack on those germs. Apply Ely's Cream Balm in the nostrils and breathe it. The head clears instantly. Inflammation is subdued. The cold disappears. Don't wait for internal effects. Fight the cold where it is—in the air passages. Ask your druggist for a bottle of Ely's Cream Balm. Enjoy this quick relief.

GIANT NEW RADIO BROADCASTING PLANT BEING CONSTRUCTED

CHICAGO, Feb. 9.—A new radio super-station, one of the largest and most elaborately equipped in the world, will go on the air from Chicago shortly to broadcast coast to coast and international programs, it was announced today by the Radiophone Broadcasting Corp. which has been formed by several prominent Chicagoans to operate the station.

The station, to be known as "WHT, in the Wrigley Building," will possess 5,000 watts power and, inclusive of equipment, will cost more than \$200,000, according to George E. Carlson, General Manager. Carlson is a former Commissioner of Electricity of the City of Chicago.

Work on the studios, to occupy 6,000 square feet of floor space on the first floor of the Wrigley Building has been started and negotiations have been completed for erecting the towers and power plant near Deer field, about 28 miles from Chicago on the Wauegan Road.

William Hale Thompson, former mayor of Chicago, is President of the operating corporation. U. J. Herrmann, theatre owner, Vice-President, H. H. Maier, automobile man, Treasurer, and J. H. Kiel, Secretary.

"Programs will include entertainment, religious, patriotic and educational features," said Thompson. "The slogan of the station will be 'Boost Chicago.' Every effort will be made to keep the programs of general National interest and arrangements are being made to procure a staff of nationally known artists and bring performers here from all parts of the country."

Carlson, who will have charge of the building and operating the station, including the Studio, explained that the tower location at Deerfield was selected following tests that show transmission is exceptionally good from that point, and will be operated by remote control by wire from the Studio in the Wrigley Building. A Spanish Bungalow will be built at the foot of the towers to house the power plant and provide living quarters for the operators, he said. This building

will include a power room, transmitting room, control room, shops, garage, reception room and patio besides the living, dining and sleeping rooms. About 25 men will be included in the power plant staff.

"An idea of the size of completeness in construction of the plant unit, may be gained by the layman from the fact that twenty eight miles of copper wire will be buried in the surrounding area between the towers to form the 'grounding' said Carlson. Western Electric equipment, including some newly developed broadcasting machinery, will be used.

"Equipment used and the location of the towers away from the large population center will avoid interference of any kind. The fear from some sources that high power would paralyze tubes has been disproven by recent broadcasting experiments with the use of 10,000 watts power."

Studios of the station in the Wrigley Building will be in Spanish design, and considerable precaution will be taken to avoid voice rebound in them. The studio equipment will include a \$37,000 specially built radio pipe organ.

Paul Rader, Noted Evangelist, has been retained to conduct the Sunday Programs, which will be religious in their entirety, and will include Sunday Morning Bible Class, Chapel Services in the station's own Chapel and Inter-denominational Missionary Services in the afternoon.

Programs will open in the morning with reveille, simultaneous raising the flag over the Wrigley Tower and in the Studio. The station will sign off at 2 a. m. daily with the pipe organ playing America, this to be followed by taps.

The wave length and opening date of the station will be announced in a few days. February 22nd was originally proposed as the opening, but this date was discarded owing to a delay in the completion of the apparatus.

The Board of Directors of the Radiophone Broadcasting Corporation are: Wm. Hale Thompson, U. J. Herrmann, H. H. Maier, J. H. Cox, Treasurer of the

Valentine Party

The girls of the Young People's Department of the Methodist Church entertained the boy members with a delightful Valentine party Friday evening as the party was the result of a contest which was won by the boys and was the church forfeit for losing the contest.

The evening was spent playing games and enjoying music and conversation.

Delicious refreshments were served late in the evening at tables prettily decorated with red and white hearts and other Valentine decorations. Thirty-five young people of the church were present.

The station, to be known as "WHT, in the Wrigley Building," will possess 5,000 watts power and, inclusive of equipment, will cost more than \$200,000, according to George E. Carlson, General Manager. Carlson is a former Commissioner of Electricity of the City of Chicago.

AUDITOR WORKING ON BOOKS OF BANK

E. E. Bosworth, Certified Public Accountant, a member of the firm of Whitcomb, Piepenbrink and Company of Portland, is spending several days in Ashland as auditor and income tax advisor.

The First National Bank of Ashland has for the past two years employed the firm to audit the books of the bank. This is not required by the National Bank authorities, but is an additional safe guard which the bank has provided for its customers. The audit covers a wider field even than the examination made by the federal authorities.
