GARDNER PALACE SOON TO OPEN AS BOSTON MUSEUM

BOSTON, Feb. 25. — Boston's art loving public will derive a great benefit from the addition of Fenway Court, the sumptuous home of the late Mrs. John Gardner, containing many masterpieces of art of ancient and modern times, to the city's various art museums.

The opening of this beautiful Venetian palace, located in splendid surroundings in the Back Bay fens and considered the most famous and beautiful private art palace in the country, was brought about recently by Mayor Curley, following a conference with the special administrators of the estate.

Forthwith the buildings and their contents will be exempt from taxation, a loss to the city of more than \$7,000, but in the opinion of Mayor Curley a great gain in educational and inspirational advantages to the public and lovers of the rare and beautiful.

The museum will open its doors soon. Several slight changes will be made about the buildings to provide for the large number who will visit the estate. The construction of cloak rooms and the like will be made, but no great structural change that will tend to mar the beauty of the buildings.

During week days a small fee will be charged, but on Sunday admission will be free. In the charging of the week day fee the executors of the estate are but following the injunction of Mrs. Gardner, who expressed the opinion that a small admission fee would produce the greatest good for the community in that something paid for was more appreciated. When living Mrs. Gardner occasionally opened her home to the public and charged a fee.

The paintings, furniture, sculpture and other bric-a-brac were accumulated years ago by the Gardners at an estimated cost of over \$1,000,000. At present, however the works are appraised at \$8,000,000.
