ASHLAND, OREGON, MONDAY, NOVEMBER 2, 1925

LITHIANS PLAN PICTURE HERE THIS EVENING

Scenario Plans to be Made up at Gathering of Officers TO GET PUBLICITY

Members of the executive board of the Lithians, together with a committee appointed by V. D. Miller, grand high tiler of the booster organization, will meet tonight to discuss plans for the scenario to be worked out for the filming of Ashland and the surrounding country. The Park Board members will also meet with the committee, for most of the scenes to be taken will be scenes in Lithia Park, it is believed.

There will be no representative of the Oregon State Motor association present at the meeting tonight. Otto M. Jones, publicity director of the association, who will film the scenes, will be unable to appear, but the scenario plan will probably be submitted to him for consideration before it is approved.

The motor association will film the scenes at absolute cost, or about ten cents per foot. The price will pay only for the cost of the film and the cost of developing it, and will not allow for the expenses of the camera man. This latter expense will be borne by the motor association, in return for which the Lithians will allow the association to use the film in shows presented throughout the West.

Several sections of the state will be represented in films to be taken by the association. These films will be woven into a picture, given a continuity, and presented by the motor association at main junctions of tourist travel, in an effort to divert travel into the Northwest. A scout car, fully equipped for presenting motion pictures will be sent out during the coming tourist season by the association for this purpose.

The Lithians will bear the expense of the film, with the exception of 300 feet, which will be taken free of charge by the association.

THE WEATHER

Oregon and Washington... Local rains, with moderate, variable winds.

PHEASANT, QUAIL SEASON CLOSED, BEARS ARE HUNTED

With the season on quail and pheasants closing Saturday night, hunters are now concentrating their attention on duck hunting, with an occasional jaunt after bear, the season for which opened yesterday morning in Jackson, Josephine and Douglas counties.

Pretty Girls, Well Dressed, Are Rum Runners

SAN FRANCISCO, Nov. 2.—(U. P.)—How in the world can a dry officer, even if he has suspicions, arrest a pretty modishly dressed girl or woman driving an expensive enclosed car? That is the problem facing dry enforcement officers here, they admit. A large percentage of liquor running into the cities is now being conducted by women, dressed to the part of society misses and dames, it is believed, but what can be done about it? The peninsula roads leading into San Francisco are dotted with fine cars. How to pick those carrying liquor, and not make expensive mistakes? Women also are being used by bootleggers to make deliveries of illicit liquor within cities, according to dry headquarters. Also, according to prohibition men, there does not seem to be much that can be done about it, as long as the women are held to their "society" parts.

ASHLAND BOY IS MEMBER OF DEBATE TEAM

John Galey on University of Oregon Freshman Team

UNIVERSITY OF OREGON, Eugene, Nov. 2.—Fourteen men were chosen Friday in the variety-debate preliminaries and as a result they will compose the University debate squad for the entire year.

They are: A. Bazill, Donald Beeler, Hugh Biggs, W. Clark, Walter Durgan, Roland Davis, Robert Gledhill, Jack Hempstead, Jimmie Johnson, B. V. Ludington, Benoit McCroskey, Jack McGuire, Max Robinson and Mark Taylor.

Freshmen men debaters who won in the tryouts Thursday night were also announced by J. Stanley Gray, head forensic coach. The following six men will meet the O. A. C. rooks in a dual debate: Avery W. Thompson, Melvin Johnson, Roy Herndon, Joe E. McKeown, John Galey, of Ashland, George Belloni.

Competition in both tryouts was exceedingly close according to Mr. Gray, who together with Robert D. Horn, and Walter Snyder judged the various speakers. There is good material, he said, although he regretted that more men did not turn out than the 23 who spoke. There are at least six extremely forceful debaters on the squad," said Mr. (Continued on page four)

THREE TAKEN IN BLOCKADE BY PROH. MEN

Small Amount of Liquor is Found in Possession of Antists

BONDS ARE FORFEITED

Arrested Saturday, men fail to show up at hearing before Judge Roberts

M. F. Keyser, of San Francisco, J. M. McCormick, of Redding and P. J. Smith, of Santa Rosa, three men arrested Saturday night by Federal prohibition agents on charges of possessing intoxicating liquor, failed to put in an appearance in Justice Court this morning, and their bonds of \$50 each were ordered forfeited by Justice of the Peace L. A. Roberts. The arrest of the three men is but the start of a concentrated action on the part of federal and state prohibition officers to curb liquor traffic in Jackson county, it was announced. Although the complaints filed before Justice Roberts were signed by Terry Talent, state prohibition officer, working under the direction of District Attorney Newton Chaney, it is known that Federal dry men were working with Talent.

Two quarts of wine were found in the possession of E. Dalia. When brought into this city, he furnished the necessary bond, and was released. Keyser was found to have a small flask of "jackass" brandy in his possession, while McCormick was charged with possessing a small amount of moonshine and a flask of gin. None of the men were bootleggers, the officers declared, but simply had the liquor in their possession for their own use.

A blockade was formed on the Pacific highway, a few miles south of the city, and every automobile passing was stopped and given a thorough search. These same tactics were followed at Roseburg last week, and netted one bootlegger who was carrying 65 gallons of pure grain alcohol. Talent stated this morning that it was probable that the blockade would not be in effect for some time again, since it was established first in an effort to stop rum runners carrying liquor north for the Christmas holidays. The officers are convinced, Talent said, that the rush of Christmas liquor had not started, as yet, and that for that reason the blockade would no longer be in effect.

Apples to Feature Chamber Forum Lunch Tomorrow

The forum luncheon tomorrow will be an exceedingly profitable one to all business men and others who are interested in the development of the lands under the Talent Irrigation District, according to officials of the chamber of commerce.

Representatives from all the sections under the district have been invited to attend, and to state some of the progress made during the past season, with the increased opportunity to use water on their lands. Dairymen and poultrymen, as well as the fruit growers have been asked to participate in this get-together.

Apple Day will be emphasized in the menu, and in the program, with the story of "Johnny Appleseed" being told by I. E. Vining. Every merchant is expected to invite on or more farmers, or fruit growers in Jackson county. One of the ladies, who is a member of the chamber, has volunteered a big batch of home made doughnuts to supplement the menu for this day, and the Lithia Springs hotel will also specialize for the day on apples.

FRANCE TO REOPEN DEBT NEGOTIATIONS

PARIS, Nov. 2.—(U. P.)—France intends to reopen her debt negotiations with the United States and other nations as soon as possible. This will be announced officially to the chamber of deputies by Premier Painleve Tuesday, when he appears with the new cabinet.

Pipe This Cheer Leader

No wonder Tulane University of New Orleans has been the big surprise of the year in football. The most recent achievement of the southern was an 18-7 defeat of Northwestern at Chicago. Look the cheer leader, Mary Draper, former Follen beauty, over and you have the reason. Was couldn't play football when urged on by Miss Draper?

APPLE CROP IN NORTHWEST IS LARGEST EVER

Crop Throughout Country is Smaller Reports Indicate

The per capita consumption of apples in the United States is now about half an apple a day, says the United States Department of Agriculture. The total crop this year will reach 164,000,000 bushels compared with 179,000,000 bushels last year. The decrease in total production, however, is partially offset by the fact that the crop is of unusually fine quality, and less than the usual proportion will go to waste or be used for manufacturing purposes. The portion known as the commercial crop will reach 30,134,000 barrels compared with 28,587,000 barrels last year. Northwestern apples are being shipped rapidly and are now reaching the peak movement. Federal inspection of apples at shipping points is also greater than last year, inspections in the Northwest promising to be 50 per cent more than in any preceding season.

187 STUDENTS IN WEEK DAY BIBLE SCHOOL

TELEPHONE COMPANY OFFICIALS VISITORS

W. D. Gifford of the American Telephone and Telegraph Company of New York and H. G. Pillsbury, president of the Pacific Telephone and Telegraph Company of San Francisco were through Ashland Sunday morning on a tour of the principal cities of the United States in Mr. Gifford's private car. Mr. Gifford and Mr. Pillsbury were presented with a basket of choice apples and grapes and a basket of pears by Miss Myrtle Ottardale of the local telephone office. E. M. Hammond of the Home Telephone and Telegraph company of Medford also met the train. Advertis in The Tidings.

INDIANS WANT \$12,000,000 ON OLD TREATY

Declare Lands Taken From Them by Whites Unlawfully

HEARING IS HELD

Senator Stanfield is Present to Hear Claims of Tribes at Roseburg

ROSEBURG, Ore., Nov. 2.—Representatives of a score or more Western Oregon Indian tribes gathered in Roseburg Saturday to meet with Senator Robert N. Stanfield and Indian attorneys for the purpose of discussing means of perfecting and presenting the claims of the Indians for \$12,500,000 in payment for lands taken by the government from the Indians under the terms of an unratified treaty.

The lands involved embrace all the territory west of the Cascade Mountains between the Oregon and California state lines, amounting to approximately five million acres.

According to the claims of the Indian tribes a treaty was prepared in 1845 providing that the government would buy this land at a price of \$2.50 per acre. The Indians were to be reimbursed for their personal property, and were to be given houses, stock and money, and a reservation in the Willamette valley.

Because of hostilities between other tribes and white settlers coming into the Indian country, the red men were moved to reservations on the representation that they would be allowed to return to their lands at a later date, it is claimed. The treaty was never ratified and the Indians were kept confined to their reservations while the white men occupied the western Oregon lands.

Copies of the ancient treaty have been procured bearing the signatures of representatives of many Oregon tribes, including the Alsea, Siletz, Tillamook, Coquille, Kwtami, Toontoney, Rogue River, Coos, Umpqua, Skotora, Siuslaw, Shastam, Calapooia, Cow Creek, Tututim, Lackumite, Choctoo, Molalla, Yamhill, Chinook, Clackamas, and other bands and tribes of Indians.

For a number of years efforts have been made to get the claim before the proper government agencies. In recent years the descendants of the original signers of the treaties, and representatives of the various tribes, have employed attorneys and are carrying their claim to congress. Recognition has been given by the government in appointing an agent to work with the Indians. At the last session of congress a bill was presented giving the Indians right to bring a suit against the government for the amount specified but no action developed. Senator Robert N. Stanfield was present at the meeting, and discussed the matter with the Indians and their representatives.

Tricks Fail

Claude A. Conlin, of Hollywood, Calif., who is known on the stage as Alexander the Great, a magician, has found one man who can't be fooled—the income tax collector. Conlin has been sued by the government for \$153,503 for income tax from 1920 to 1924 inclusive.

MAN DROWNED IN LINK RIVER WHILE HUNTING

Copco Employee Dies When Boat Capsizes in River

KLAMATH FALLS, Nov. 2.—I. Sund, aged 25, employee of the California Oregon Power company, drowned Saturday afternoon in Link river, 200 feet above Copco dam.

A small canvas boat, in which Sund was hunting, capsized 12 feet from shore and threw Sund out.

Unable to swim, he floundered around for a few minutes and then sank. No trace of the body has been found by his coworkers and officials of the power company.

Sund was employed as a common laborer for the power company and had been working in cleaning up the bottom of the spillway of the dam. He took the afternoon off to go duck hunting and had secured the small canvas boat to get out into the river where the ducks were feeding. When the boat capsized he made a desperate grab for it but only succeeded in pushing it away from him.

Only four young boys witnessed the accident. They were Howard Hammer, aged 14, Archie McCullough, 12, William Selby, 13, and John Selby, 12. They could not aid the drowning man. (Continued On Page Four)

SHIPS FOUNDER IN HEAVY SEAS OF ATLANTIC

Believe Entire Crew of Steamer Algiers Lost in Fire

RESCUES ARE MADE

Crew of Parliament Saved When Another Ship Responds to S. O. S. Call

NEW YORK, Nov. 2.—The terrific gales and high seas which have swept over the Atlantic Coast for two weeks, continued with unabated fury today, with two more vessels flashing out distress signals.

An independent wireless company reported that the steamer Algiers, owned by the Southern Steamship company of Philadelphia, was afire off Norfolk last night, and the crew was forced to take to the life boats.

The Shipping Board vessel, Birmingham City, was reported to be cruising the waters nearby the Algiers, but so far has been unable to locate any of the members of the crew. Two other vessels reported seeing the fire, but no trace of the crew could be found. It is feared that the tiny lifeboats were overturned by the huge waves, and that all members of the ship's crew have perished.

The disabled British steamer Mount Park was being towed to harbor today by the steamer Klob. The steamer Achilles responded to an S. O. S. and rescued the crew of six and the captain's wife and child from the schooner Parmetier.

POLICE SAY DUTCH ANDERSON IS DEAD

MUSKOGEE, Mich., Nov. 2.—(U. P.)—Police today announced that the hand slain here Saturday night in a gun battle with the authorities was Dutch Anderson, notorious bank bandit and pal of Gerald Chapman. He was killed in a fight by Patrolman Charles Hammond, who himself was fatally injured in the battle.

ANOTHER BODY TAKEN FROM SUNKEN SHIP

NEWPORT, R. I., Nov. 2.—(U. P.)—The body of Henry L. Crawford, radio man, was recovered today from the engine room of the sunken submarine, S-51, off Block Island. The body, the ninth taken from the wrecked submarine, was brought to the naval station here.

TRAIN HITS AUTO CARRYING CHILDREN

WAYCROSS, Ga., Nov. 2.—(U. P.)—The Everglades limited flier of the Atlantic Coast railway today crashed into a bus load of school children at a grade crossing in Nahant, near here. It was reported that six children were killed and 20 injured. The bus held 42 passengers.

BELIEVE NEW ROAD TO CAVES WILL BE BUILT

The state highway commission composed of Commissioners Van Duzer and Dubet, and Roy A. Klein, secretary, and J. M. Devera, state highway attorney, held a hearing Friday afternoon at the court house in Jacksonville, on the calling of an election to vote on the creation of a super-road district in the Williams Creek district. About 300 people attended from Medford, Grants Pass, Gold Hill, Ashland and Williams Creek. The commission adjourned and announced that its decisions would be made later.

W. H. Gore of Medford, was the first speaker. He outlined the proposed district, showing that it would include the corporate limits of the city of Medford, but none of the Talent or Medford irrigation districts, and that his own ranch was included, but none of the adjoining property.

He summed up the advantages as follows: A shorter route by 16 to 18 miles to the Oregon Caves, that the value of the land affected was in the neighborhood of \$5,000,000, and it would form an important loop in the highway system, and that it would be a benefit to all points of Southern Oregon. Attorney H. D. Norton of Grants Pass, was then called upon to speak by W. E. Phipps of Medford. Norton declared that "I hope Grants Pass is not so provincial as to try and thwart any improvement project, and I know that the collective community spirit of Grants Pass is for the building of the road." Mr. Norton then questioned the constitutionality of the legislative act providing for the formation of super-road districts, and doubted its feasibility as at present planned. He questioned the commission regarding state and federal aid, and wanted to know if there were any assurances beyond the spoken word, that the road would go through the Williams Creek valley. County Commissioner Victor (Continued on Page Four)

Hoodlums Ruin Property With Hallowe'en Pranks

Hallowe'en, with its magic and its mischief, rolled around Saturday, and Sunday morning the city resembled a cyclone stricken town. Lumber, which on Saturday afternoon had been carefully piled, was Sunday morning found distributed in the streets. Gates, many of which were nailed down securely, were removed, and several owners are still on the hunt for their property. As is the case most of the time, not content with having their fun in a harmless manner, some of the gangs destroyed property valued at hundreds of dollars. An automobile owner reported that the flash on his machine was ruined when it was covered with wax. A concrete block fence was torn down, windows were broken and despite the effort of extra policemen, much property was totally destroyed.
