NOTICE Sealed proposals addressed to J. S. Landers, secretary of the Board of Regents of the Oregon Normal Schools, will be received at the office of J. A. Churchill, Department of Education, at the Capital Building, Salem, Oregon, until 10:00 o'clock a. m., November 13, 1933, for the furnishing of all material and the performance of all labor required for the completion of a two-story concrete building, for the Oregon Normal School at Ashland, Oregon. All work and materials must conform to the plans and specifications therefor on file at the office of the architects, Bonnes and Hersog, 1040 Chamber of Commerce Building, Portland, Oregon, and at the office of J. A. Churchill, Salem, Oregon, and at the office of J. H. Fuller, Ashland, Oregon. 53-10

POLITICAL ANNOUNCEMENT James J. Crossley, Portland, Oregon, announces his candidacy for Republican Nomination as U. S. Senator at the May, 1936 Primaries. Will work zealously for development of Oregon and Oregon ports, for irrigation and reclamation and fulfillment of measures for real benefit of farmers as suggested by their organizations. Favor World Court. Reform Senate for Law Enforcement.

RHEUMATISM Cannot Exist in the Human Body if You Will Use Trunk's Prescription. It is preposterous; in fact, it is a shame to suffer with Rheumatism. This Prescription does not ruin the stomach, it does not depress the heart. Eat all the meat and good food you wish while taking Trunk's Prescription. Contains no mercury, salicylate soda, oil wintergreen or narcotics, but positively overcomes any kind of rheumatism or gout on earth. What more do you want? It is impossible to get something better. The greatest uric acid solvent known and also a superior liver medicine. Trunk's Prescription sells for \$1.75 or for only 95c at drug stores—like McWain Bros. Portland—Lumber and wood manufacturers here were worth \$17,305,401 in 1931, and \$22,774,379 in 1932. Small saddles for boys and girls to ride to school on, cheap. \$9.00 and up. See to your plans and harness, to be made for the first time. Peete and Young, I have a few White Sewing Machines left over. Will show them out for \$35.00 each. PEELE'S CORNER

STEWART... WASHINGTON—Not only the fundamentalists, but a good many evolutionists, too, are likely to be startled by some of Prof. William Jasper Spillman's theories. Prof. Spillman is a consulting scientist of the agriculture department, a prominent member of the National Academy of Sciences—a very big man in the scientific world. A long succession of races, as highly developed as ours, may have inhabited the earth before man was even a tadpole, he says.

TANNERS SHOW SHOE FRAUDS AT GATHERING CHICAGO, Nov. 10.—(U. P.)—The "A B C" of avoiding fraud in buying shoes and other leather products is taught in a series of exhibits, prepared by the American Leather Producers and displayed in connection with the two-day convention of the Tanners' Council of America which opened here last week. "There is nothing which the average individual buys about which he is as ignorant as leather goods," said Leo Elkan, president of the Chicago Tanners' association, which arranged the exhibits. "The increased use of leather offers dishonest manufacturers a greater opportunity for faking. Some of these imitations are so skillful even a tanner is deceived. "One consists of scattering leather filings over a fabric and applying a lacquer finish. This preparation has none of the qualities of leather, yet a retailer might buy and sell it as such without intentional fraud." A model shoe factory is in operation at the convention. Prominent tradesmen from every state in the union were in attendance. Among them were representatives from England, France, Canada and Australia.

Prominent tradesmen from every state in the union were in attendance. Among them were representatives from England, France, Canada and Australia.

CHICAGO, Nov. 10.—(U. P.)—The "A B C" of avoiding fraud in buying shoes and other leather products is taught in a series of exhibits, prepared by the American Leather Producers and displayed in connection with the two-day convention of the Tanners' Council of America which opened here last week. "There is nothing which the average individual buys about which he is as ignorant as leather goods," said Leo Elkan, president of the Chicago Tanners' association, which arranged the exhibits. "The increased use of leather offers dishonest manufacturers a greater opportunity for faking. Some of these imitations are so skillful even a tanner is deceived. "One consists of scattering leather filings over a fabric and applying a lacquer finish. This preparation has none of the qualities of leather, yet a retailer might buy and sell it as such without intentional fraud." A model shoe factory is in operation at the convention. Prominent tradesmen from every state in the union were in attendance. Among them were representatives from England, France, Canada and Australia.
