MITCHELL TRIAL TURNS INTO A PETTY QUARREL

(Continued from page One)

an area the size of the District of Columbia.

After much useless quibbling with the witness, Colonel L. Edward Cassidy, chemical warfare expert, the court turned from the rather irrelevant questions of gas warfare, to the air service again.

Major Herbert A. Dargue, of the war plans section of the air service, who arranged the around the world flight, supported Mitchell's charge that the air service was "muzzled."

He explained that despite orders by the war department, that there should be no publicity on the Fort Tilden tests, he found many newspapers were witnessing the demonstration as guests of the coast artillery.

TRACTOR TURNS OVER—KILLING G. PASS MAN (Continued From Page One)

Rogue River. The deceased leaves a widow to mourn his loss. He was 20 years, 2 months and 21 days of age at the time of death.

Visits Medford—Dr. Charles A. Haines was business visitor in Medford today.

CARD OF THANKS—We wish to thank all the friends and neighbors who so generously gave their aid and assistance in our time of trouble and sorrow during the sickness and death of our beloved husband and father, J. W. McDonough. And for all the beautiful flowers and floral pieces sent.

MRS. J. W. McDONOUGH. MRS. EVE ZANIZOU. MARGUERITE McDONOUGH.

The cost of education is 56-100 of one per cent of the nation's estimated wealth of \$320,803,000,000. It was pointed out. The total educational expenditure for \$83,894, of which elementary and secondary schools took \$1,580,671,296. The rest includes tax-supported colleges and universities.

Education costs are increasing, and will continue to increase as long as the nation continues to progress, the Association believes. The report of the investigation also said.

"The present cost of education could be doubled without encroaching upon any of the nation's economic needs. Such an increase could be made by reducing our luxury expenditures but 20 per cent.

"To contend that it is impossible for the nation to provide for school support on the present basis, or one more generous basis if it seems wise, is to disregard the facts and to base one's conclusions on the imaginings of small-minded pessimists.

"Evidently the payment of taxes which, of course, included school costs, has not prevented the nation's corporations from saving a substantial proportion of their net income. In the light of these facts, it cannot be contended that industry is finding it difficult to increase its capital and thereby to provide for substantial business growth.

EDUCATION IS RECEIVING 7TH OF U. S. FUNDS

By Herbert Lietzow, BY HERBERT LITTLE

United Press Staff Correspondent WASHINGTON, Nov. 12.—(UP)—People of the United States spend \$15,000,000,000 a year for luxuries and non-essentials. They spend \$6,000,000,000 annually on buildings. They spend \$4,000,000,000 on passenger automobiles and save something like \$10,000,000,000 a year.

But they spend less than \$2,000,000,000 a year on education through tax-supported schools.

This mass of figures on extravagant America was shot forth today by the National Education Association to prove that school costs are not more than society can bear. The research division of the association has just completed a painstaking investigation of the expense of running American schools and other American institutions.

People guard against rainy days by paying insurance premiums of around \$4,000,000,000 a year, the study showed, but education's preparation for the future doesn't fare nearly so well.

The cost of education is 56-100 of one per cent of the nation's estimated wealth of \$320,803,000,000. It was pointed out. The total educational expenditure for \$83,894, of which elementary and secondary schools took \$1,580,671,296. The rest includes tax-supported colleges and universities.

Education costs are increasing, and will continue to increase as long as the nation continues to progress, the Association believes. The report of the investigation also said.

Education costs are increasing, and will continue to increase as long as the nation continues to progress, the Association believes. The report of the investigation also said.

"This is clear when one realizes that a sum equal to four per cent of our national income is set aside each year for business expansion by the industries of the United States organized as corporations."

New Lamp Burns 94 Per Cent Air

Beats Electric or Gas

A new oil lamp that gives an amazingly brilliant, soft, white light, even better than gas or electricity, has been tested by the U. S. Government and 35 leading universities and found to be superior to 10 ordinary oil lamps. It burns without odor, smoke or noise—no pumping up is simple, clean, safe. Burns 94 per cent air and 6 per cent common kerosene (coil oil).

The inventor, V. M. Johnson, 161 North Union Ave., Portland, Ore., is offering to send a lamp on 10 days' FREE trial, or even to give one FREE to the first user in each locality who will help him introduce it. Write him today for full particulars. Also ask him to explain how you can get the agency, and without experience or money make \$250 to \$500 per month.

Sutherland—Salt water found in prospect well, with oil expected soon.

NOTICE OF HEARING OF FINAL ACCOUNT—The undersigned administrator of the estate of Herbert L. Banta, deceased, has filed his full and final account with the Clerk of said Court and the Honorable W. J. Hartzell, County Judge, has designated the 14th day of December, 1925, at ten o'clock a. m., at the Courthouse in Jacksonville, said county, as the time and place for a hearing thereon. Any objections thereto must be presented on or before the time of such hearing.

C. W. BANTA, Administrator. 63-4 Fridays.

Small saddles for boys and girls to ride to school on, cheap, \$9.00 and up. See to your plows and harrows, to be ready for the first rain. Posts and fencing, I have a few White Sewing Machines left over. Will close them out for \$65.00 each, at
