Bellview P. T. A.

Bellview P. T. A. which convened last Friday night, was well attended and presented a program in keeping with the thought of the week.

Since this was Educational Week, City Superintendent George A. Briscoe had been invited to address the gathering on a subject that would stress the thought that was engaging the attention of educational bodies and thinking people everywhere.

"Know Your Own School," was the theme of Mr. Briscoe's address, who brought a vital message to an interested audience. There were a number of musical selections: Mrs. F. C. Homes and Mrs. G. A. Briscoe appearing in piano duet, which was particularly well received and Mrs. Edwin delighted the listeners in vocal selections.

The hostesses, Mrs. Hensenauer, Johnson, Fah and Bert Peachey served delicious sandwiches and coffee during the social hour, which closed the evening's program.

COUNTESS IS FAMED LEADER OF PEASANTRY

(Continued From Page One)

conditions in my country are wrong, terribly wrong. "I was always hoping for the betterment of the peasantry of my country — in fact, I named my first children Adam and Eve as a symbol of my hope that they would live to see a new race under new conditions. "Adam is seven, Eve is nine. I still hope that they will live to see Hungary as peaceful and as prosperous as America."

Countess Karolyi was not brought up to these democratic ideas. Far from it. All through her youth she was taught that people of her social class were separated by an impassable gulf from every other class in the world. "My first perception that there

was anything in the world different from the ideas under which I had been brought up came before the war and before my marriage, when I met some equal suffrage leaders," she says. "Then I met Count Karolyi. He had been to America and had seen what wonderful men our Hungarian peasants could become in a free country. And we both thought what a wonderful thing it would be for Hungary if they could have the same opportunities there they had in America." Oddly enough, Count Karolyi was not widely known either as a democrat or as a forceful leader until after his marriage. Apparently the countess provided the inspiration under which her husband rose to fame. "During their wanderings after their expulsion from Hungary, the countess did all sorts of things

to earn a living. For a time she ran a motorboat on a little lake in Europe for tourists. But it ran on a rock and sank. Then she tried to learn to be a chauffeur. Her American lecture tour of last year came as a Godsend, as far as funds were concerned.
