THE RIGHTEOUS JUDGE:—"Shall not the judge of all the earth do right?" Gen. 18:25.

PRAYER:—O God, there are many things in life we cannot understand, but we would live by faith and not by sight."

THRIFT

Pay rolls form the foundation of community growth, and industries are established and pay rolls created by the investment of money — funds saved by people of a community who have appreciated the value of thrift. The practice of thrift is the foundation stone of success of the individual, the family, the corporation or the community.

Webster's dictionary tells us that thrift means "a thriving condition; prosperity; success; good fortune." It also means "good husbandry; economical management; frugality." Instantly one can see that those qualities are capable of application to the individual, business or community problems. The individuals, let us say for example, practice individual economy and frugality, saving a portion of their funds and depositing them in savings banks. These small sums, when accumulated into a considerable total, are then used, in part, to a business enterprise or are withdrawn by the depositor and invested in stocks or bonds of an industrial enterprise which furnishes a pay roll to the community. This pay roll does several things—first, employs men at a wage sufficient to sustain their families. The necessities of these families furnish opportunity for stores, which purchase merchandise from other industries, and also furnish an outlet for farmers' products. So we have it — all the way around the circle.

But these are the material aspects of Thrift. Another important, and shall we say greater phase is the spiritual side. What will we have in the end? Probably we shall have a home of our own, a happy and educated family, sound friends, good standing in the eyes of friends and the community, a good name, happiness while we live, good food, good clothes, the necessities, as well as some of the luxuries, of life, and an estate left for posterity. Can the mind picture anything much finer? It is all within the reach of the average man, — if he will pay the price of thrift, economy and frugality, plus wise spending.

DUE NOTICE TO MEXICO

Mexico continues to play fast and loose with its foreign credit, and the state department at Washington feels called on to continue its activity in "Dollar Diplomacy."

Secretary Kellogg has good reason to be anxious that the amicable relations of the United States and Mexico shall not be used as a cloak for the deception of American investors.

The good faith of the United States is involved in "recognition."

The good faith of the state of Oregon, for instance, is involved in the orderly and legal collection of taxes in Jackson county under the authority of the county court and the assessor, tax collector and other public officials. If this good faith could not be assured, there would be no property values in this county, and business could not continue for the benefit either of those who own, or those who use property, or even for those who as workmen collect their wages from business enterprises.

The United States has not right to question the policies of the Mexican government, any more than it has a right to question those of Soviet Russia or imperialistic Great Britain.

The United States has no right to question the continuing good faith of any government that encourages Americans to enter the land and invest their money.

If Mexico can not treat American investors and settlers in the way that they consider fair, then due notice should be posted to that effect by the American government.

RUDY'S DIVORCE SUIT HITS ANOTHER SNAG

PARIS, Jan. 12.—(AP)—The question of the court's jurisdiction was brought up in the case of Natacha Rambova, who is suing her husband, Rudolph Valentino for divorce. The difficulty was brought up because Valentino is deemed still an Italian subject. If it were found under the law that Mrs. Valentino had become an Italian subject by marriage to Valentino, then the divorce could not be granted, but merely a separation.

SALEM, Jan. 12.—(AP)—The Oregon Supreme Court today granted an appeal to George F. Wray, Prineville sheepman, charged with the slaying of Timothy T.
