"All future events, where an admission charge is made or a collection taken is advertising."  
No discount will be allowed Religious or Benevolent Orders.

JANUARY 14, 1938

**THE MERCY OF GOD:**—"And when the morning arose, then the angels hastened Lot, saying, Arise . . . escape for thy life." Gen. 19. 15-17.

### THE SISKIYOU HIGHWAY

Somewhere along the Pacific highway north of Ashland somebody is doing everything possible to create the wrong impression as to the condition of the highway over the Siskiyou mountain, for, repeatedly, tourists have made anxious inquiries here as to whether it was possible to make the trip over the Siskiyou, stating they had been told the trip would prove very dangerous.

The absurdity of this was proved yesterday when a party of local citizens drove to the Siskiyou summit. Only one place that could under any circumstances prove dangerous was found — and this place could be made safely by any careful driver, moving at a reasonable speed.

However, the report has already become current that the paving is a mass of ice and snow, and that automobiles comes creening down the mountain side, some reaching the bottom safely, but most of them landing in the ditches or tumbling over into the canyons. And once started, a report like this is difficult to eliminate or counteract.

An agency which will procure correct reports on the condition of the highway and dispense this information in an unbiased manner to the tourists will prove valuable. The Tidings hopes that the AAA office which will be opened soon, will assist in giving out such information. It would prove a valuable contribution toward stopping the reduction of tourists travel which false rumors cause.

### REAL VALUE OF THRIFT

Thrift has too often been interpreted too narrowly — as merely an accumulation of wealth without a constructive idea inspiring the accumulation.

Yesterday a local banker said the main benefit he thought the people derived from a closer observation of Thrift Week would be the creation of new ideals toward which to work — such as the purchase of their own home to replace the house the couple might be renting now, better furnishings for the home, an automobile — an unheard of suggestion until recently — a surplus with which to purchase a business, or any of a thousand other goals toward which each dollar saved would be an inspired step.

This is real thrift, saving for a definite, constructive, purpose — not merely hoarding.

### DEMONSTRATION FORESTS

One of the notable movements in our country, is setting aside of large tracts of timber to demonstrate the practical value of forestation.

A gift has been made recently to Yale College that is to promote public education in forestry, by training young men in an outdoor school for this purpose.

The save movement providing instruction in forestry operations is being promoted in a number of Western states. The purpose is to convince private forest owners of the economic advantages in management of timber lands.

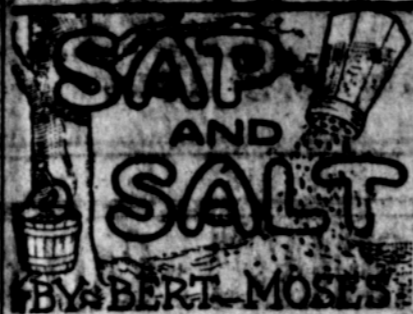

Forwarding the knowledge and practice of economic forestry throughout the country is one of the best outgrowths of the national conservation policy.

### IN THE NAME OF THE FARMER

It is predicted that the so-called Farm Bloc in the coming session of Congress will include an attack on the tariff schedules in its program unless the Bloc can secure passage of a measure to assure some form of price fixing on farm products by the federal government and establishment by the government of an agency that shall buy the farmers' export surplus.

The whole program is carried on in the name of the farmer when, as a matter of fact, the rank and file of American farmers are not today asking for petting and coddling at the hands of the government.

The disgusting part of the situation is that the farmer is used as a dummy around which political schemes are cooked up and foisted onto an uninformed public. The tariff question which should be considered purely from a scientific, business standpoint, is used as a political football and the public pays a terrific price for watching its use in the political game.

Borrowed trouble carries a high rate of interest.

Put off until tomorrow what is left in the hip flask today.

The opinion of others influences us more than our own consciences.

Next to measles, idleness is perhaps the easiest thing to catch.

Never put your reputation out on interest, no matter how high the rate.

Nature takes kindly to improvements, but is dead set against being changed.

Heck Heck says: "Don't brag of your honesty until your books have been audited at least twice by the income tax experts."

The radio industry is in its infancy. That's why the darn things kick up such a racket when you have company.

What the city needs is a fire department that will come out and build a fire for you.

Great prosperity is predicted for 1938. But times promise to be fairly good in spite of this.

Just because a man says a thing is true his wife shouldn't decide it isn't without investigating.

The children may enjoy learning scores of teachers lost all their money in a Chicago swindle.

Cambridge (Mass.) professor has a new substitute for eggs. Show this to your hen to make her work harder.

By Charles F. Stewart  
NEA Service Writer  
WASHINGTON — Richard Washburn Child arises to make the perfectly outrageous remark that cabinet members "are not all wise."

He makes it in print, too to say that they were not "all quite an audience, through the wise" it wouldn't have been so Saturday Evening Post. If he'd had. Not all of them claim to be

### Old Stuff

# Like sunshine after rain

WHERE'S that old jimmy-pipe that you laid away with a sigh of discouragement? Dig it up! You can smoke a pipe! It's just a matter of discovering the right tobacco. Load up with Prince Albert and light up with the smile that won't come off. That's the way it works.

Thousands just like you thought they never could smoke a pipe. And then they discovered Prince Albert. Cool, sweet, fragrant Prince Albert. Happiness settled upon them, like sunshine after rain. Their pipe-troubles were over for all time.

Good old P. A. is what they were searching for all the time. They found that P. A. can't bite the tongue or parch the throat, because the Prince Albert process put a padlock on tongue-torture right at the start. Jimmy-pipe joy, and nothing else bit.

Join the joyous bunch of jimmy-pipers who have discovered the one tobacco that has everything you ever wished for in a smoke. Straight as the crow flies, get to that nearby smoke-shop where they hand out sunshine in the familiar red tin.

P. A. is sold everywhere in any quantity and is the most popular and healthful tobacco in the world. It is the only tobacco that is not made from the leaves of the tobacco plant.

# PRINCE ALBERT

—no other tobacco is like it!

**BLEASAND'S OTHERS HOMER**  
Coughs and colds are a natural sequence to an unexpected blizzard and should be treated promptly to offset complications. Foley's Honey and Tar Compound is a pleasant and effective remedy for coughs and colds. Keep a bottle on hand for any emergency. "The children and I had colds and the first dose of Foley's Honey and Tar helped us right away." writes Mrs. M. H. Miller, Richmond, Ohio. Foley's Honey and Tar is a good cough remedy for the whole family. It contains no opiates. Soft everywhere.

But "all-wise" wasn't what he said or meant. He meant that not all members of the cabinet are wise men.

The cabinet members — in case you can't recall them all fight off the real — are:

Secretaries Kellogg, Mellon, Dwight Davis, Wilbur, Work, Jardine, Hoover and James J. Davis, respectively of the state, treasury, war, navy, interior, agriculture, commerce and labor departments, Attorney General Sargent and Postmaster General Now.

Whom, of these ten, had Richard Washburn Child in mind? It's possible to guess some whom he certainly hadn't, at any rate.

Secretaries Mellon and Hoover are conspicuously wise. Hoover is wise all round. Mellon is wise as a fishbone. You may not like all his ideas but he's mighty wise. Child assuredly didn't mean either of these two.

The two Davises, Work, Jardine and Now, are truly as wise as most folks.

Attorney General Sargent at least looks wise.

Get it? What's the rest? Take your pick.
