## Reading Ads is Time Well Spent

You are busy. You haven't time to learn about things unless they can really interest you. Yet here's a way to learn about everything that concerns your personal life in almost no time at all. Just turn through pictured pages and run your eye down interesting reading. You learn of the best way to shave, dress, brush your teeth, make your food better, health stronger, home richer, self happier. The razor, underwear, tooth-brush that will act in the best way for you. New wonders you can buy-where to buy them, what to pay, the exact good they'll do. What thousands of other people are enjoying, just what those enjoyments are. Good taste in home decoration, serving of foods-how to avoid mistakes, make the most of yourself, the most of your money; how to save.

All this in just the few minutes it takes to glance over advertising columns daily. Fast knowledge! Advertisements talk to you simply, briefly. They spread wares plainly before you. You get their meaning at once. Form the pleasant little habit of getting their good news each day. Their facts mean wisdom for you.

> Advertisements tell you where to buy, what, when and how
