

Saturday Shopping Guide for the Busy Housewife

MOTORISTS ARE TOLD HOW TO FIGHT PRICES

NEW YORK, Jan. 29—(U.P.)—Suggestions to the motorist

to make his tires last longer have been made public here by the Tire Manufacturers' Division of the Rubber Association of America, as part of a campaign to reduce rubber consumption in order to check the rising price of rubber.

The Association submits the following rules for the conservation of tires:

1. Inflation—Learn the correct air pressure for your tires

and check it with a gauge every few days. Remember that 4 lbs. of pressure in a balloon tire of a certain size, for which the correct pressure may be 30 lbs., is just as serious as the loss of two or three times that much in a high pressure tire of a corresponding size.

2. Overloading—Avoid overloading your tires—and when it is absolutely unavoidable help the tire to handle the extra load by putting in more air. If the overloading is likely to be continuous change your tires for larger ones.

3. Rapid Tread Wear—Anything which causes a tire to drag with more or less side motion instead of running true, will grind the rubber tread away faster than is normal. Check your car over today, to see whether you are losing tire service because of any of the various forms of wheel irregularities.

4. Chain Abrasions—see that your skid-chains are not so tight that they gouge into the tread and fabric carcass of your tire.

5. Tread Cuts—Sharp stones and pieces of glass, tin or the sharp edges of a switch point will cut into the toughest kind of tire tread. Look your tires over and fill them with plastic patching rubber which you may get from any tire dealer.

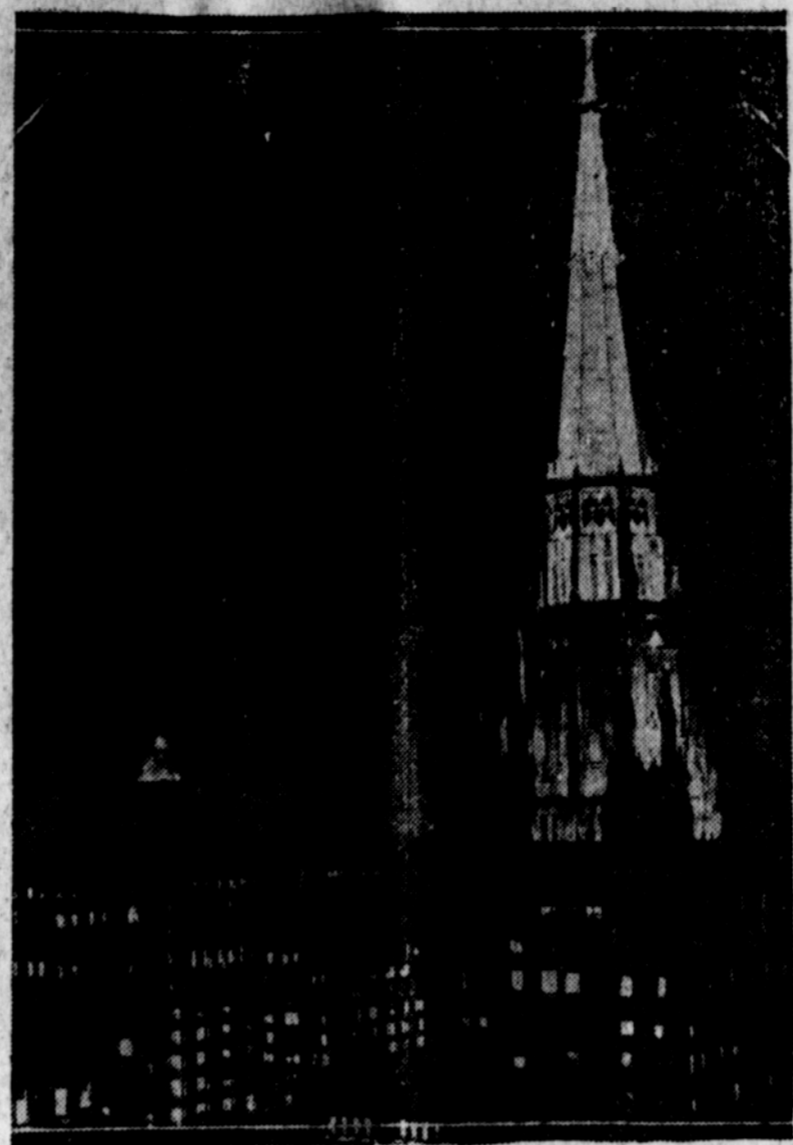

6. Side Wall Wear—Scraping a tire against curbs when turning a corner or when parking or careless driving over frozen rutty roads sometimes will wear the rubber of the sidewall and expose the fabric carcass. Water and dirt then enter and rapid destruction of the tire results. Such sidewall injuries on your tires ought to be repaired promptly by an experienced vulcanizer.

7. Rim Trouble—Take a careful look to see that your rims may not be causing you the loss of some service from your tires. Make sure that they are true so the tire runs without a wobble. See that the flanges are not bent or badly rusted which might cause them to chafe the side of the tire.

8. Tube Care—The destruction of a tube often is started when it is being applied, through its being pinched under the tire tool or under the head of the tire. A little care is all that is needed to avoid pinching. In straight-side tires the flap should be carefully and smoothly applied. A wrinkle will cut the tube, causing a slow leak. The lock nut on the valve stem should be tightly screwed down, as should the valve cup. Keep your spare tubes where they will not be chafed, or injured by grease or oil.

Portland — Pacific Light & Power Company buys Deschutes Power, Enterprise Electric Co. and Grangeville (Idaho) Light & Power Co., for \$1,850,000. They will be operated by Inland Power & Light Co.

When Night Brings Out the Lights

This remarkable photograph shows the downtown district of Chicago at night. The illuminated tower in the foreground is that of the Methodist Temple.

COFFMAN MAY REVEAL CRIME-LIQUOR RING

(Continued From Page One) fights he had had in the south, with prominent fighters, and expressed worry over the effect of bad publicity on his future career as a boxer.

The former Klamath Falls pugilist intimated that Kennedy and Schlier were both members of the crime ring, which has carried on robberies and hijacking activities in the past few months. He said he was on the "outside" but knew the men connected with the alleged ring.

SING SING WARDEN AIDS DARROW'S WAR ON DEATH PENALTY

NEW YORK, Jan. 29—(U.P.)—A campaign for the abolition of capital punishment at this session of the New York legislature will be launched tomorrow at a meeting here of the League for the Abolition of Capital Punishment.

Prominent among the leaders of the movement are Clarence Darrow, noted criminal lawyer,

Warden Lewis E. Lawes of Sing Sing and Dudley Field Malone. In speaking before the meeting Darrow and Malone plan to attack capital punishment on humanitarian grounds while Lawes will oppose it as a result of his observations during the years he has directed the machinery of Sing Sing prison.

Portland National Banks gained \$33,409,000 resources and \$20,000,000 deposits, during 1925.
