 the only one that will play all makes of records without injury to the record.

**Palmer Piano House**

**NEW ROUTE TO BE CALLED IN HONOR OF LAKE**

A report is in circulation that the new S. P. line via Naiton and Klamath Falls, is to be known as the Crater Lake line. This, if true, means additional advertising for Crater Lake. The high prices charged by the stages operating from the present lines has kept many a railroad passenger from leaving his eyes on gorgeous Crater Lake, however, with the advent of a railroad as near the lake as is the Naiton Line, this difficulty should be overcome, and, with the added advertising which a "Crater Lake Line" would provide, travel to the Lake, via the rail road should double this coming season.

**TRUCK STOLEN AT ASHLAND IS TRACED INTO SISKIYOU**

**DUNSMUIR, Cal. Feb. 6.**—After tracing the truck stolen from the Whittle Transfer Company barn at Ashland last week, as far as Montague, officers of northern California and southern Oregon lost track of the truck. They are confident that the truck has been driven farther south. It is believed at Ashland that the truck was stolen by a bootlegging ring, and it is intended for use by bootleggers in Weed and other sections of northern California. Sheriff A. S. Calkins of Siskiyou county has started a thorough search of Siskiyou county.

Ashland gained 17.10 per cent in telephone users, in 1925; Bend 15.16; Klamath Falls, 13.29; Eugene, 12.77; Corvallis, 9.4 per cent.

**CUT THIS OUT—IT IS WORTH MONEY**

Send this ad and ten cents to Foley & Co., 2335 Sheffield Ave., Chicago, Ill., writing your name and address clearly. These wonderful remedies have helped millions of people. Try them. Sold everywhere.

**OREGON PAPERS DECREASE DUE TO COMBINING**

**UNIVERSITY OF OREGON**  
 Eugene, Feb. 5.—(Special)—A slight drop in the total number of Oregon newspapers is shown by statistics compiled for the 1925 Oregon Newspaper Directory under the direction of George S. Turnbull, professor of journalism and editor of Oregon Exchanges.

Seven new newspapers were started during 1925, and 11 discontinued, the directory, which will be out, the press shortly, shows. This year 243 publications are listed; last year there were 251; and in the 1923 directory there were 253. Consolidations have played a part in the decrease. One daily and four weeklies were involved in the consolidations.

One or more publications are situated in 140 Oregon towns. In the whole state there are 140 weekly newspapers and 22 dailies. Only seven publications changed names during the year.

Roseburg will spend \$700 for city-limit marking pillars on main highways.

**KLAMATH FALLS PLANS CLEANUP**

**KLAMATH FALLS, Feb. 6.**—An ultimatum, definite and final, to all pool rooms in Klamath Falls conducting punch boards and slot machines, to all gambling dives, to all bootlegging resorts and to all houses of ill fame was delivered this afternoon by District Attorney E. E. Elliott. It was an ultimatum giving all fair warning that a "cleanup" was coming and coming soon; and stating that all those who desire to "get from under" will be given their chance.

At a conference of law enforcement agencies of Klamath this afternoon in the district attorney's office, it was decided that a warning of what was to come should be issued.

Eugene—Woolen mill did \$360,000 business during 1925.

St. Helens—Work being rushed in preparing for big paper mill.

**PRICE OF MEAL DETERMINED BY WAIST MEASUREMENT**

**ROSE ISLAND, Ill. Feb. 6.**—Two cents for every inch of waist measurement will be the

cost of a dinner to be served by women of the Genesee Methodist church Friday evening.

Special invitation is being extended to those of wide girth. Instead of a tray checker,

a tailor with his tape measure will determine the price of the meal. The ladies plan to enter to the fat men, while those of sheik-like form will take a back seat.

**for Economical Transportation**

**CHEVROLET Improved!**

**A Revelation in Low Priced Transportation**

A type of performance never before approached in any low priced car—a new smoothness of operation—new flexibility—new swiftness of acceleration—new beauty—new comfort—these have been added to its already world-famous power and economy to make the Improved Chevrolet a revelation in low-priced transportation.

Just take one ride in this remarkable car—and you will be amazed to find that qualities, heretofore the chief advantages of owning costlier cars, are now obtainable in a car of very low price.

**QUALITY AT LOW COST**

**An Agent of Activity**

**I**N the one hundred and fifty years that have passed since the birth of the nation, the area of the United States has grown from the narrow strip of territory along the Atlantic seaboard to a domain of 3,000,000 square miles.

There is nothing comparable in the world to the vast and continuous activity in this vast area. The United States leads every nation in the world in industry, agriculture, and commerce—in the output of its mines, the products of its forests, the crops of its soil, the goods of its factories, the volume of its trade.

It also leads in communications agencies for the rapid and dependable interchange of thought. Two-thirds of the world's telephones are today in the country's homes, offices, and factories. Fifty million times daily the wires that interconnect them are used for the transaction of the nation's business.
