STEWART'S WASHINGTON LETTER
By CHARLES P. STEWART
NEA Service Writer
WASHINGTON — President Coolidge always is sore when his son John breaks into the newspapers.
He doesn't want him to get an exaggerated idea of his own importance.
Furthermore he doesn't like to have any member of the Coolidge family made to look ridiculous. That's what those write-ups of John's three-round mill at Amherst, in which he acquired a black eye and lost the decision on points, did, to some extent.
So it's safe to say the presidential temper was upset when

Another thing, the White House has received about a cord of letters protesting against the president's son's participation in such "brutal sport."
That in was brutal, the writers say, is proved by the black eye.
Of course this mail doesn't get as far as the president but he knows it's pouring in. It was to have been expected, too—such a chance for people who consider it wrong for two men to get together and "beat each other up!"
Mrs. Coolidge read the fight stories in bed of the grip.
Her friends quote her as saying she was "amused but would have been more so if John had won."

Watch Your Breakfast
Eat food that supplies "balanced" ration after night's fast
HOW you feel all morning depends largely on what you eat for breakfast. Thousands have energetic forenoons because of wrong breakfast eating.
To feel right, you must have well-balanced, complete breakfast ration. As most other meals—lunch and dinner—you get it. But breakfast is a hard job, and needs a hearty dinner.
This Quaker Oats, containing 16% protein, food's great tissue builder, 48% carbohydrates, its great energy element, plus all-important vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.
It is food that "stands by" you through the morning. Quick Quaker cooks in 3 to 5 minutes. That's faster than plain toast. Don't deny yourself the natural stimulation this rich food offers you.

What would you do without electricity?
Interesting essays have been written—pages long—describing the calamities that would happen if the world ran out of electricity.
Interesting—but idle.
The practical question is—what do you do with electricity?
Few homes have as many convenience outlets as every housewife wants—but they are easily and cheaply installed.
A vacuum cleaner—an electric sewing machine—a washing machine—an electric range—these take most of the drudgery out of housework.
Would you—if you could—do without electricity?
Electricity is the cheapest service you can buy.
