MARCH 25, 1926
THE LORD THAT HEALETH — "If thou wilt diligentlyarken to the voice of the Lord thy God, and wilt do that which is right in His sight, . . . I will put none of these diseases upon thee . . . for I am the Lord that healeth thee." Ex. 15:26.
PRAYER — "Bless the Lord, O my soul, and all that is within me, bless His holy name, . . . Who healeth all thy diseases."

A BETTER HOMES WEEK
Speaking of the arrival of spring, it would be a fine thing for the citizens of Ashland to begin beautifying their homes and lawns.
Nothing attracts the eye of the visitor more readily than well-kept residences. Many (perhaps most) of the houses in the city are rather in need of new paint, and the lawns about the town are in a deplorable condition. From appearances, the summer months will be very dry, and unless the lawns are taken care of now, they will be entirely gone before the season is over.
We have a national education week, and a national good roads week, and national weeks of various and sundry sorts. The Tidings suggests an Ashland Better Homes Week.
Everyone should be vitally interested in making Ashland a more beautiful place in which to live, and there is no better way than for each person to make his a more attractive home. A Better Homes Week would kindle interest in this.
It should be organized under an appointed head, and committees should be named to act on its various divisions. It should be advertised not only through newspapers but through posters. If possible a holiday should be made to allow everyone a good days work at home.
Such a thing would be of great benefit to the town. Many visitors to the city are delighted with the beautiful park and drives, but are disappointed in the poorly kept homes.
Action, however, must be taken at once.

ASHLAND AND GOLF
Interest, which should be at high tide for the new golf club, is feeble. To assure its establishment, 100 memberships are needed, and at the present time about 41 of these have been bought.
It is the opinion of the Tidings that outside of gold mines and old wells, a golf links is about as valuable a thing as a community can possess, and a sport in which everyone should take an interest. It bears a tremendous influence in drawing new people and holding them. It has come to take so common a part in the life of the business man that he feels lost when without a place to tee-off.
The day is coming when golf will be an invaluable asset to business. Those unfortunates who are holding back now will be disappointed when they find the rates raised and a long waiting list ahead of them.
Do you know that Ashland is one of the few cities of its size on the coast without one or more courses?

A SIGN OF NORMALACY
Apparently spring has arrived. Trees and flowers are blooming, and the bees are humming about gathering their winter's supply of honey. The hillsides are crusting out in luxuriant coatings of green, and the meadow-larks in the fields are warbling happily.
With it the tourists have begun to move. The highways are a-buzz with traveling people, and out-of-town visitors are making daily trips to Ashland.
As an invaluable bit of advertising to those people who are passing by, we are glad to see that at last the long-needed sign in front of the normal school is being erected. It should have been up long ago. People have been kept in the dark long enough as to the nature of the fine building that is going up. Soon its directors will be looking for students, and there is no better way of informing the public that Ashland is the home of a fine normal.

Today's issue of the Tidings was edited entirely under the supervision of college students. The practical experience of such an undertaking is worth more to them, perhaps, than a month's training at school.
These students are all majors in Journalism at the University of Oregon. They are all affiliated with the

student paper there, and have an active part in its publication. Each intends to make this a life work, and is studying toward that end.
Today you will see "real" college journalism displayed in the columns of The Tidings.

We take it for granted that when the normal school opens there will be sufficient housing facilities to accommodate all the students. Nothing, at least, has been done to arrange otherwise. We wonder if anyone happens to remember how hard a time it has been in the past to obtain rooms for small numbers?

The height of incompatibility — A person who thinks the University of Oregon was founded in Corvallis in a barn.

SAP AND SALT
BY BERT MOSES

The most accurate thermometer in registering human conduct is cold feet.
Knowing when you have enough and trying not to get more — this is Class A wisdom.
Any fool can attract attention, but it takes quite an assortment of brains to hold it.
When you are able to get pleasure out of a day, you are rich on the highway of happiness.
Those who have tried both marriage and divorce say it is hard to decide which is the bigger failure.
Hez Heck says: "Some politicians is smart enough to get elected three or four times before the public sits onto 'em."

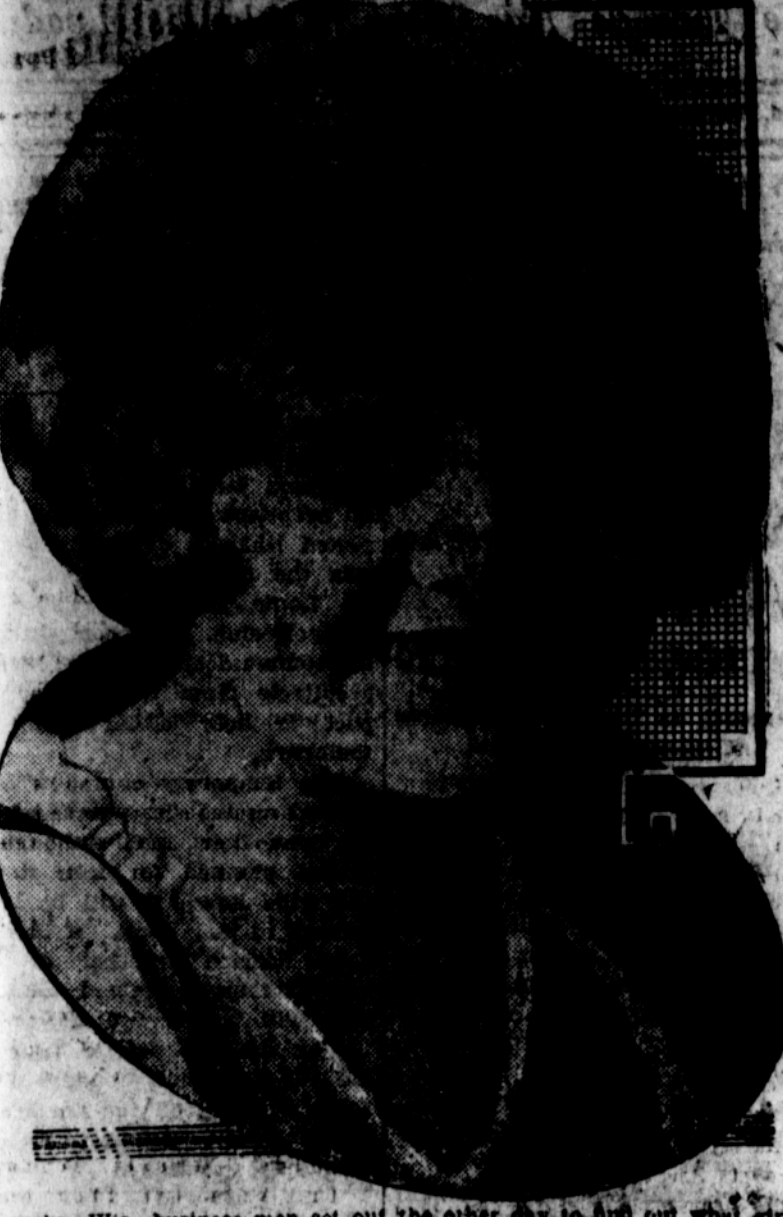

STEWART'S WASHINGTON LETTER
By CHARLES P. STEWART
NEA Service Writer

WASHINGTON — Washington's a great place to teach a child all about the machinery of government.
It's an exhibition here in actual operation, which makes it realistic and interesting.
I try to make the most of it for my 9-year-old daughter's benefit. I take her around to see how it works. It's pretty vivid to her.
For her age, she's quite a

musician. The other evening I got home to find her improvising at the piano. As she proceeded, she explained the piece to me. Otherwise I wouldn't have understood it so well.
From the back end of the instrument came a dignified rumbling — no meaning to it, seemingly, but sonorous. It was prolonged until it grew rather tiresome. "That," observed the child, "is the Senate."
Then ensued a brisk but confused clattering, all up and down the keyboard; occasionally punctuated by sharp whacks, as of a gavel. "House of Representatives." "But those whacks!" "Some gentleman's time has expired," rejoined my daughter.
Now a march — solemn, funeral — borrowed, I suspect, from some earlier composer, though I don't know enough about music to feel certain. At any rate, it was the Supreme Court. That was obvious.

TOM SIMS SAYS
Be careful about how you look into a mirror. Looking too much is liable to discourage you.
Hound dogs sit around and howl at the moon, but calquity howlers sit around and howl at nothing.
The weather seems to be perfect only during those months having a "z" in them.
Many a woman standing in front of a shop window, has merely stopped to reflect.
Monday was wash day once. Now it is the day on which we have the garage man put the auto back together.

The Prettiest Dimples of All

Konscha, Wis. business men set out the other day to find out what girl had the prettiest dimples. They finally picked 10-year-old Miss Anna Lapsch as the winner.

Tidings classified do the business

RUBBER TREES ARE PLANTED BY PUPILS

OWENSMOUTH, Cal., March 25.—(U.P.)—Local high school students are contributing to the campaign to combat the high price of rubber.
Each student has planted a rubber tree which is being nurtured for market. The students are instructed in rubber growth and the economic advantage of growing the product on American soil to compete with foreign markets.

JAP DIET REPORTERS STRIKE FOR MORE PAY

TOKYO, March 25.—(U.P.)—The girl stenographers employed at the House of Representatives, 36 in all, have gone out on strike, leaving the honorable members without clerks to take down their oratory. The girls have served notice on the Speaker of the House that they want shorter hours and bigger pay. Earlier in the session the special police employed by the Diet threatened to strike, but had their demand complied with.

Cattle Rustlers Are Active Again

FRANKFORD, Ok., March 25.—(U.P.)—The cattle and horse rustler of the old days still operates on Oregon range land, but the method practice of "stringing out" has been discarded. The rustler has been a renewed of this form of stealing, according to members of the Gibbon Cattle & Horse Raisers' association.
Twenty horses have been stolen in this district in the past season. As of old the stockmen have declared war against the rustlers but instead of threats of hanging they have offered \$250 for information leading to the arrest and conviction of the thieves.
