**WHAT CONSTITUTES ADVERTISING**  
"All future events, where an admission charge is made or a collection taken is Advertising."  
No discount will be allowed Religious or Benevolent Orders.

**TESTIMONY** — "And Moses told his father-in-law all that the Lord had done \* \* \* for Israel's sake. \* \* \* and how the Lord delivered them." Ex. 18:3.

**PRAYER** — We rejoice, O Lord, in this testimony, and we also would tell the story of Thy glorious deliverance.

**ENRICHING THE "THREE R'S"**

Time was when the education of youth centered around the "three R's." Not only did teaching revolve around this trio but it confined itself solely to it. That day is past. We have discovered there are some things as vitally necessary to education — the development of character and physique, a stimulation for truth, the promotion of clear thinking and clean living.

Today Reading, Writing and Arithmetic are basic as ever. But it is a more rounded training that develops reasoning and fosters individuality. We have outgrown primitive educational methods.

Likewise our attitude toward living has changed. We build better homes; we have reduced our working hours and increased our social activities. Our playgrounds have supplanted the alleys for our boys and our parks afford the picnic grounds for our citizens. School buildings have become the Community Centers for play and social recreation and the headquarters for adult education and training.

We have come from an existing to an evolving life. We are striving to make education a means to wisdom. Today the school house is the measuring rod of progress. Often it is the architectural pride of the community. It is equipped beyond the dreams of a generation ago. Classrooms and subject matter no longer repel pupils. Compulsory attendance laws do not account for the yearly pyramiding of school attendance. The teacher personality, combined with fresh air, sunshine and good cheer are impelling. Physical development is encouraged, the practical in education stressed and the cultural side of life emphasized. Music, art and drama have become an important part of the curriculum. Foundations are laid for better and more abundant living and a finer spirit of human relations.

These influences reach beyond the pupil into the home. More and more are we bringing the school into relationship with the family. The Parent-Teacher Associations have proved the connecting link. They are an evidence of the growth of a common interest in educational work.

Our schools are the mirrors of our national progress. It is one of the blessings of our democracy that we keep these schools pliant responsive in the country's growth. We are of those who feel that the "three R's" have not suffered by the change but that a great stride has been taken beyond them. We have added to these the "three M's" — Character, Culture and Citizenship.

The Enriching of the "Three R's" is a story not only of educational progress but likewise community betterment.

**A WORK WELL DONE**

The Tidings desires to thank and commend the three young University of Oregon school of journalism students for their excellent work yesterday in news-gathering and editing a daily issue of The Evening Tidings.

They performed their work in a most creditable manner, and The Tidings feels certain that it speaks for the entire community in congratulating these young students for their splendid initiative and the most excellent edition which was the result of their talent and their enthusiasm.

**GOING SOME**

The first car to cross the continent over the Lincoln Highway, 22 years ago, spent 40 heart-breaking days on the road. Last year, one driver covered the route from New York to San Francisco in 102 hours, 45 minutes — only a few hours longer than the transcontinental train, with its many changes of drivers.

America's leadership in oil production and refining, automobile manufacturing, and road building are the three factors which made such a feat possible. Gasoline, tires and automobiles enable the American people to "move on wheels."

**Flop**

It was arranged to broadcast the debate from one station.

**College Debate To Be Broadcast**

PORTLAND, Ore., March 28 — A debate between teams representing the University of Oregon and the University of Southern California will be broadcast from KGW, 481.5 meters, on the night of Saturday, April 8.

On previous occasions KGW has assisted in inter-station debates when the two competing teams were in separate stations. Some disadvantages were experienced in using this method, as the trap not only served to help catch the ether waves, but it also warned off a little gopher which recently cut the aerial wire which Lewis put in the way of the gopher's tunnel.

Lewis' scheme was necessary because park regulations prohibit any high aerials. They would interfere with the scenic beauties of the park, the rule book says.

**Connects Aerial And Gopher Trap**

YOSEMITE, Cal., March 26 — W. B. Lewis, park superintendent, connected up his underground radio aerial with a steel gopher trap so he could enjoy good reception.

**Lithian Meeting To Be Held Later**

The Lithian meeting this evening has been called off, so as to avoid a conflict with the American Legion Box Social, which will be given at the Civic Clubhouse, starting at 7 o'clock.

**ENTERTAINMENT PLANNED FOR THEATRE OWNERS**

LOS ANGELES, March 26 — (U.P.) — A "million-dollar blow-out" in the form of pretentious and diversified programs of entertainment has been devised for the 2,000 visitors expected here for the national convention of the Motion Picture Theatre Owners of America, June 1-5.

The film plants, including the stars and executive heads, are cooperating to show guests and delegates of the convention a memorable time at the cinema capital.

Bathing parties, dances, private studio banquets, and many sea and inland sightseeing excursions are part of the colorful program arranged for the visitors.
