WHAT CONSTITUTES ADVERTISING
"All future events, where an admission charge is made or a collection taken is advertising."
No discount will be allowed Religious or Benevolent Orders.

TIMES AND THINGS DO CHANGE

The producer of any commodity who is not alert and fails to "keep on his toes" in watching the evolutions now going on in industry is sure to have a shock one of these days, says the Department of Manufacture, of the Chamber of Commerce of the United States.

With the passing of the horse as a factor in transportation went the bulk of the carriage, buggy, wagon, and similar vehicle trade. Also harness, saddlery, whips, horse shoes, etc.

The abolition of the saloon reduced greatly the volume of billiard and pool tables, fixtures, refrigerators and other accessories. Electric refrigeration calls for radical changes in production of house-hold and commercial refrigeration, soda fountain equipment.

In the chemical field equally radical changes are going on through the use of synthetic substitutes for dyes, oils, silk, wool, etc.

Artificial leather is now used in volume equivalent to more than four times the cattle hides produced. These are but typical of what the mind of man is creating to meet human needs, but it is shaking whole industries and compelling readjustments to protect investments. Again the old saying, "Eternal vigilance," is a timely warning.

GETTING THE FACTS

Fifty-three separate studies dealing with various phases of farm electric service are now under way in 22 government experiment stations and agricultural colleges.

Problems of rural electric service and the economical application of electricity to farms and farm homes, are matters of national importance. Precise data on the performance and cost of electrical equipment must be tabulated, and it is toward this end that many of the investigations are now being directed.

The work being done by the government and agricultural colleges is being supplemented by the Committee on Relation of Electricity to Agriculture, upon which are representatives of U. S. Departments of Agriculture, Commerce and Interior, the American Farm Bureau Federation, National Grange, American Society of Agricultural Engineers, Farm Lighting Manufacturers' Association and National Electric Light Association.

FARMING, THE GREAT BASIC INDUSTRY

The National Industrial Conference Board finds that the farming industry buys \$6,000,000,000 worth of goods and services of other industries annually.

Supplies materials for industries employing nearly half of industrial workers.

Supplies about 1-5 total railroad freight and half total value of all exports.

Farmers pay in taxes 1-5 of total cost of government in the United States.

Farms represent 1-5 total national wealth, and contribute 1-6 of total national income.

In 1921, their value amounted to \$65,000,000,000 with \$44,000,000,000 invested in manufacturing industries.

The great dependence of industries on the basic materials furnished by agriculture, demands the maintenance of an adequate and well balanced agricultural production, lest the nation become dependent on foreign countries for such materials necessary to industries and economic life. Farmers are vitally interested in a fair tariff, free from political juggling.

HOLDING DOWN PRODUCTION COSTS

The petroleum industry is preparing for one of its most active years. Several consolidations of companies have taken place with a view to more fully utilizing every drop of crude oil, and eliminating waste wherever possible.

There are few industries upon which American people are so dependent as they are on oil. In order to supply cheap fuel, it is necessary for oil producers and refiners to use every means possible to reduce the cost of production. The daily average production of crude oil in the United States, is now reported at around 1,929,000 barrels, approximately 400,000 barrels less than daily peak production a year ago.

Some More of the Same

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART
NEA Service Writer

WASHINGTON — Congressmen vary. By congressmen, I mean senators and representatives, both.

Publicity is very valuable to a congressman. He likes it, if he's onto his job. Most of them are, at least to the extent of knowing that it pays a politician to figure, good and plenty, in print.

One type enjoys praise but resents adverse criticism. The other type welcomes anything it can get. If it gets praise, good. If not, it extends the glad hand to vilification, ridicule, anything, as far better than nothing at all.

Senator Guy D. Goff of West Virginia falls in classification No. 1.

Goff has brains. He makes a dandy speech, but he's sensitive and evidently a thoroughly serious-minded chap. In contrast with this mental slant, physically he's a roly-poly guy, who makes you laugh when you look at him.

—not a disagreeable laugh, a good natured one.

Well, Goff made a speech one day, which I had occasion to refer to in one of these letters I write, and, so help me John Rogers, it was a complimentary reference, but I did remark that Goff looked like a kewpie, as he got his oratory off his chest.

Believe it or not, in less than no time I'd had half a dozen representations made to me, by Guy D. Goff's friends, that that was a darned mean thing I'd said. Finally an emissary called formally to find out why I hated the senator so.

Migosh! I don't. Making due allowance for the fact that he's a "regular of regulars," which some people consider quite all right and others consider absolutely all wrong. I think he's one of our leading senators, in character and ability. But he looks like a kewpie. I stand by that.

Salvation Army Meeting

There will be a special meeting of the Salvation Army tomorrow evening, with Miss Bernice Berger of Central Point as the chief speaker. The first meeting will be on the street at 7:30 and the other meeting in Salvation Hall at 8 o'clock.

Who remembers away back yonder when Babe Ruth was a baseball player and Jack Dempsey a pugilist?

A drink was once considered good for a cold. Now a cold is considered good for a drink.

A new broom sweeps clean unless a new bride uses all the straws seeing if her cake is done.

One thing about short skirts is you might as well take a girl out riding as in swimming.

What's worse than getting arrested for speeding when you are trying to get to church on time?

Spring brings the urge to hit the open road—which you usually find closed for repairs.

"Doubt Forum" Will Be Formed at O A C

CORVALLIS, Ore., April 7—(U.P.)—There are too many "doubting Thomases" on the campus of the Oregon Agricultural College, according to several campus leaders who are making plans for the formation of a "doubt forum."

This forum will invite students whose minds have been puzzled over religious matters.

The first meeting will be held April 14 and gatherings will continue until May 12. The sessions will be sponsored by the Y. M. C. A. and the Y. W. C. A. Speakers will deliver prepared addresses and participate in discussions.

Dr. Norman E. Coleman, president of Reed College, Portland, will open the series with an address, "Is God a Reality?" Other addresses listed include:

"Has the 20th century Out-

NOTICE OF APPOINTMENT OF ADMINISTRATOR AND TO PRESENT CLAIMS

NOTICE IS HEREBY GIVEN that Everett L. Beeson has been appointed as administrator of the estate of Elizabeth Beeson, deceased, by the County Court for Jackson county, Oregon.

All persons having claims against said estate are hereby notified to present the same to Briggs and Briggs, attorneys for the estate, at their office in Pioneer Block, Ashland, Oregon, with vouchers and duly verified, within SIX MONTHS from the date hereof.

Date of first publication March 17, 1926.

EVERETT L. BEESON, Administrator. 166-4

NOTICE OF HEARING ON FINAL ACCOUNT

IN THE COUNTY COURT IN AND FOR THE STATE OF OREGON, JACKSON COUNTY. In the matter of the estate of ELLEN C. GALEY, Deceased.

Henry C. Galey, executor of the estate of Ellen C. Galey, deceased, has filed with the Clerk of the Court, at Jacksonville, Oregon, his final account, and April 12, 1926, at 10:00 o'clock a. m., at the Courthouse in Jacksonville, said county, has been designated as the time and place for hearing thereon.

Anyone objecting thereto must file their objection on or before the time of such hearing.

HENRY C. GALEY, Executor. 168-4

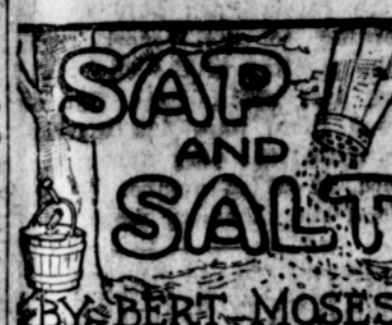

NOTICE OF APPOINTMENT OF ADMINISTRATOR AND TO PRESENT CLAIMS

NOTICE IS HEREBY GIVEN that Wm. M. Briggs has been appointed as administrator of the estate of Frank B. Sawyer, deceased, by the County Court for Jackson county, Oregon.

All persons having claims against said estate are hereby notified to present the same to Briggs & Briggs, attorneys for the estate, at their office in Pioneer Block, Ashland, Oregon, with vouchers and duly verified, within SIX MONTHS from the date hereof.

Date of first publication, April 7, 1926.

WM. M. BRIGGS, Administrator. 184-4 Wed.

Everything is easy when you know how.

All there is to success is staying in and getting through.

Folks we please trade with us; the dissatisfied go elsewhere.

Unless you believe implicitly in a thing, you can never make it work.

Get the right man to run things, and the rest of the problem will be gone.

If you have no money to hire a lawyer, the justice you get will be equal to nothing minus nil.

Hez Heck says: "Divorce ain't an evil any more; it's a habit."

RICHARDSON SPRINGS
"The Home of the Soft Shirt"
Near Chico, Butte Co., Calif.
Was just in your city for a day and do not blame you for leaving in the summer, but our baths and mineral waters will do wonders for your health this spring.
LEE RICHARDSON.

Adapts its heat to any weather
That is what you have been looking for—clean, even, comfortable heat that is always uniform regardless of changing outside weather conditions. ARCOLA does that.
The secret is in the automatic fire control which, once set to a desired temperature, controls and regulates the fire to give you that exact warmth in every room in the house—night and day. And this saves expensive fuel too—a saving that soon pays for your ARCOLA heating outfit. If you have a small home, bungalow, cottage, double flat or store, with or without a basement, you need ARCOLA Hot Water Radiator Heating. New low prices and 10 months pay. Write Dept. 5 for [free] catalog.

PROVOST HARDWARE

Strong at the finish is PARABASE
IT'S the last few miles—just before you drain your crank-case and fill up again—that do the damage to your motor. Inferior oils break down and lose their lubricating qualities—and then you are in trouble.
Parabase was made to take you safely through those last few miles. Parabase will take you as far as you expect it to and then a little farther. It stands up under the stress and heat in your motor.
Tell your garage or service station man to fill your crank-case with Parabase. Notice the immediate difference in your motor's performance—but remember, "It's the end of the run that counts."
