"Where Quality is Higher Than Price"

"All these [women] and the various [organizations] and activities have [contributed] to a realization of the real [importance] of the [organized] [women's] [movement]. Mrs. Boole has declared."

STEWART'S WASHINGTON LETTER

By CHARLES P. STEWART
NEA Service Writer

WASHINGTON — Determined as it was, the effort made earlier in this session of Congress, to head off any more senatorial investigations during the coming summer failed to accomplish much.

The "husher" didn't work as "hushers" should.

Perhaps there won't be quite as many investigations this time as there were during the

epidemic of them in the last Congress, but such as there are promise to be first-class.

To begin with, prohibition! This pending investigation was scheduled to be limited to two weeks but it won't be surprising if it stretches.

The investigation into the tariff commission probably will string along all summer.

The contention is that this was a highly meritorious commission but somebody hamstringed it, so now it's no good. That—if it happened—was wrong. Well, who did it? If he hopelessly crippled a useful commission, he ought to be called to account.

His adverse critics say the president did it. Really it's an investigation of him. Investigating the president is "going some."

Finally, there's the impeachment case against Federal Judge George W. English of the eastern district of Illinois.

Strictly speaking, this isn't an investigation, but a trial. In effect, it's an investigation of

Judge English, however, with the judge's removal as its sequel. If the Senate finds him guilty.

The senators, generally speaking, aren't any too well pleased at being tied up in Washington with investigations and impeachment proceedings just as the congressional elections are coming on.

The Tidings:

Women throughout the United States are showing an active interest in prohibition and are taking a definite stand according to an announcement made today by Mrs. Ella A. Boole, president of the National Woman's Christian Temperance Union.

Some difference

When busy men and women drive out of their way to fill up at the Green and White Sign of the General Independent Dealer — there must be a difference in General Gasoline.

You'll never even guess how great that difference is until you drive up to the station and say "General" too. Then you'll know what we mean by "different" gasoline.

Here's a new thrill — a new "kick" in driving. What a lot you've been missing if you have never tried General before. Here's life for your motor that takes hills a-flying and response that you never knew the old car had.

"Fill up your tank and let your engine decide." It's always the same — every drop every day is the best gasoline that we know how to make.

And the man who serves you is an Independent — he owns his own station.
