PONTIAC SIX

At the New York Automobile Show—a spectacular triumph! Wherever it has since been presented—a brilliant success! Here in town, a conquest of public opinion which excited interest to fever heat!

Three years ago General Motors determined to develop a Six, so high in quality and low in price, as to win instant public acceptance. To that end were devoted the almost limitless resources of the corporation.

As a result, the Pontiac Six introduces into the field of low-priced sixes, features so new and unique, that a radical revision of the national idea on motor car values is already under way.

Sensible investors, the country over, are turning to a Six that offers beauty, bigness, comfort, stamina, quality and thrilling big-engine performance, for only \$825—less than the cost of some four-cylinder cars. And there can be but one result—not enough cars to go around.

Arrange to place your order now. Assure yourself of getting delivery when you are ready to take it. Hundreds are going to be compelled to wait this spring. Now is the time for you to act!

Oakland Six, Companion to Pontiac Six, \$1025 to \$1295. All prices at factory.
