LONDON'S HOMELESS NOW LESS NUMEROUS

LONDON, (U.P.)—The annual census this year recorded only 100, of which twenty-four were women. This novel census has been taken every year since 1903, when the homeless numbered 1797. The census is taken by police and County Council officials during a certain night, and is a helpful index for relief measures.

The grim shadows of the Embankment still draw most of the homeless. On the night of the census most of the seats along the right bank of the river from Blackfriars Bridge to Westminster Bridge were occupied by desolate men and women. Here the police do not disturb them, and the famous district likewise continues to attract

writers seeking material on the sadder sides of life, dreamers and philosophers. During the later years of the war the Embankment began to lose its picturesque character, but instead of passing it has in recent years revived, and after midnight the shadows now carry much the same story that the Embankment has told for many generations.

FRANKLIN BAKERY

FLAVOR is the all-important point in food. In oats it is probably more important than in any other. That is why people who once taste the toasty richness of Quaker Oats are spoiled thereafter for all others. Quaker flavor is unique, toasty and delightful. No other oats offers it to you. Some 50 years were spent perfecting it. Quaker milling, too, retains much of the "bulk" of oats. And that makes laxatives less often needed. Protein, carbohydrates, and vitamins and this "bulk" are thus combined to make Quaker Oats an excellently balanced ration.

For your own sake, say "Quaker" when buying oats. Two kinds now at groceries: Quick Quaker (cooks in 2 to 5 minutes) and Quaker Oats as always.

Food we beam over

Many a reputation has been builded in the making of hot breads. And reputation does count for a lot.

From the South the fame of its good food travelled into far-away lands. The spirit of its hospitality also was extolled, with never a thought, seemingly, that the one is expressive of the other. Yet, can't you see how hot breads just naturally bespeak warm hospitality, and no Southern menu neglected hot bread in some one of its numerous forms. Joy in the making of these delightful breads is a charm in kitchen cookery. How very much dependable flour contributes to both the joy and the charm.

Fisher's Blend Brand Flour is uniformly dependable because it is made that way, scientifically. It has flavor, and color, and lightness—just as good for cakes and pastry as for bread.

Our "Fairies' Cook Book" has a section devoted to this delightful art of good cooking and offers something like forty tested recipes for your investigation. It will be mailed on request to the general offices of the Fisher Flouring Mills Company, Seattle, Washington.
