It is expected that Signor Belloni will leave no stone unturned to demonstrate the soundness of the League of Nations.

AMERICAN CAPITAL INVESTED ABROAD IN 1900 WAS \$590,000,000; AT THE END OF 1925, EXCLUSIVE OF GOVERNMENT LOANS, IT TOTALLED \$10,405,000,000.

BY HENRY WOOD
 (U. P. Staff Correspondent)
 GENEVA, June 30.—(UP)—In the preparation by the League of Nations of its International economic conference for 1927 a bitter fight is scheduled on the question of emigration—or as it is euphemistically termed for the purpose of not frightening anyone—movements of population. While European and League experts now recognize that emigration constitutes one of the most important factors in world-wide economic reconstruction—and especially in that of Europe—it is by no means certain that they will be able to get onto the agenda of the economic conference.

Mussolini's claims that nations with a large birth rate and excess of population must be given an adequate outlet. Nevertheless, that the investigation will be conducted on the broadcast lines possible is indicated by the following program that has been decided upon as a basis for the information to be collected:

1. Natural movements of population: births, deaths, marriages, during the periods 1903-13 and 1924-26 that is to say during the pre-war and post-war periods.
2. Artificial movements of population; emigration in its various forms, temporary and permanent.
3. Inquiry on uniform method, and with the aid of one or more experts, into the fluctuations of population arising out of the

potential forces during the next two decades.

4. Population density in relation to cultivable areas, natural resources on the surface and under ground.
5. Data concerning economic development and the standard of life.
6. Legislation on the movement of labor.
7. Legislation affecting international emigration in general.

Have You Met "The Union Oil Company?"
 Do You Know "Who It Is" and What Its Aims Are?
 The Purpose of This Announcement is to Introduce It to You

DOUBT you buy the products of this Company—non-detouring Union Gasoline and Aristo Motor Oil. And you know they are efficient in your motor.

But that doesn't satisfy us. We want you to know these products "personally"—the organization behind them and the standards and ideals on which it is built.

"Union Oil of California" is an organization that is forty-three years old. It is all Western. Its founder, Lyman Stewart, whose son is president of this Company today, drilled some of the first wells in the West in 1883.

Since that time "Union Oil" has developed as the great wide West has developed until it has become one of the biggest industrial institutions in the West of America.

The management and progress of "Union Oil" has been the result of the steady devotion of the men who have been associated with it. It is the result of the vision and energy of the men who have been associated with it.

When you use non-detouring Union Gasoline and Aristo Motor Oil, you are using the products of a Company that has been in business for forty-three years. Its products are the result of the vision and energy of the men who have been associated with it.

"Union Oil" isn't just a name. It means a standard of service. It means a standard of quality. It means a standard of efficiency. It means a standard of economy. It means a standard of safety. It means a standard of reliability. It means a standard of performance. It means a standard of excellence.

There is no "imitation" in "Union Oil". And it is this that makes it the only product of its kind that you can buy with confidence.

Union Oil Company of California

This is one of a series of announcements by the Union Oil Company which are being sent to all West Coast cities. Other acquainting you with the development of the oil industry will appear from time to time in this publication.
