WANTS AND OFFERS
INCLUDED IN COW'S BELLY

KANSAS CITY, Kan., July 18—(UP)—A cow with a cow's appetite was found at a packing plant here when a beefsteak was butchered.

Articles found in the cow's stomach included: eight brass shotgun shell caps, fourteen pistol cartridge shells, ten wire nails, one wire staple, one piece of saw blade, and scraps of brass, iron and steel.

The metal in the cow's stomach weighed one and a quarter pounds. The animal was in perfect health, and had been approved by a government inspector before being sent to the slaughter house.

Of 1802 persons who went to the top the other day, 322 walked; on another day 717 walked out of a total of 1997.

The old elevator took five minutes. The new one goes so fast that the passengers notice pressure on the ear drums, due to the rapid change in altitude, which was not perceptible on the old one.

Colorful scenes like those of centuries ago were enacted at Peking when Prince Fu Chia, cousin of the Chinese 'boy emperor,' Fu Yi, was married to Miss Tseng Hsueh-yuan, daughter of a former Chinese government official. This picture shows bride and groom in their ceremonial costumes worn at the wedding.

WASHINGTON, July 18—(UP)—Many tourists still climb the 565 feet to the top of the Washington Monument, despite the new speedy elevator that makes the trip in one minute and 15 seconds.

WHEN THE OLD BACK ACHES!
Just how hard it is for a man (or a woman, either with an aching back to nerve himself to his task, no one but the sufferer can tell. If he attends a school, where a lunch is served at recess he is indeed fortunate. Many children improve in their school work immediately after they begin to drink milk at school. in quantity and quality than would be much less paid for the lunch at the early recess. You have probably thought of school milk lunches as a noble charity for the children from poverty stricken homes. Many school physicians will tell you that some of the worst cases of malnutrition was found in children from the really well-to-do. The fact that you have plenty of good food does not insure your child against under-nourishment. It is not enough to put the food before the child. He must eat it. How many children have been classified as mentally slow when it is their stomachs and not their brains that need attention!—Child Welfare Magazine.
