REFLECTIONS OF A SPECTATOR AT A SUNDAY

By Mrs. Ohips

Our small city has been confronted, recently, with the momentous question of Sunday baseball. Its citizenry became divided into two earnest factions -the ayes and the noes. As they so often are, the noes of the community were victorious and the peaceful little city at the foot of the Siskiyous has not had its Sunday afternoon tranquility disturbed by the blatancy of baseball.

But enthusiastic youth was not to be denied. It evolved a way of getting around this problem just as it seems to be able to get ing it into a very creditable semwhat was needed most of alland began to play ball.

Lest Sunday, for no particular reason and from no special urge, I drove out to the ball grounds. Having no kith nor kin on the team and not having witnessed a baseball game for more years than I should like to confess to, I had no particular interest in the playing save that the home team must win, of course.

In consequence, my attention was divided between players and BASEBALLI GAME fans. I took ample opportunity to study my co-partners in distress on the hard bleacher seats. I wondered what it was that impelled nearly a thousand people to venture out into the heat of a quiet Sunday afternoon and sit

for several hours in hunched-up positions on backless seats just to watch a group of perspiring athletes bat a ball about a sunbaked field. I saw represented all classes of men, women and children-rich and poor, the so-called cultured and the uncultured, sporting men and sportsmen, and Sh! even one or two pillars of the church. Were any resentments shown or exceptions taken which might lead to fistic disorders, the disturbers would promptly be quelled, officially, and be shown the gate with money refunded-perhaps. With the exception of its raucity and its lively dissonances, a baseball game is a most orderly place. It gives to the dignified business man and to munity the same opportunity to-
