Quaker Oats
"stands by" you through the morning

Feel hungry and "fidgety" before lunch?—try this

TO feel right through the morning, you must have well-balanced, complete food at breakfast. At most other meals—that is, at luncheon and at dinner—you usually get that kind of food.

But at breakfast the great dietary mistake is most often made—a hurried meal, often badly chosen. Thus Quaker Oats, containing 16% protein, food's great tissue builder; 58% carbohydrate, its great energy element, plus all-important vitamins and the "bulk" that makes laxatives seldom needed, is the dietetic urge of the world today.

It is food that "stands by" you through the morning. Food that should start every breakfast in your home.

Don't deny yourself the natural stimulation this rich food offers. Get Quaker Oats today. Grocers have two kinds: Quick Quaker, which cooks in 3 to 5 minutes, and Quaker Oats.

Left for Klamath Falls

Mr. and Mrs. Ed Gowland left this morning by auto for Klamath Falls, where Mr. Gowland has accepted a position with the Temp-lar Motor Specialists.
