NEW FABRIC TO BE PERFECTED SHORTLY

LONDON — (AP) — A fabric to compete against artificial silk, at one-quarter the cost of the latter, has been developed by two British scientists, Dr. Dinahaw R. Nanji of Birmingham University and Dr. Frederick James Paton of Bristol University, Research Station, Campden.

By a chemical process which reduces the time of labor from several days to less than two hours, according to reports, they have treated flax and other fibres, imparting to them a lustre which rivals artificial silk and a strength and durability which exceed that of artificial silk. The cost of preparing the fibres is said to be one-quarter that of preparing artificial silk. The fibres can be spun on standard textile machinery, and the discoverers are taking steps to license British manufacturers.

The two scientists, after long experiments, have also developed a process for producing Ramie fibers from China grass, overcoming the past defect of brittleness and turning out a fibre which is soft, lustrous and easily spun. The new product is said to equal cotton and there is some expectation that it may make Great Britain's industries independent of foreign cotton supplies. The yield per acre of this grass is said to be from three to five times the yield of cotton.

Dan Kay Passes Chevrolet Exam With Fine Mark

Dan Kay today felt just as happy as a primary kid who had passed his first exams.

And for good reason, too. The Chevrolet Motor company recently conducted a national school of salesmanship for all its agents and salesmen. Mr. Kay, local agent for the Chevrolet, took the examination in Medford. And today received word that the "teacher" had given him a grade of 100. Out answered every one of them satisfactorily. And he answered them in his own language and his own way instead of using the stereotyped form of the automobile pamphlets. His record was the highest of any received on the Pacific Coast.

of 50 questions asked, he

She's Going to Atlantic City

They're beginning to call the roll of city bathing beauty champions, and one of the first to respond is Marguerite Jordan, whose jet black hair won for her over 156 other entries at Kansas City. She'll compete in the national tourney at Atlantic City.

REDUCTION IN AUTO TAXES TO BE MADE

WASHINGTON — (AP) — Motorists can look forward to the December session of Congress for reduction of the remaining automobile taxes and establishment of more national parks and good roads, according to American Automobile Association officials.

The last session was one of the best since the World War for motorists, five helpful steps for the motorist having been taken, as follows:

1. The war excise tax on trucks, tires, parts and accessories was repealed, and the 15 per cent tax on passenger cars was cut to 3 per cent, saving more than \$50,000,000 annually.
2. Appropriation of \$165,000,000 made for the next two fiscal years to carry out dollar-for-dollar federal highway aid plan.
3. Accepted membership by the United States in the Permanent Association of International Road Congresses.
4. Granted to states, counties and municipalities the privilege of acquiring or using lands for recreational purposes when such lands are not needed by the federal government.
5. Established the Shenandoah National Park in Virginia, the Great Smoky Mountain National Park in North Carolina and Tennessee, and the Mammoth Cave National Park in Kentucky.

Copco Stock is Being Purchased

D. G. Tyree, of Medford, Secretary of The California Oregon Power company, spent part of the week in Douglas county, at Roseburg and vicinity, assisting local members of the Copco organization in caring for orders for Copco's latest investment offering.

Mr. Tyree states "Careful investors everywhere throughout the field recognize the value of Copco Preferred Stock as a permanent investment. More than a thousand shares of this security have been purchased by the investing public during the past few weeks through members of our organization and banks in the field served by Copco.

Explosion Kills Fifteen Persons

ROME, Aug. 5. — (AP) — A report from Avellino states that 15 persons are dead and 30 injured as the result of an explosion in a fire works factory near Castle Franco.

Roseburg — North Umpqua road open to Steamboat, for one-way traffic.

Medford — Woodmen of the World building \$12,000 lodge.

The Finest Line of Tires in the World U. S. ROYAL CORDS

NOTHING TOUCHED IT!
"Nothing touched that aching spot until I took Foley Pills, a diuretic stimulant for the kidneys. I am so glad I can recommend them to others." Eased of her pain, Mrs. Ellen Reighard of South Fork, Penna., writes this thankfully. Foley Pills have helped many people—a reliable valuable medicine guaranteed to give satisfaction. Constantly in use over 25 years. Ask your druggist for Foley Pills. Sold everywhere. —No. 2.

How Gabriels Work

When your car hits a bump, the car springs compress, and the slack in the Gabriel belt is taken up by expansion of the coil spring "rib". Then as the rebound of the car spring commences, the 4 1-2 coils (giving up to 180 sq. ins. of friction surface) immediately tighten and begin to create friction on the brass band between them. This resistance increases gradually — returning the car springs to their normal position without a jerk or abrupt stop. The result is that those in the car stay on the seats and are not bounced or jolted from them.

PONTIAC SIX

CHIEF OF THE SIXES

The Pontiac Six is scoring the most spectacular first year success ever recorded in automotive history — because it meets the driving conditions of today like no other car in the world at its price.

Without an excess ounce of bulk — without an unnecessary inch in length, it is ideally suited to the congested highways of today. Having the largest engine of any six costing less than \$1,000, it flashes swiftly through congested traffic and so sturdily is it constructed that it can be held at top speed for as many continuous hours as the driver likes.

Yet despite its highly desirable external compactness, the Pontiac Six is a supremely comfortable car. Step into the Pontiac Six Sedan. Note its roominess. Mark well the wide, inviting seats and ample leg room.

Then remember, that with all its luxurious provisions for comfort, the Pontiac Six turns in a 39 foot circle — and that it can be quickly and easily parked in places too small for other cars of equal passenger capacity.
