BROTHEL KEEPERS FORM ORGANIZATION

TOKYO, (UP)—In order to keep the licensed "white slaves" of Tokyo satisfied with their condition and to prevent them from running away, the keepers of the Yoshiwara brothels have formed a self-defense organization, the object of which is to provide bonuses for those girls who faithfully fulfill the contracts they have made or their parents have made for them.
 Each girl on the conclusion of her contract is to receive Yen 500 for her own use, while money to meet such emergency expenses as hospital bills or for medical attention for the parents of the girls is to be made available. The bonus and promise of emergency money for parents are supposed to make the girls more contented with their lot and keep them in the brothels.
 In Nagasaki the police have discovered that brothel keepers have been cheating their girls and as a result of the discovery 21 girls have been liberated before their contract term had expired and six keepers are in jail.
 In another town, a boy of 12, who became heir to a brothel wherein seven girls were detained, liberated them on the urging of his sister.
 In many ways it is being shown that the system of licensed prostitution in Japan is breaking down under the force of public opinion, and more and more attention to the fate of girls sold into white slavery is being paid by the Japanese press.

Cowboy Risks Beat Toreador's All Hollow

The Spanish torero who risks a bull with a little spear is a romantic figure, but he doesn't begin to run the risk American cowboys take. Look at this picture, showing a cowboy bulldozing a sign at the Faircott (Ariz.); Frontier Days celebration. The cowboy has just leaped from his horse, with the sign flying in the air.

AMSTERDAM TO GET FINE NEW STADIUM

BY HENRY L. FARRELL
 (United Press Sports Editor)
 NEW YORK, Aug. 10.—(UP)—Amsterdam is planning to erect the most ornate plant that ever has been built for the comfort and convenience of Olympic athletes and spectators.
 The United Press has been favored with a drawing of the stadium through the courtesy of G. Van Rossem, general secretary of the Nederlandsch Olympisch Comité, which is to act as the host of the world's greatest athletes who will compete in the 1928 games.
 Although the program and the dates have not been decided upon by the International Olympic Committee, the Holland officials have gone ahead with their financial arrangements and have funds sufficient to erect a plant which will be the best looking and the most comfortable that ever has been used for the Olympic games.
 The drawing shows a most extensive and expansive layout and architectural style equalled only by the thny stadium at Antwerp, which may have had some shortcomings but certainly lacked nothing in beauty.
 Plans have been drawn for a huge stadium for the track and field games, a big pool for aquatic events, a field for polo and the equestrian games, a large field for cricket and football, a track for cycling races, a large tennis plant and a village for the athletes.
 Near the plant is also a course for rowing and yachting.
 In Paris the games were spread over and around the city but Amsterdam has decided upon the entire program conducted practically under one roof, a great convenience alike to trainers, athletes and spectators.
 The tennis plant is to be made very complete, with a center court surrounded by stands and including three courts and ten courts outside.
 The completeness of the plant

and the thoroughness of the plans probably will come as a surprise to some members of the international committee who wanted Holland to produce some cash in sight to guarantee that the games could be sponsored properly.
 Los Angeles, two years ago, was offering all kinds of inducements to get the 1928 games, such as paying traveling expenses of all foreign teams to and from Los Angeles. This offer, of course, appealed to some of the less wealthy foreign nations but complaint was made that it favored professionalism and that Holland deserved at least the courtesy of an attempt to organize the games.
 "You don't know those Dutch people," a prominent member of the committee said. "They don't make much noise when they're doing things but they do them and do them right."
 As far as advance arrangements are concerned, the Dutch surely plan to do it right and no doubt will do it.

TU-YEAR-OLD WEL START HIGH SCHOOL

HOLLYWOOD, Cal., Aug. 11.—(UP)—When Maurice Murphy rolls at the Hollywood high school this fall he will probably have the distinction of being the youngest high school boy in Southern California.
 Maurice was hailed as Seattle's smallest baby in 1916. He weighed just one and one-half lbs. when born. At the age of ten he is a scholastic prodigy.
 Besides excelling in his studies, Maurice is an accomplished musician on both piano and organ; he writes, and is in demand at motion picture studios because of his histrionic ability.
 Maurice is proudest of the fact that he is an athlete as well as a student. He is an expert boxer, swimmer and all-round athlete. The boy has won three scholarships.

water is purchased the Talent district would set it aside for the use of Ashland and the water would be available even during a serious shortage such as prevailed this summer, it was declared.

What is news, anyway?

That depends a good deal on you. If you're one type of person, news is divorces, and murders, and heir-to-millions-hangs-self. If you're another type, news is closing quotations on the stock exchange. If you're somebody else, news is final scores at the ball field or race-track. But no matter what type of person you are, news is also information about the things you need and use in your every-day life. If there's a new style in coats or shoes or gloves—that's news. If there's a new type of vacuum cleaner or radio battery or vitamin—that's news. If there are improvements in automobiles, new records for the player piano, a better toothpaste—that's news.

You get all this news in the shape of advertisements. It's pretty important, advertising is. It keeps you informed about all kinds of things you need to know. It helps you. It saves you time and mistakes.
