OPERATION CHANGES ROOSTERS TO HENS

STOCKHOLM (UP) — How hens can be turned into roosters and male guinea pigs into hermaphrodites was demonstrated at the world Congress of physiologists, just closed here, by two French scientists, Professors Cardot and Pexard who spoke before an assembly of colleagues in the Stockholm city hall.

After a certain operation the hens begin laying eggs and begin to crow. By other experiments the two scholars had transformed hens into a mixture of half hen and half rooster, so that certain feathers were half those of one sex and half of the other. Among birds the male tendency predominates, the two lecturers said, while among mammals, the female qualities are the stronger.

Youth is Killed As Gun Explodes

NEWPORT, Ore., Sept. 15 (UP)—Lawrence Radd, 14, was killed instantly, late yesterday when a revolver in the hands of a playmate exploded, the bullet penetrating his heart. The boy did not think the gun was loaded.

Pocketbooks Now Proving Popular

BY HEDDA HOYT
(Written for the United Press)
NEW YORK, Sept. 15.—(UP)—Some women are spending so much on the new handbags and pocketbooks that they have little money left for other accessories. And who can blame them? Pocketbooks have never been so beautiful as they are this season and each costume must have its own harmoniously matched bag to be considered smart. Shapes of handbags vary from large or medium-sized envelopes to flat pouch effects. Bags with long strap handles are not the new or smart as those with short straps or disappearing ones. On many of the pouch bags the short strap handles which can be slipped down into the bag when one wishes the handle-less model.

Lizard and reptile skins of all sorts, calf's leather, suede, velvet, and even ostrich hide is used in the making of the modern hand bag. Black suede is particularly important this year and it is astonishing how many black bags are being sold. Chanel red, jungle green, tan and brown are other good bag colors which come in both suede and glazed leather styles. The large square envelope of suede with the flap outlined in tiny gilt chains is new and smart. Some smaller envelope shapes are made exactly like envelopes being attached to represent an envelope.

Velvet bags appeal to those who plan on wearing velvet costumes. Pouch shapes in velvet are not so good this year. The velvet bag may be trimmed in gilt or silver piping and adorned with a gold metal clasp set with brilliants or with a cut-steel clasp. Dull costume shades are those best liked for velvet models. A handsome dressy bag is made entirely of gilt leather in envelope shape; stenciled effects on unadorned leathers are among the novelties with plain, mottled or modernistic designs on dull backgrounds.

Not Construction under way on 4 room school building.

Bay Ocean—Important road, street and building improvements prevail this year.

Parkdale—First carload shipment of year goes to Boston.

Springfield—Booth-Kelly Lumber company building \$7,000 retail lumber shed.

PURE SHASTA FRUIT
We are making, here in Ashland, a pure food, wholesome and nutritious fruit filled production known as **Shasta Fruit Ice Cream**. It is carefully and honestly made and your children will be greatly benefitted if they are provided with it at least once every day. You'll Like It Better Than Anything You Ever Ate.

ASHLAND CREAMERY

SHOPPING WITH CHECKS

The practice of making payment for purchases by the women of the community by check is rapidly on the increase in the Ashland community. Hundreds of times we have heard the plaint of lost cash by women while down-town buying. When you pay by check you have a receipt, good in any court, in the cancelled check. Your bookkeeping is practically all done and you eliminate any chance to lose cash or currency.

FIRST NATIONAL BANK
ASHLAND, OREGON

You buy oil to protect your car. "Union Oil of California" makes oil to protect its reputation. That reputation has stood for forty-three years. Try—

Aristo Motor Oil

Non-Carbonizing Western

Aristo Motor Oil is all lubrication, containing neither paraffin nor asphalt. The hard, flinty abrasive "carbon" that many motorists find on valves, cylinder heads and spark plugs after a few thousand miles of use never comes from this fine Western oil.

The small amount of residue that Aristo leaves is a fine, soft, fluffy substance, most of which blows out with the exhaust.

Motors in good condition which are lubricated with Aristo, therefore, run several years without the troubles, lay-ups and expense so often due to "carbon."

A further preventative of "carbon" is the use of non-detonating Union Gasoline with Aristo Motor Oil. This combination is probably the most effective that is known.
