NOW DRIVE THE CAR!

Only those who have driven a Dodge Brothers Special Sedan—or any Dodge Brothers car BUILT RECENTLY—can fully appreciate all that Dodge Brothers have accomplished during the past few months.

So swiftly has improvement followed improvement, that today the car, to all intents and purposes, is a different and incomparably finer vehicle.

The announcement of smart new body lines and attractive color combinations first attracted general favor. But since then, improvements even more fundamental have been accomplished mechanically.

Drive the car NOW! Observe its impressive new silence, smoothness and elasticity of performance, and you will then begin to realize just how vital and varied these and other later improvements actually are.

—Why this new and greater gasoline actually costs you less

GENERAL MOTO-CRAT GASOLINE

You pay the same for General "Moto-crat" Gasoline as you do for other motor fuels. But actually it costs you less—

Because—you get a noticeable increase in gas-miles.

Because—there are no acids or sulphur to eat metal and foul spark plugs.

Because—there are no fuel knocks to pound bearings.

Because—you get a noticeable increase in power and pick-up.

As a result—lower transportation cost. General "Moto-crat" Gasoline is the

result of years of effort to produce the perfectly balanced motor fuel. It is highly volatile—every drop vaporizes and ignites instantly. It is super cold-weather gasoline. But gas-miles have not been sacrificed for that added power. Power has not been sacrificed for mileage.

See your General Independent Dealer today. Fill up with General "Moto-crat" Gasoline. It actually costs you less.

Be sure that "at the end of the run" your motor will be as sound as at the beginning. Use General Parabase Motor Oils [for Fords use ParaArd].
