If Kidneys Act Bad Take Salts

Says Backache Often Means You Have Not Been Drinking Enough Water

When you wake up with backache and dull misery in the kidney region it may mean you have been eating foods which create acids, says a well-known authority. An excess of such acids overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and sluggish. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels, removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sour, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good, reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to help clean and stimulate sluggish kidneys, also to neutralize acids in the system, so they no longer irritate, thus often relieving bladder weakness. Jad Salts is inexpensive, cannot injure and makes a delightful, effervescent lithia-water drink. Drink lots of soft water.

Taxation, Capital and the Oregon Farmer

BY BRUCE DENNIS

Author of the Dennis Resolution

During the heat and excitement of political campaigns and the confusing statements that attend them we are apt at times to forget hard economic facts, and the bitter fruits of some pet "ism" that look good in theory but do heavy damage in practice.

For this reason it is time to begin telling a few plain truths about land taxation, the incomes of our people, corporations and industries, and again to bring to mind the fact that capital does not need Oregon — but Oregon does need capital.

And the reason why we should continue to remind ourselves and our friends is because another effort is being made to force a state income tax upon our people despite the fact that practically the same tax cost many millions in capital and improvements to Oregon and the people of Oregon before it was repealed in 1924. We cannot expect a proved breeder of hard times to bring good times, because it can't be done. And here are a few of the reasons why.

In all of Oregon's 96,000 square miles there is an estimated population of only 825,000 people — less than 9 to the square mile. We have 55,157 farms—an average of one to every 15 people. We have only 2500 industries that employ five men or more—an average of one industry to every 330 people.

Out of Oregon's 825,000 people, 782,256 didn't have net incomes big enough, to file income tax returns. Of the 42,545 who did, one-half of them showed earnings under \$3000 and only 311 had earnings in excess of \$10,000. Only one-fifth of Oregon's 5000 corporations made enough to file returns and of the 1973 reporting, 478 made less than \$5000, and only 183 made in excess of \$20,000.

Our farms and our industries are our two main sources for new wealth. They both face hard problems on account of scant and scattered population, long hauls, competition, insufficient capital, and heavy and ever-mounting taxes. If our farms are to prosper they have to secure outside money for loans and money to finance crops. If our industries are to develop they have to finance their purchases and payrolls. Both have to have markets and that means new people and more industries.

That is what the Dennis resolution is designed to do. It is an invitation for capital to come in and help us all out. We desperately need new money to open up the state. We have to have money for farm loans and no matter how pretty this talk sounds about a state income tax we cannot escape the economic and unalterable fact that new capital which we require does not have to and will not come to Oregon unless we make it advantageous for it to do so.

We must remember that there are 120,000,000 people in the United States. Of them one hundred and nineteen million plus, live outside of Oregon. They have plenty of need for the same money in case we of Oregon don't show that we really want it. We tried it once—and before the people repealed the state income tax it cost us millions; drove industries, payrolls and taxable wealth out of Oregon and taxes still went up! Every farmer who had to borrow money knows what it did to him, too.

No forward thinking and constructive citizen wants that disaster to happen again.

Instead of making things hard for everybody—farmer, merchant, industrial worker and citizens in general we want to have a purely economic problem taken out of politics. The way to do it is to vote no against both the Grange Income Tax Bill and Offset Tax Bill and vote yes for the Dennis resolution. By this means we guarantee to every citizen, industry, and to capital that there will be no income tax before 1940. It further guarantees to every family that they will not have to pay taxes on their savings when their bread winner dies. It is a prosperity-making measure—it is sound business policy and deserves every progressive citizen's support.

Vote 306 X YES—Dennis Resolution
Vote 329 X NO—Offset Income Tax Bill
