PLEASURE PLANES USED BY RICH ENGLISHMEN

LONDON, (United Press)—Light seaplanes, owner-driven for pleasure, are becoming popular along the English coast, according to Captain H. Broad, who recently won the King's Cup race for light land machines.

Owing to the construction of floats, light small seaplanes will probably cost more than the small land machines.

A number of members of the peerage own their own airplanes and use them regularly for hops between London and their country places.

BRITISH 'UNCIVILIZED' WHEN VISITING FRANCE

LONDON—(United Press)—That Continental comic papers have some justification for their cartoons of the British tourists abroad, is the candid admission of a returning English traveler.

"Where do all our queer types come from?" he demands in a letter to the press. "I have seen Britons abroad that looked and acted as though they had stepped out of a funny paper."

"I have seen Britons sitting in their shirt sleeves before the cafes in Paris. Paris is gay, but Paris is conventional, and does not like to see men in undress."

"No respectable Frenchwoman ever smokes in front of a cafe, but British and American women do so constantly."

"Worse yet, I have seen and heard British tourists 'doing' cathedrals and churches during Mass. The result is that on the Continent people have learned to describe anything gauche as 'typically British.' It certainly makes you squirm."

WANTS TO BROADCAST THANKS FOR HEALTH RECOVERY

"You know," says Arthur O'Malley, Carson Hill, Cal., "I would like you to broadcast this. I suffered from kidney and rheumatic trouble, but less than two bottles of Foley Pills, diuretic, relieved me entirely, and I want other sick people to know about them." Foley Pills, a diuretic stimulant for the kidneys, are a reliable, valuable medicine, constantly in use, over 25 years.

Further History of 'Y' Is Given

Surpassing even the vaguest hopes of its founder, the Young Men's Christian Association spread to different parts of the great city of London; eight points being established in the first seven years. It then spread to Germany, Switzerland, France and other European countries. From Europe the idea was soon carried by a group of young men to the North American Continent where it fell into more congenial soil than was found for it in Europe. On this new continent it developed into an agency and organization with a staff of workers and an equipment, the strong, contagious, shaping influence of which has been felt in Europe, where the original germ was planted, and throughout the world. As the growth of this great organization is traced, it should never be forgotten that the foundations of the Young

Men's Christian Association were laid in a prayer meeting in an upper room, in the fervent effectual prayers of two young men.

"IN THE HEART OF TOWN"

Attention Voters!

As candidates of the Democratic Party asking the honor and responsibility of representing this county and district in the State Legislature, you have a right to know where we stand on issues that are paramount to you and the voters of Oregon.

1. We heartily favor the Oregon Direct Primary law and are unalterably opposed to any alterations or amendments thereto, which seek to take from voters their right and privilege of nominating candidates for public office. The convention is a relic of the past.
2. We hold that the Dennis Resolution is inimical to the best interest of our county and state; that it is unfair, unjust, and if adopted will bind Oregon to a fixed program from which there will be no recourse for a period of 14 years, establishing a precedent that is dangerous in the extreme.
3. We believe in the strictest economy in government, consistent with a growing State and State Institutions.
4. We are opposed to the adoption of additional unnecessary laws which serve no other purpose than to entangle Oregon citizens in a maze of red tape.
5. We believe in law enforcement, BUT HONEST LAWS UNDER WHICH CITIZENS CAN LIVE WITHOUT BEING OUTLAWS.

THAT VOTERS MAY KNOW:

We ask Republican Legislative Candidates to announce through the newspapers where they stand on these important issues: What is your position on the Dennis Resolution? Where do you stand on the Direct Primary, and is it not a fact that you are pledged to introduce in the Legislature and work for the adoption of a Pre-Primary Convention measure, which has for its object the nullification of the Direct Primary law?
