At the Cross Roads

Shale oil production in Ashland has reached the cross-roads. To the right points a sign which leads to success, to larger payrolls, to unlimited prosperity for Ashland. This is the road we want to take. This is the road which means so much to the people of this city.

Motive Power Needed

Motive power in the form of prompt and urgent financial aid is needed right now. Compared to the vast sum which we ourselves have spent to make shale oil production in Ashland an assured success, it is a small amount, indeed. But it must be given RIGHT NOW. Without this motive power we must remain at the cross-roads, knowing in our hearts that the road to the right will bring prosperity to all.

Opportunity Is Knocking

Don't pass up this chance to give Ashland what is destined to be the greatest industry in Southern Oregon. Don't snub OPPORTUNITY as she enters the portals of your city. Show faith in your community. Show faith in the God-given resources that are exemplified in the unlimited quantities of shale rock on the outskirts of your city.

Ashland Always Makes Good

Delays are costly. We need only a few thousand dollars to prove the success of our shale retort machinery. But we must get it quickly. If Ashland will only show the same faith and courage and public spirit she has displayed in the past the shale oil industry is certain to succeed and bring to the city unlimited wealth.
