AC, P. E. O. Entertained at Poley Home—
Chapter AC, P. E. O., were delightfully entertained by the Misses Eva and Minnie Poley at their attractive home on B St., Thursday evening, December 29.

The house was artistically decorated with Christmas decorations, green and red streamers being in evidence everywhere.

The evening was pleasantly spent in conversation, interesting games and music until a late hour when the hostess served very dainty refreshments. The sandwiches were unusually clever, being made to represent a poinsettia, by the use of pimentos.

Program Greatly Enjoyed—
The Christmas program, which was given by the Sunday School of the Full Gospel Temple, was thoroughly enjoyed by all those present.

The program consisted of music and recitations. The church was most beautifully decorated with evergreen, mistletoe and Oregon grape draped over the windows and doors and carefully woven with colorful poinsettias, which made the effect very attractive.

The beautiful tree with its many brilliant trimmings added much to the beautifying of the church, and reflected much credit upon those who had the work in hand.

After the delightful program the Christmas treats were given by the committee in charge and the club.

Mrs. G. A. Briscoe's group of the Delphians met Tuesday, December 28, at the attractive home of Mrs. Charles A. Haines on Gresham street.

Mrs. H. C. Gale's group of the Delphians met at the pleasant home of Mrs. S. A. Peters, Jr., on Iowa street, Tuesday, December 28.

The afternoon was spent in a general discussion of matters concerning the club, and owing to the various Christmas activities there was not as large an attendance as there usually is.

A good cold weather starter now more dependable than ever
Probably no single feature of Dodge Brothers Motor Car has been more widely talked about and commended than the power and promptness of the starter.
The new two-unit starting and lighting system now advances Dodge Brothers leadership in this important respect still further.
There are now no moving starter parts when the car is in motion—no starter chain—no noise—no wear. The new starter is even more DEPENDABLE than the old, and far simpler and more compact in construction.
Many other major improvements have been added during the past twelve months, all vitally affecting performance and increasing value far beyond the apparent measure of current Dodge Brothers prices.
