ASHLAND DAILY TIDINGS

Entered at the Ashland, Oregon Postoffice as Second Class Mail Matter.

The Best Month

During the month of December the Tidings published more paid local advertising than in any one previous month in the history of the paper.

Ashland merchants, or many of them, some few months ago declared they would be glad to increase their newspaper advertising provided there was a spirit of cooperation existing between the paper and the business institutions.

Ashland merchants have kept their faith. They have supported the Ashland Tidings more generously than they have ever done in the past.

In return for this showing which has been made possible through the cooperation of the local business houses, there is a desire upon the part of this paper, to redouble our efforts to better serve the community.

Lending to Neighbors

Americans, from their big prosperity savings, have lent \$1,200,000,000 in foreign countries last year. These are private loans, and are more likely to be repaid than the government loans made during and after the war.

More of this money has gone to our American neighbors than to Europe. And in lending liberally to Canada and Latin-America, our people have shown more wisdom than in lending to the old world.

It is better to use American money to develop America—first our own country, than neighboring countries. This hemisphere is destined to become a great economic and financial unit, if not a political unit, and it is good Americanism to help along any tendency in that direction.

The trend toward political unity can hardly lead to anything more than an international grouping. The United States has all it can do to govern itself without trying to govern the whole hemisphere and in doing so, to make enemies everywhere outside of our own boundaries.

Headlines you never see: FORD RETIRES FROM BUSINESS; WILL SPEND LAST DAYS IN PALESTINE.

Now we know where Santa Claus spends his summers. The old fellow can be seen after the games, frolicking around under the grandstands in the big league parks.

Christmas cards revealed one thing, anyway. A lot of people have very peculiar middle names. An optimist is cynical of woe.

If you think cold showers are lot of fun, you're all wet.

We all obey custom more than we obey law. Ignorance gets some of us into trouble; others it keeps out. Few men get the job they want, and have to take the one they can get.

Probably no household was ever fully prepared for the arrival of twins.

Rich fools are called "eccentric," while poor fools go by the name of "nuts."

Opinions, like linen, should be occasionally changed to keep them wholesome.

Her Heck says: "It kin be said in favor o' Eve that she never got mad and threatened to go home to her mother."

Spent Yesterday in Ashland—Mrs. Herb Husong of Medford spent the day in this city yesterday visiting with friends. Mrs.

TRACKED BY THE POLICE, starring Rita-Tita-Tita in a Warner Bros. production of this novel.

CHAPTER 14—Continued Jimmy was coming tonight with Ruth to leave him with Ruth. What safety in the power of those shaggy sides and glinting teeth what contended in his vigilance?

There came a familiar and unpleasant knock on the door by a fat, soft, pulpy hand that made the flesh creep on her stomach and thigs in physical distaste.

Jimmy turned the knob and opened the door, admitting Murtagh. He strolled in, aggressively sure of himself. He laid his hat and coat aside and smilingly grasped Ruth's hand and leered into her eyes.

Ruth was instinctively sensing a danger in Murtagh's intentions to give her. Her vision had sensitively read his intentions, his mind. And how tightly she had held her hand!

Crater Lake In Winter Time

BY JOHN HABIN Caretaker at Crater Lake Lodge Tuesday, Nov. 10, 1928.

Today I heard Lila Rock roar for the first time this winter, it fairly shook the Lodge. It takes two or three days of storm to make conditions right, then a good hard freeze and two hours or so of sunshine, the sound can be heard for miles.

I do not know if you have noticed it, but there is a funnel shaped cup near the front on the south angle. This cup is probably 500 feet deep and a quarter of a mile wide across the top.

The head officers were present with lovely red carnations. After the installation ceremony was over, the members enjoyed a delicious covered-dish supper at a table beautifully decorated with flowers.

Ladies of Civic Club Have Party Tuesday—The ladies of the Civic Improvement club enjoyed a delightful party in the civic club house on Winburn Way, Tuesday afternoon, January fourth.
