## Do Mothers And Babies Matter?

If an epidemic breaks out among the hogs in this great country watch the statesmen hustle to vote appropriations for checking it.

Have you ever looked over the amounts of money voted by Congress for the improvement of rivers and harbors in response to the demands of local interests?

Not much is being said these days about battleships, but millions are still being poured out for building and repairing war vessels.

Is there any farm animal as precious as the 180,000 babies who die each year and the 16,000 mothers who die in childbirth annually?

Is there any shorefront, harbor or channel so essential that it must be reclaimed at the cost of these lives, or any business that is paramount to them?

Is there any war as close to us as the war on the ignorance, negligence and cruel environment that needlessly crush out the spark of life in babies new born and the patient woman who bear them?

To our shame it is recorded that Congress has so far failed to renew the appropriation for the most practical work that our government has ever done for the saving of mothers and babies. The Sheppard-Towner act passed in 1921 started work which has been proved successful. It appropriated money for a five-year period. That period expires next June. Last winter the House overwhelmingly passed a bill to extend it for two years. A committee of the grave and reverend Senate quibbled and recommended that the extension be for only one year. And the Senate itself never even voted on the bill.

Why? Is it some reckless extravagance that would seriously cripple our expenditures on behalf of the farmer, the business man and the military? Not at all. The annual expense is only \$1,240,000. Of this, \$50,000 is for administration in the Children's Bureau. The balance is divided among the several states \$5,000 outright to each state and the balance doled out only in such amounts as the states are willing to match with additional appropriations from their own funds. Forty-three states have shown their appreciation by accepting the act and spending a total of more than \$700,000 of their own money to help out,

What has been done! Well, in two years nearly 600,000 babies were examined; 75,000 mothers given proper advice; 40,000 mid-wives instructed and nearly 10,000 expectant mothers visited and their anxious questions answered. Mothers' classes were organized and attended by more than 160,000. Classes for little mothers—those big sisters who carry so much of the burden of child-rearing-were organized in more than 5,000 places. There were 26,000 child health conferences, 1,700 infant welfare stations founded.

This work has won the endorsement of doctors and public health authorities, of women's organizations and parents, and the eternal gratitude of thousands of mothers. Yet it is only beginning. There has been only time enough to lay a sound foundation. The number of infant deaths has decreased but so much remains to be done that it would be criminal folly to let the effort relax if only for a week.

The session of Congress now opening must pass the bill to extend the appropriation. It must pass it at once in order that the state legislatures. many of which are meeting, may make their appropriations to match the federal grants. Will women everywhere, as individuals and as groups, write or telegraph their senators to pass the appropriations under the Sheppard-Towner act?-Woman's Home Companion.

News dispatches tell us that Japanese censors have cut out a million feet of film kisses. This must make it hard to end a show in Japan.

The cynic who said flappers' clothes resembled dish rags had better leave the country before some flapper finds out what a dish rag really looks like.

Some of us are anxious to live another twentyfive years, if only to see what the descendants will consider a demonstrative child; or, mayhap, to see what Dame Fashion decrees for milady.

Years ago they fed the prodical son on fatted calf. Now he gets buckwheat cakes and sausage at White House breakfast.

Organized baseball seems to be having a hard time getting rid of its diamond flaws.

It is estimated that only three per cent of all onitions of war are felt by persons who have othing to sell the government.

## Crater Lake In Winter Time

BY JOHN MABIN Caretaker at Crater Lake Lodge

Saturday, November 27, 1926 At one time today it looked as f the sun would shine and I got kodak all ready and watched knew it wouldn't stay out long when it came. There was a brightening in the southwest and I dropped my work and grabbed my camera, cranked up my snowshoes and went up to the edge of the timber. I set up and got everything ready, but just as I had everything set, the wind came up and the for and snow came down. held my cap over the lense and waited. There were two or three breaks in the flurrie but thought by waiting I would have better chance. I don't know now long I stood there but it nowed an inch before I gave it p and went inside.

The lake has not been visible or a number of days. At times can hear the waves so I know here is still water in it. waves have been rolling high lown there from the sound that omes up over the rim. At night you can hear them throb and

eat above the noise of the wind. Tomorrow, if the day is fair am going to take a trip around and get acquainted. I know things have been moved around bit and I am going to see if I like the way they are arranged. If I don't I'll have them changed (maybe).

Work-Worked on table lamps. Weather-The day has been loudy, wind south and west; snowfall since last observation in., precipitation .99 in., depth of snow on ground 50 in., Temp. H. 29, L. 24, R. 5, M. 26.5.

Mrs. Carl Glasgow's cousins Mr. and Mrs. Eugene Amann of Wolf Creek, Ore., were visitors at the Glasgow home last week on their way home from Oakland. Cal., where they spent the holidays.

Monday afternoon Mrs. A. H. Davenhill very delightfully entertained the program committee and program leaders of the Valley View community Club.

Mrs. Morris Jones who was reported ill last week has sufficently recovered to be brought to the home of her parents, Mr. and Mrs. Jas. Lennox Monday after-

The Southern Oregon poultry Producers Association is doing a real service to the people of Valley View by collecting eggs and delivering feed each Wednesday. The association should have the cooperation of all poultry producers, for, as in other lines of busiless, success lies in organization.

The Southern Oregon Cooperaive Telephone Association held heir annual business meeting at the school house Monday evening.

The piano at the school house and several others in the community were tuned last week by Mr. Brooks of the Palmer Music House in Medford. Mr. and Mrs. Schirman of Med-

ford and Mr. and Mrs. Santee of Coos county were guests of Mr. and Mrs. John Arnold Tuesday. Albert Arnold returned Tuesday from Dead Indian where he was looking after cattle interests.

## Yaqui Indians

MEXICO CITY, Jan. 20 .- (U-N)-Yaqui Indians, who have been in a state of revolt, have offered to surrender to the government forces and ald in fighting the rebels, their former allies, according to dispatches received tonight. The offer was tansmitted through General Obregon, who

water were smacked vigorously to-gether until genteel palms smarted and reddened. Voices that had nev-er taken on the brass of commerce oried: "Great shot, Forbes! Bully work, America!" Youngsters and oried: "Great shot, Forbes! Bally work, America!" Youngsters and oldsters raised something of a clamor with auto horns. Many young girls squeaked a bit, and Stivner gleated heartily. But only down in the paddock was there more enthusiasm than politeness. There would be seven between the fourth and fifth chukkers; time for a bit of respite then. But now, just enough to dash down to the paddock; off the weary, onto the fresh.

Ranny took out Firebug for the second chukker. Milkmaid would be ready for the third. Then Judy again—Judy, the favorite. Mean time, Stivner seized advantage of the chance for an abbreviated chat with Ranny, talking even while the

The Argentines galloped, rather than cantered, back to midfield, so impatient were they for the second coss-in and a chance to retrieve this immediate advantage their friendly quemies had secured. But Nos. 1, 2 and 3 of Ranny's side closed in and rode stirrer to stirrer with him at a somewhat less eager pace, boy-wally glorying in the blood that had been drawn rather than testing that still to be shed. Polo, after all, is a game for men with the hearts of boys.

It was the essential boyishness satisfaction of winning my wager—

that still to be shed. Polo, after all, is a game for men with the hearts of boys.

It was the essential boyishness of his nature that made Ranny sulkily exult in his shot, not for what it had meant, but for its reaction upon the object of his jeniousy and contempt. He managed a furtive glance back toward the sedan. It was not hard to conjure up a delightful pleture of the chagrin on Abner's dark face,

Into it again. There! Take it, Number 1! Ride him out, 3—ride him out. Ah, a beautiful long diagonal pass and a saffron Argentine back streaking after it, dribbling it along with short, anappy strokes until he should came within range of the Tornament, after him!" But Ranay had beattated inniertly, his thoughts with Jean and Abner in the car in the day of the pard expanse of playing field. Stivner chuckled cordially. "The satisfaction of winning my wager—and, even greater, of seeing your wonderful play win for America—won't make me filly disposed toward you, now will it?"

The immer king, whose social and business power made him undentably a personage of immense distinction, was obviously as boyishly proud of his privilege in talking to the star polo player as a sand lot kid would be in talking to Babe Ruth. "Seriously," went on Stivner, "you and I have much in common, Forbes. I hope we'll see a lot of each other hereafter. For the present I'm going to look up Gradman and see if he'd like to double the bet."

"You'll find him is my car talking to my wite!" said Ranny, so bitterly that Ettraer arched his brows.

besitated imalertly, his thoughts eith Jean and Abner in the car in small of on the shimmering 500 by the yard expanse of playing field.

The game mad mare stretched and at full tilt until her lean little bely almost scraped the ground believe a glesy oneness. Ramy flatered up over her neck jockeywise, dring her free head. There! The local are here head the ball beautiful for a straightway try at the spurs at the almost motioniess where, all the confidence in the corld in the free swing of his mand as he had a poloist he could make any woman happy."

Joan said quite femininely—and a bit witfully.

Abner frowned. It would not do to have Ranny become again a here in his wife's ayes. Then there was the stands in his stirrups for a toe-beld and throws his weight over to his miling side. Swish!

Let wall! Judy has rached her morting nostrile into the picture.
