THE LONGEST DAY
Who would check the happy feeling

That inspires the linnets song?
Who would stop the swallow,
wheeling
On her pinions swift and strong?

Yet, at this impressive season,
Words which tenderness can speak
From the truths of homely reason
Might exalt the loveliest cheek;

And, while shades to shades succeed
Steal the landscape from the sight
I would urge this moral pleading,
Last forerunner of "Good night!"

Summer ebbs; each day that follows
Is a reflux from on high,
Tending to the darksome hollows
Where the frosts of winter lie.

HIGH SCHOOL NOTES

Henry Enders gave the student body a rousing pep speech Friday morning. Mr. Enders rendered a little constructive criticism to the students, that struck home.

He said that the high school had gotten in a rut of thinking and acting. Just dormant. Mr. Enders then lead the student body in several pep songs and requested the students to think what they were singing, put their heart into it, rather than the mechanical repetition of the words.

Mr. Enders' talk put the fight in the students and a large number turned out for the basketball games this week-end to support their fighting team.

Reverend Hammond of the Trinity Episcopal church of this city gave an address Friday afternoon to the assembled student body on Abraham Lincoln. He told of some of his earliest impressions of our martyred president, who was nominated for the office of president when Rev. Hammond was just a small boy. Rev. Hammond help everyone's attention during his talk, which was much enjoyed by the entire student body.

Miss Laura Raguse's classes were suspended Friday afternoon as she was ill at home.

NINETY-FOURTH BIRTHDAY IS OBSERVED BY TWINS

BRIGHTON, Eng. — (UN) — Matthew and Mark, the famous Brighton twins, recently celebrated their 94th birthdays. Among the greetings which they received from all parts of England was a message from King George expressing the hope that they "are enjoying good health."

Born in Brighton when it was a mere coastal fishing town, both of the twins remember when English trains had neither tops nor sides. Mark has been married once and has four sons, one of whom is over 70. Matthew was married twice, but has no children.

James Nutter is the new, change manager for the Rogue News, as Charles Clary, who filled the position before, was graduated in mid-term.

New legislation to be brought up at the next student body meeting is in regard to new sweaters for basketball. In the past years, the sweaters for both football and basketball have been red with white stripes. The new legislation is for white sweaters and red stripes for basketball alone. A great deal of electioneering is taking place and the next student body meeting promises to be very interesting.

Barnes, during a period of recuperation, left Sunday with his family for Detroit, his former home, and the present home of his mother. Everyone who met Mr. Carty here likes him, and we sincerely hope the trip east will benefit him.

The practices for the Bellview play, "Cyclope Sally" are getting good, and the public can be assured of a treat for Thursday and Friday nights. DOCTOR FATALLY HURT. DIAGNOSES OWN INJURY.

LONDON — (UP) — Knocked down and run over by his own car, Dr. Sidney Wood, aged 62, physician and surgeon, waved away those who went to assist him, and carefully examined himself.

"Don't trouble to move me to hospital," he said at length. "Leave me here because I know that I shall be dead soon. I cannot move my legs; my spine is fractured."

He had cranked his car when it was in gear after attending a patient in Bottisham, near Cambridge. An ambulance was called and before being lifted into it, say good-bye for him to his friends and his neighbors around him and asked them to His diagnosis proved correct.

Study This Industry

In considering poultry raising as an industry, Ashland may well study what other communities which are developing poultry raising for commercial marketing have accomplished.

As one concrete example, we understand that Humboldt County, California, increased its baby chick population from 40,000 in the spring of 1925 to 450,000 last year. Very likely the million mark will be passed this year, for the industry is now well organized.

Poultry raising on a commercial scale may be considered as a worth-while industry for Jackson County. Why not let's start the ball rolling at Ashland?
