

CREWS BATTLE WATER IN MOFFAT TUNNEL

Are Preparing for Final Blast Which Will Take Place Friday

EAST PORTAL, Colo., Feb. 16. (UN)—Crews of workmen battled a subterranean flow of water within Moffat tunnel, and a blizzard outside tonight, as they worked on to prepare for the final blast, which will wipe out the last barrier of rock in the pioneer bore Friday.

The last barrier in the 6.1 mile bore under James Peak was "holed through" last Saturday with a three inch drill. The last blast will be set off Friday night by President Coolidge, pressing the famous golden key at the White House.

The waterflow was tapped by workmen today, but pumps were put into operation immediately and officials announced they believed they can have the tunnel dry in time for the ceremonial blast and the celebration which is to follow.

Snow from the blizzard which raged through the afternoon and evening was drifting rapidly and one crew of workers has been stationed along the highway leading to East Portal to keep the roads open for the many visitors expected Friday.

Linemen and experts from radio station KOA will complete their arrangements Wednesday for broadcasting the final shot.

Governor Dorn of Utah who was to have exchanged greetings with Governor W. H. Adams of Colorado in the center of the tunnel will be unable to take part in the ceremonies because of the funeral of Chief Justice Joseph E. Frick of Utah.

LORD BYNG PRESIDES WITHOUT GOLD BRAID

LONDON—(UP)—"Too many medals to be comfortable."

This was the situation Lord Byng, formerly Governor-General of Canada, found himself in when he was getting ready for a recent dinner at which he was to be toastmaster. The Prince of Wales was the guest of honor and everyone appeared with the most silver and gold braid possible. Lord Byng, however, displayed only with the medals of his court decorations, apparently finding that his full dress suit was sufficiently covered without the additional large number of war medals he was awarded during the World War.

EXACTLY SUITS ELDERLY PERSONS

There is a sound therapeutic reason why Foley's Honey and Tar Compound for coughs and colds is especially suited to the needs of elderly persons: because it contains no chloroform, or opiates to cause constipation, (that bug-bear of advancing years) and to dry up the natural and necessary secretions. Mildly laxative, wonderfully soothing and healing to the irritated area. Foley's Honey and Tar Compound quickly stops all coughs and throat irritations, lingering "flu" coughs and disturbing night coughs. Is exactly suited to the needs of elderly people. Ask for it. Sold everywhere.—No. 3.

Salem—New steamer of about 100 tons will be built for Willamette River service.

C. Clarence Nelson, mayor of Salt Lake City has been designated by Governor Dorn to represent Utah at the celebration.

Mrs. Adrian Wolff was the charming hostess at a party which was given at her home on Sixth street Tuesday afternoon, February fifteenth, in honor of Mrs. Charles Rush.

A pleasant time was spent in conversation, until a late hour when the hostess served delicious refreshments, most attractively arranged.

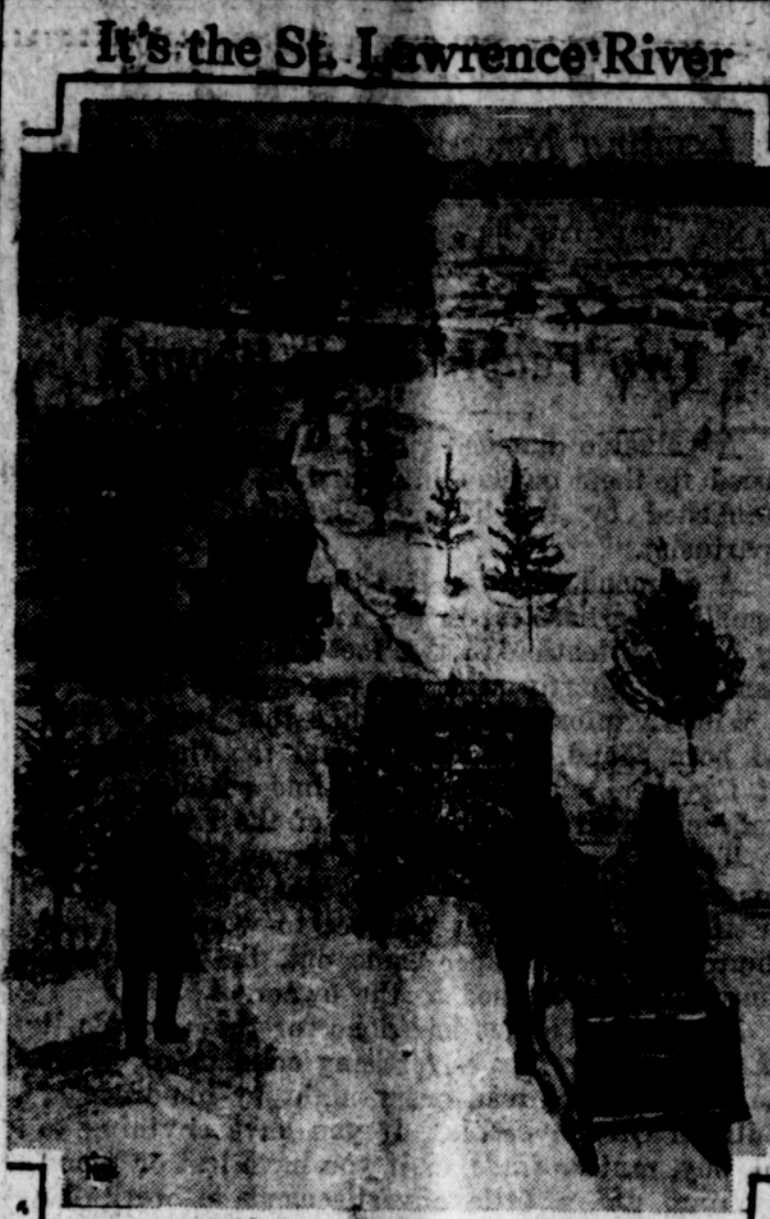

Those who enjoyed this happy affair were: Mrs. David Whittle, Mrs. Theodore Lockhart, Mrs. Robert Herrin, Mrs. Ralph Robinson, Mrs. Allen Autrey, Mrs. Buster Brown, Miss Erma Bens, the hostess, Mrs. Adrian Wolff and the honored guest, Mrs. Charles Rush.

Mrs. Burdick Entertains Saturday—

Mrs. R. L. Burdick, Jr., was the hostess on Saturday, February twelfth, when she entertained a number of friends at a delightful evening of bridge, at her home on High street.

Mrs. Claire Beebe held high score and Mrs. Domino Provost was awarded the consolation prize. At a late hour the hostess served delicious refreshments.

The guest list included the following: Mesdames Gerald Wendner, Domino Provost, John End-

The famous Queen Victoria bridge over the St. Lawrence river at Montreal, Quebec province, is closed for repairs, but traffic isn't inconvenienced much. Motorists and such go right across the ice—the river is frozen over solidly. This photo shows the route, marked by rows of small trees transplanted from nearby hills.

SHE MARRIED ANOTHER AND LANDS IN JAIL

Prisoner Claiming He Took Blame for Murder to Protect Sweetheart

COLUMBUS, O., Feb. 17. (UN)—When he learned that the girl for whose sake he went to prison had married another, John Speira, serving a life sentence for murder in the Ohio penitentiary, reconsidered his sacrifice, and set authorities on the trail of the girl and her father.

As a result of Speira's story, the girl, now Mrs. Nellie McGraw Dixon, her father, Newton McGraw, a wealthy business man of Portsmouth, Ohio, and Charles McGraw are in jail on charges of murder in connection with the death of Robert F. Morris, of Cincinnati and Nashville, Tenn., who was killed and robbed in 1923.

Morris' body was found near West Union, Ohio, a few days after his death in June, 1923. Speira was arrested, convicted and sentenced to life imprisonment, in December of that year.

Soon after being committed to the penitentiary he learned that Nellie McGraw was married. He then told prison authorities that he was innocent of the crime, but had taken the responsibility to save his sweetheart and her

Ford Coupe Will Be Given Away

One of the big attractions on the last night of the combined Spring Opening, style review and auto show will be the giving away of a 1927 Ford Coupe by the American Legion committee.

Interest in this dandy prize has reached a high pitch and indications are that the big armory will be jammed to its utmost capacity by persons anxious to learn the name of the fortunate man, who

Time and Thought for Improvement

The value of science and research in industry is strikingly illustrated in the review of Swift & Company's business for 1926.

Things don't "just happen." There is reason and thought behind each move.

Housewives are turning to lighter beef because of certain definite developments in American life;

Premium Ham and Bacon taste the same in New York as in San Francisco because science has made that possible;

Variations in texture and moisture, and in proportions of fat and lean have been overcome by uniform standards of manufacture.

Science and research play an important part in solving the problems that rise daily. Just how these problems are worked out, together with many more interesting facts about the business, is set forth in the Swift & Company 1927 Year Book.

A copy will be sent you free, for the asking. Just fill out the coupon below and mail.

General Petroleum Corporation, Seattle, Washington. I have frequent trips from Seattle to Bellingham, and took a quantity of General Gasoline. I was using, on returning I filled my tank with the new General. The difference was remarkable. Not only did I save time in refueling on the hills, but a chest of my tank showed I had used a gallon and a half less gasoline than previously. I have driven the car more miles frequently, but I find now that this is entirely unnecessary. The valves are as clean as a whistle. I'll never use any other brand but General if I can help it from now on. Yours truly, George R. Howard

More power—more gas-miles than ever before with the new

GENERAL GASOLINE

The new General Gasoline is highly volatile—every drop vaporizes—ignites instantly; that means quicker pickup, greater power.

The new General Gasoline is free from acids, sulphur, and other carbon and knock-producing compounds—that means a clean motor, un fouled spark plugs.

The new General Gasoline costs no more—it's worth a premium—your General Independent Dealer has it.

Drain your crank case and fill up with Parabase motor oil. Paratrol for Ford. "It's the end of the run that counts."

Write us about your unusual experiences with the greater General Gasoline. General Petroleum Corporation, 701 Mason Building, San Francisco.

Vital News

Nothing so vitally concerns you in every-day life as the urge and necessity to buy or sell—to give or take—to borrow or exchange. Look through the advertisements of this paper and you will find that they embody the chief impulses of living. The nation's life is clearly depicted in the national advertising. Our individual lives depend upon this advertising to a remarkable degree. A newspaper is a clearing-house for ideas and commodities. Reports of the shifting phases of life come to you through its news and editorial columns. But reports of the material things upon which you depend for sustenance, comfort and happiness come through the advertisements. If you read only one side of the paper, you gain only a half-knowledge of the activities, the aims, the character of the community. Read all and learn all. The advertisements are news which concern your every-day life
