**HAYS WANTS A BAR AGAINST CENSORS**  
(Continued From Page One)

and restriction, with no set standards, would have been forced to go out of business. "Then, too, censors have their own prejudices, their own likes and dislikes, which are not necessarily the likes and dislikes and prejudices which govern their neighbors.

"One censor board had a lawyer among its members and the lawyer objected to the showing of any picture in which an unethical or "crooked" lawyer appeared. An inland State prohibited the display of girls in bathing suits; while a seacoast state, which boasts one of the finest beaches in America, did not see impropriety in such scenes.

"Scenes of strike riots were ordered eliminated from news reels in one state at the same time its newspaper were using photographs of the exact incidents recorded in the films. Another board, upset by the appearance in a picture of an employer who did not use safety devices to protect his employees, ordered insertion of a title reading: 'Henry Jones, a type of employer now happily extinct, who does not believe in safety devices.'

"The public, having its attention called to the matter realizes that censorship is the wrong method of protecting the people from real and fancied danger. Censorship has proved as ineffective in operation as it was un-

essary in actuality. "For instance the city of Chicago passed a city ordinance twelve years ago providing for censorship of motion pictures. For twelve years Chicago censors have eliminated from the cinema reference to crime, hold-ups, carrying of firearms, bootleggers, etc. And does anyone say that Chicago has become a more model city because of these prohibitions than its sister cities where more such practice has not obtained?"

citiation methods. One of the men called Klamath Falls for the ambulance and a physician. Both arrived soon after. From the moment Lippert collapsed at the feet of Montgomery, until after 7 o'clock, fellow employes and the physician worked over him frantically.
